Interconnection Approval Request			
Customer-generator Name (Print):		Customer-generator Address:	
Roseville Electric Account #:		# of Panels Installed:	
Rebate Requested?	Yes – Customer to now complete Form E		
	No – select if PPA agre	ement, or if project is waiving re	ebates
This PV system design: (must check one)	The installed PV system is IDENTICAL and UNCHANGED from the system proposed in Application A. Please submit a Paid-in-Full Invoice.		
	The installed PV system has changed from the system proposed in Application A. 1. Applicant must submit description of the change. 2. Applicant must submit new CSI system calculation. 3. Applicant contractor must submit new Installation Certificate (Form C). 4. Paid-in-Full Invoice. IMPORTANT: If requesting rebates, changes in system size may change the rebate amount paid by Roseville Electric. Complete Form E for rebate payment.		
Customer-generator must include a copy of the approved Building Department permit to verify the system has passed inspections.			
Customer-generator Name (PRINT)			Date
Customer-generator Signature			

When signed by Roseville Electric below, this form authorizes the customer-generator approval to connect to the Roseville Electric distribution grid. Once the net meter has been installed, the PV system may be turned on.

Roseville Electric will return a copy of this form to the customer-generator once approval is granted.
