# Business Solar Energy Program
# Energy Efficiency Commitment Statement

# A2

**Interconnection Only Applicants** - skip this form.

**Photovoltaic (PV) Rebate Applicants:** If Building is 100,000 sq. ft. or larger, has an ENERGY STAR benchmarking score or 75 or lower, and is proceeding with submitting a rebate for the PV system, please complete this form.

To be completed by the Building Owner.

| | |
|---|---|
| **Statement #1** | I certify that I am the owner of the commercial building located at:<br>_____ **(address and Zip Code)**,<br>And, that I am applying for a PV system rebate at this building. |
| **Statement #2** | For buildings with 100,000 sq. ft. or more of conditioned space, retro-commissioning (RCx) is mandatory per California State law SB1 if the building ENERGY STAR Portfolio Manager benchmark energy performance rating is below 75.<br>RE recommends the customer achieve a rating of 75 prior to submitting an application for rebate for a PV system. |
| **Statement #3** | This facility has a score that is currently lower than 75, and I understand that the authorization of a rebate payment will not occur until:<br>1. Applicant conducts a RCx audit and submits a copy of the RCx report to the RE Program Administrator<br>2. RCx repairs, adjustments, and the installation of cost effective energy efficiency measures and equipment are installed and verified by the RE Program Administrator<br>3. A post RCx benchmarking score of 75 or higher is achieved and customer provides a copy of this report to the RE Program Administrator<br>4. RCx recommended energy efficiency equipment and appliances must be ENERGY STAR approved if available |
| **Statement #4** | Benchmark Score Achievement Timeline:<br>1. Customer has a deadline of 1 year from application date to reach a score of 75 or more<br>2. RCx recommended repairs, adjustments, and the installation of cost effective energy efficiency measures, equipment and appliances must be installed and verified by the RE Program Administrator<br>3. If a score of 75 is not received within one year of application the customer forfeits potential PV system rebates for the project, and will not be eligible to reapply at a later date. |

Building owner acknowledges, understands, and agrees to the four Energy Efficiency Commitment Statements listed on this form, and wishes to proceed with submitting FORM A - "PV Installation Application" with the intention of obtaining rebates for energy produced from the PV system being installed.
