Type of Improvement on Creek _____

(For a list of ideas see Program Details on our website)

Safety first! Remember to protect yourself and others:

- Wear long pants and substantial leather shoes or boots with ankle support. Watch your footing on steep slopes, drainage facilities or places from which you might fall. Light colored clothing, long sleeve shirts and sunscreen lotion are recommended.
- Do not touch or attempt to remove materials that you suspect may be toxic or hazardous. Items to avoid include powder chemicals, smelly substances, suspicious packages, chemical drums or containers, weapons, syringes or hypodermic needles, dead animals and broken glass. Notify the District or the police of the location of weapons or suspected toxic substances immediately.
- Do not try to compact trash bags. Injuries from broken or jagged objects may occur.
- Do not run, throw objects or engage in horseplay.
- Avoid overexertion. Drink plenty of water, especially on warm, humid days.
- Do not consume alcoholic beverages or drugs before or while doing creek cleanup.
- Be alert for places where snakes may be located. Also be alert for stinging insects and poisonous plants, like poison oak.
- Stop work before dusk.

A permit will be issued for the purposes of the above type of improvement on the creek as described in this form, by the named group acting under supervision of the undersigned while following the above safety guidelines.
