Fire & Life Safety Standard

Title: Weed Abatement

Note: *This standard is a summary of Roseville Fire Department clarifications of City and State Codes. Information contained herein applies to typical circumstances and may not address all situations.*

PURPOSE

This standard was developed with safety as the principle objective, pursuant to the California Fire Code. The fire code official is authorized to render interpretations of the CFC, and to adopt policies, procedures, rules and regulations in order to clarify the application of its provisions. Such interpretations, policies, procedures, rules and regulations shall be in compliance with the intent and purpose of the CFC and shall not have the effect of waiving requirements specifically provided for in the CFC.

SCOPE

This standard shall apply to the abatement of all weeds, grass or other growth capable of being ignited and endangering property. Weed abatement shall be in accordance with the CFC and the City of Roseville Municipal Code (RMC).

TIMELINE / PROCEDURE

The timeline listed below is subject to change dependent on the amount of rainfall that occurs.

April - The Fire & Life Safety Division will coordinate with the City of Roseville Parks & Recreation Department Open Space Division regarding the current weed abatement contractor. The Fire & Life Safety Division will draft two council communications.

The first communication declares weeds a public nuisance, identifies vacant parcels, sets the public hearing date, and provides a 30 day period for public comment.

The second council communication if passed, approves the nuisance declaration after the public comment period. These communications will be forwarded to the City Clerk. Vacant parcels will be identified through the City's Geographic Information System. In compliance with the California Government Code, the City Council shall pass a resolution declaring a public nuisance whenever any weeds, dirt, rubbish or rank growths are growing, located or existing on any property within the city. This council resolution will provide for public notice, right of entry, and the cost recovery process related to the abatement.

May - Weed abatement letters (see attachment A) are prepared and mailed to the listed vacant parcel owners. This letter indicates the requirements for proper weed abatement. The target date for abatement compliance is set by the Fire & Life Safety Division depending on current weather conditions. The Parks & Recreation Open Space Division will coordinate the weed abatement plans for the upcoming season.

May thru End of Fire Season – Weed abatement commences in City of Roseville open space areas. The Fire & Life Safety Division will respond to complaints from the public and city staff. Site visits will be conducted to determine compliance with the RMC.

June – Weed abatement commences on private properties that have failed to comply with the abatement deadline. The Fire & Life Safety Division will coordinate with the Parks & Recreation Open Space Division to have hazards abated. The goal for all weed abatement (both public and private) is to be completed prior to July 1st.

October -The Fire & Life Safety Division will draft two council communications. The first communication will list private parcel owners where city abatement was required, authorize billing, and provide for public comment. The second communication approves the billing after the public comment period. These communications will be forwarded to the City Clerk. Weed abatement invoices are sent to the property owner for work performed by the city contractor, to include an administrative fee as per the Roseville Fire Department fee schedule. If the invoice is not paid within 30 days it is forwarded to the county tax collector for entry and collection with the next tax roll upon which general property taxes are collected as outlined in the RMC - If no parcels are abated by the City of Roseville the following council communications will not take place.

NOTICE TO ABATE FIRE HAZARD

This letter is to notify you that a fire hazard may exist on the undeveloped parcel(s) listed on the following page(s). The law requires that all cut or uncut weeds, grass, vines, vegetation, or other combustible materials be removed when determined to be a fire hazard.

If applicable, all necessary work shall be completed no later than **July 1st**. If the property owner does not comply with this notice, the required firebreaks will be made by the City of Roseville. All costs incurred by the City, including a per parcel administration fee, shall be billed directly to the property owner.

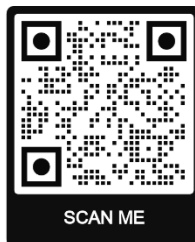

WEED ABATEMENT GUIDELINES

A clear firebreak of a minimum 30-foot width shall be created and maintained in all areas designated by the City of Roseville. Clear firebreaks shall be provided around all combustible buildings, fences, vehicles, structures, or storage on this parcel or on adjacent properties. We ask that you adhere to the following abatement requirements:

1. The preferred method of weed abatement shall be accomplished by discing and completed so that all weeds, grass, other vegetation, or organic material which can be expected to burn are completely removed or turned under so there is insufficient fuel to sustain or allow the spread of fire.
2. Discing does not negate the requirement for weed removal up to the structure.
3. Where discing is not practical, mowing is permitted where the material is mulched and the remaining weeds do not exceed two inches in height.
4. Spark arrestors shall be installed on all outdoor equipment with internal combustion engines.
5. Parcels that are one acre or less shall be completely abated.

Seasonal rains should be considered prior to abating weeds. Late rains will produce late growing weeds. Weeds once mowed, may require additional mowing. The weed abatement program's intent is to reduce the fire hazard during fire season.

This letter is intended for parcels that are undeveloped. If the property has been developed or sold, please disregard this notice and scan the QR Code below to update the parcel information or you may complete and return the following page(s) to the Roseville Fire Department, 316 Vernon Street, Suite 480, Roseville, CA 95678.
