Business Solar Energy Program
Energy Efficiency Commitment Statement

A2

Interconnection Only Applicants - skip this form.

Photovoltaic (PV) Rebate Applicants: If Building is 100,000 sq. ft. or larger, has an ENERGY STAR benchmarking score or 75 or lower, and is proceeding with submitting a rebate for the PV system, please complete this form.

To be completed by the Building Owner.

Statement #1	I certify that I am the owner of the commercial building located at: _____ **(address and Zip Code)**, And, that I am applying for a PV system rebate at this building.
Statement #2	For buildings with 100,000 sq. ft. or more of conditioned space, retro-commissioning (RCx) is mandatory per California State law SB1 if the building ENERGY STAR Portfolio Manager benchmark energy performance rating is below 75. RE recommends the Customer-Generator achieve a rating of 75 prior to submitting an application for rebate for a PV system.
Statement #3	This facility has a score that is currently lower than 75, and I understand that the authorization of a rebate payment will not occur until: 1. Applicant conducts a RCx audit and submits a copy of the RCx report to the RE Program Administrator 2. RCx repairs, adjustments, and the installation of cost effective energy efficiency measures and equipment are installed and verified by the RE Program Administrator 3. A post RCx benchmarking score of 75 or higher is achieved and Customer-Generator provides a copy of this report to the RE Program Administrator 4. RCx recommended energy efficiency equipment and appliances must be ENERGY STAR approved if available
Statement #4	Benchmark Score Achievement Timeline: 1. Customer-Generator has a deadline of 1 year from application date to reach a score of 75 or more 2. RCx recommended repairs, adjustments, and the installation of cost effective energy efficiency measures, equipment and appliances must be installed and verified by the RE Program Administrator 3. If a score of 75 is not received within one year of application the Customer-Generator forfeits potential PV system rebates for the project, and will not be eligible to reapply at a later date.

Building owner acknowledges, understands, and agrees to the four Energy Efficiency Commitment Statements listed on this form, and wishes to proceed with submitting FORM A - "PV Installation Application" with the intention of obtaining rebates for energy produced from the PV system being installed.

Customer-Generator Signature: _____ **Date:** _____

Customer-Generator Name (print): _____ **Title:** _____
