

Annual Budget Fiscal Year 2022-23

Annual Budget

Fiscal year beginning July 1, 2022

City Council

Mayor: Krista Bernasconi
Vice Mayor: Bruce Houdesheldt
Councilmembers: Scott Alvord
Tracy Mendonsa
Pauline Roccucci

City Manager: Dominick Casey

Submitted by the City Manager
To the Mayor and City Council on May 20, 2022

Final adoption by City Council on June 15, 2022

Prepared By Finance Staff

Dennis Kauffman, Assistant City Manager/Chief Financial Officer
Scott Pettingell, Budget Manager
Natalya Lakhno, Budget Analyst
Alexandra Marquez, Budget Analyst
Paula Sabo, Budget Analyst
Kristi Corral, Assistant Finance Director
Lisa Gist, Finance Manager

City Manager's Budget Message

STABILITY IN THE MIDST OF UNCERTAINTY

Economic headwinds strengthen

The economy recovered much faster than anticipated, following the global effects of the pandemic the past two years. With widespread access to vaccines in the US and a loosening of pandemic restrictions that affected everything from the workplace to transportation to education, the future looks bright. However, the pandemic lens is just one of many that create the full view of what's affecting the global and national economy.

Many factors are causing concern for the future stability of the economy:

- The pace of inflation has accelerated and the federal government began raising interest rates after an extended period of historically low rates.
- Supply chain issues, from material sourcing to manufacturing to distribution, are becoming more severe.
- Labor shortages have remained a challenge as businesses reopen and face increased demand for products and services.

- Russia's invasion of Ukraine has brought economic sanctions that also impact the US economy, particularly oil prices.
- The effects of wild and unprecedented weather patterns are damaging and have intensified the focus on ways to mitigate climate change.

These factors permeate to the local level and combine with others that add complexity to the City's ability to deliver services:

- **Talent loss** has resulted from a competitive labor market and an expanded ability to work remotely has enticed staff to take jobs elsewhere. The pension benefits that once incentivized longevity were changed by PEPRA legislation in 2013 and we're seeing shorter tenures in some areas. Pandemic fatigue accelerated retirement plans for some staff.
- **Recruitment challenges** have arisen, also due to the competition in the labor market for staff. This puts more burden on existing staff and delays our ability to focus and deliver on new and expanded priorities.
- **Inflation** is increasing the costs of contracts for materials and services, reducing the availability of funds for other items.

City Manager's Budget Message

- **Supply chain disruption** has caused delays in development and operations throughout the community, from obtaining transformers to power new subdivisions to obtaining parts needed to operate a water feature at a new park.
- **Increasing regulations and looming deadlines** for compliance are adding costs and complexity to the way we plan and operate.
- **Aging infrastructure** for which replacement costs were underfunded during the Great Recession needs attention.
- A **historical drought** that persists with the driest start to the first quarter of 2022 despite a very wet end to 2021.

On a positive note, several factors have strengthened Roseville's ability to weather the circumstances:

General Fund surplus

- **Underspending** in the General Fund due to a variety of pandemic-related factors.
- **Historically higher sales tax revenues** due to a variety of factors, including the Supreme Court's Wayfair decision, increased number of retail storefronts choosing Roseville for their regional presence, and the closing of storefronts in areas outside Roseville, such as Nordstrom.
- **Higher property tax revenues** due to higher home prices and a competitive housing market fueled by low-interest rates and the ability to work remotely.

Fully funded reserves

- Measure B revenue and conservative budgeting due to pandemic uncertainty have contributed to Roseville's ability to fully fund our reserves in accordance with Council policies. This further strengthens our ability to withstand the inevitable, cyclical downturn in the economy.

Federal funding

- Roseville has received **\$17.6 million in one-time funds** from the American Rescue Plan Act of 2021 to assist with City and community needs.

Proactive planning

- Even with historic weather extremes, Roseville will be able to **meet efficient water demands** for the community for the rest of 2022, through a combination of available surface water supplies, ample groundwater

supplies through the City's Aquifer Storage and Recovery (ASR) wells, and continued commitment by the Roseville community to use water efficiently and conserve water where needed.

The City of Roseville continues to adapt to the times with a focus on the future. We work to ensure stability in our local economy and in our ability to provide both essential and quality-of-life services in our community.

We continue to plan for contingencies and to position ourselves to leverage opportunities for funding at the state and federal level to address critical issues in our community such as transportation and affordable housing.

COUNCIL PRIORITIES

Council updates priorities in its four-year strategic plan

In October 2019, the City Council held a public workshop to set the long-term vision for our City and our top priorities for Fiscal Year 2020-21 through Fiscal Year 2023-24. Annual updates to the plan are held each spring during the budget-development process for the upcoming fiscal year.

A sign of a well-developed strategic plan is its ability to withstand the test of time and changing circumstances. This proved true throughout the pandemic and in the challenges that have emerged since, whether they are economic, social, or environmental. The strategic plan has remained relevant and an important policy document to guide budget decisions.

Following are the priorities and strategies that emerged from the Council's February 2022 workshop, at which it updated the plan to reflect changing circumstances, work accomplished and underway, and evolving focus areas.

Maintain a safe and healthy community

- Ensure public safety service levels are maintained with real-time crime monitoring and staffing as the City grows.
- Address homelessness through stronger regional partnerships with desired expectations and outcomes.
- Strengthen inclusiveness, equality and justice efforts for all in partnership with the community.

Remain fiscally responsible in a changing world

- Explore new and diverse revenue streams to ensure those who use city services help fund them, including visitors who stay in hotels and short-term rentals.

City Manager's Budget Message

- Balance utility services, unfunded legislative mandates, costs and customer rates.
- Increase funding for CIP rehabilitation to prevent erosion of infrastructure.
- Seek ways to reduce pension liabilities to maintain high quality services.
- Seek increased transportation funding and revenues.

Enhance economic vitality

- Advance sports tourism opportunities, including destination-type amenities.
- Support conditions that promote and retain retail, commercial, and industrial opportunities to include Baseline Marketplace.
- Consider strategic reserves and other funding for job growth incubators, vacant storefronts, façade improvements, and other economic development opportunities.
- Finalize updated Economic Development Strategy.

Invest in well-planned infrastructure and growth

- Reinvest in core neighborhoods, with a focus on Weber Park.
- Increase funding for CIP rehabilitation to prevent erosion of infrastructure.
- Prioritize completion of the long-field sports park complex and crucial corridors.
- Invest in water resiliency and increase capacity of the electric utility.
- Pilot an on-demand transportation option with Roseville Transit.

Support community engagement and advocacy

- Remain focused on community engagement and education about City services and the budget.
- Explore opportunities to engage increasingly diverse audiences in relevant ways.
- Increase outreach to and engagement with younger populations.
- Explore volunteer opportunities for employees.

Deliver exceptional city services

- Explore ways to strengthen code enforcement efforts, including graffiti and blight abatement.
- Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, new labor agreements, and a strong culture.
- Implement greater community-based and volunteer cleanups.
- Implement a new and more efficient way to process increasing Public Records Act requests.

Overview of the past year's accomplishments

As the City Council refines the Strategic Plan each year, an important part of its assessment is reviewing work to date on the previous year's plan. Following is an overview of accomplishments related to last fiscal year's strategic plan:

Remain fiscally responsible in a changing world

1. Address pension costs and other liabilities

- **Additional Discretionary Payment** – After reaching the Council's General Fund reserve targets, the FY2021-22 Adopted Budget included a \$6.1 million additional payment to CalPERS to lower future pension costs by over \$400,000 per year for 20 years and increase the funded status of the City's CalPERS plans.

2. Seek increased transportation funding and revenues

- **Zero Emission Buses** – Roseville Transit purchased the City's first five Zero Emission Buses and obtained almost \$700,000 in competitive grants to help pay for the purchase.
- **Placer County Transportation Planning Agency (PCTPA)** – Worked in partnership with PCTPA to incorporate research findings, align and coordinate messaging, and determine opportunities for a local funding source match to address regional transportation needs.

3. Balance utility mandates, costs, and customer rates

- Roseville has long held a **strategic regional/statewide advantage** in terms of delivering highly

City Manager's Budget Message

reliable utility services at the lowest reasonable cost. **Near and longer-term challenges threaten the City's continued ability to achieve this strategy:**

- SB 1383 will profoundly affect how organic wastes are collected and processed. Roseville is piloting changes in waste collection practices and investigating alternative disposal options that seek regulatory compliance while controlling near and long-term costs.
- **Commercial fleet electrification regulations in the near future pose a significant challenge for utilities:** 1) electric-powered heavy equipment is unproven; 2) commercial equipment operates on extended duty cycles that are well beyond the performance of current battery technology; 3) converting the existing diesel/CNG powered fleet to electric will require the effective doubling of fleet vehicles at a 50 percent per unit price premium; 4) there is not sufficient electric distribution infrastructure to recharge these commercial vehicles.
- **Water conservation regulations continue to tighten** as drought conditions persist, amidst a regulatory backdrop that will require reduced water for cities and farms and more water for the environment. Residential and commercial water use targets and increased efforts in leak detection will result in additional costs, the benefit of which is difficult to explain and justify to the public.
- **Federal lead and copper rule changes** and implementation of the federal rule by the State of California will result in a significant city effort to inventory all lead and copper materials on the service line on the customer side of the water meter and work towards mitigation. This required inventory and subsequent mitigation efforts will likely be costly for the City of Roseville, depending upon the results of the required field survey.
- **Changes in upcoming National Pollutant Discharge Elimination System (NPDES) permit requirements for total toxicity** will require monthly testing/monitoring with the potential to substantially increase the

possibility that wastewater dischargers will be out of compliance and incur costly Toxicity Reduction Evaluation studies, often with no resolution without providing any clear benefit to water quality.

Additional accomplishments related to Remaining Fiscally Responsible in a Changing World

- **Dissolved the Roseville Community Development Corporation (RCDC)** - Worked with the Board and the CEO to successfully dissolve the RCDC, limiting future financial liabilities.
- **Electronic Content Management** - Replaced the enterprise-wide electronic content management system, Sire, which was 15 years old. The updated system includes advanced functionality for form creation and workflows and will allow for public access to city public records.
- **Development Services Cost Recovery** - Achieved 88 percent cost recovery. This is the highest on record since the formation of the Development Services Department in 2013, and is the result of a combination of increased workload and efficiencies gained through continuous process improvements.
- **Congested Corridors Program Grant** - Obtained over \$12 million in competitive grant funding through the Solutions for Congested Corridors Program, evenly split between the Dry Creek Greenway Phase 1 (Riverside to Rocky Ridge Trail) and the South Placer Express Transit Project.
- **Financial Transparency** - Recognized by the Government Finance Officers Association (GFOA) and the California Society of Municipal Finance Officers (CSMFO) with Distinguished Budget Presentation Awards for the FY2021-22 Approved Budget.
- **Financial Accountability** - Recognized by the GFOA with the Certificate for Excellence in Financial Reporting for the FY2019-20 Annual Comprehensive Financial Report.
- **Financial Policies** - Updated the Council-adopted financial policies to include a new Federal Stimulus Reserve Fund Policy, as well as a new Internal Service Funds - Operating and Replacement Reserves Policy to formalize existing operating reserve practices and document long-term replacement reserve funding processes.

City Manager's Budget Message

- **Emergency Medical Services First Responder Fee** - On October 7, 2020, Council adopted the Emergency Medical Services First Responder Fee. This allows the City to collect fees related to the cost of providing emergency medical services that require transportation to the hospital by ambulance. The fee was implemented July 1, 2021 and is anticipated to generate over \$1 million to help offset costs of service.

Support community engagement and advocacy

1. Increase communications regarding legislative advocacy efforts and the impacts of unfunded mandates on City services

- **Reached out to customers explaining the rationale for utility rate increases**, highlighting how unfunded mandates increase costs.
- **Included focus in legislative platform** to ensure residents and customers' interests are protected and promoted in legislative advocacy efforts.
- **Provided updates to Law and Regulation committee and regional Chamber government relations meetings on City's focus** on cost avoidance and containment in advocacy efforts with state and federal legislative and regulatory bodies.

2. Increase communications and education about City finances

- **Produced Budget in Brief brochure** to provide a high-level overview and education of the City budget, for use at community meetings, including Council Coffees.
- **Assisted Local Sales Tax Oversight Committee** in developing an initial draft scorecard of expenditures of half-cent sales tax.
- **Provided in-depth presentations about the City budget and finances** at Council meetings and with community groups, including Chamber, Roseville Coalition of Neighborhood Associations (RCONA), and Rotary.

3. Focus on increased outreach to and engagement with younger populations

- **Showcased city jobs** through a virtual Careers in Government Day to over 500 local high school students and at local career fairs.

- **Conducted recruitments of high school students** to serve on city boards and commissions.
- **Established City TikTok channel** and developed content to gain familiarity among younger populations.
- **Developed recruitment videos highlighting seasonal job opportunities** with the City targeted to younger populations.
- Produced "We Are Roseville" signage specific to **each high school's name and colors** to celebrate graduating classes during pandemic restrictions.

Additional accomplishments related to *Supporting Community Engagement and Advocacy*

- **Created the Experience PRL magazine and the What's Happening in PRL video series**, extensive outreach for community input into PRL's new strategic master plan and the design and development of three new parks, and public workshops to provide information regarding the North West Lighting & Landscape District (NWLLD) ballot issue.
- **Recruited and seated the 16-member Independent Redistricting Commission.** Extensive outreach and engagement include a website with recordings of meetings and all public comments along with two rounds of in-district meetings. The facilitation of the Commission is ongoing.

Maintain a safe and healthy community

1. **Address homelessness through stronger regional partnerships with defined expectations and outcomes** (*note: affordable housing accomplishments listed with corresponding strategy below*)
 - **Expanded the interdepartmental homelessness partnership** between Police, City Open Space Division, and County Health and Human Services (HHS), addressing this issue every day. The City added a social worker to its team of three in the Police Social Services Unit (SSU) this year, along with a Homelessness Outreach Worker from HHS, and now a new code enforcement officer. The city added two new positions to the Open Space division dedicated to this issue. In 2021, the combination of Patrol and SSU responded to close to 4,000 resident- or officer-initiated complaints about homeless issues and Open Space removed

City Manager's Budget Message

187 tons of debris. Through 2021, the City addressed close to 250 camp cleanup issues through this partnership.

- **Participating in Regional Homelessness Task Force** with Placer County, cities, and nonprofit agencies to develop and coordinate regional opportunities to address and prevent homelessness.
- **Developed a communications strategy** related to homelessness to provide context and inform the community of the efforts underway to address this issue, to provide information to people experiencing homelessness about resources available, and to guide the community in ways they can most effectively support efforts to prevent and address homelessness.

2. Ensure public safety service levels are maintained as the City grows

- **Completed Police Department Strategic Plan** – including an updated mission, vision and goals. The details were presented to Council in October.
- **Implemented the FLOCK camera system**, which has resulted in the recovery of close to 100 stolen vehicles or alerted us to vehicles where the owner was wanted on felony warrants in other jurisdictions as these stolen vehicles or felony suspects enter our city. Funding was secured for ten additional cameras, which are in the process of being added.
- **Completed Phase I of the Union Pacific Rail Car Derailment Training Prop**, which is utilized for training hazardous materials specialists and technicians throughout the state.
- **Placed four new Type I fire engines in service** to replace ones that were 15 years old.
- **Deployed Lucas Devices** – Two automatic compression devices were acquired through grant funding and placed in service at fire stations three and five, allowing for safer, more efficient CPR to be performed.

3. Strengthen inclusiveness, equality, and justice efforts for all in partnership with the community

- **Diversity and Inclusion** – Partnered with Placer County-based nonprofit Global Marketplace to

conduct four nine-week sessions of Conversations on Racial Healing for city staff and community members with Roseville Police Department representatives sharing and listening to perspectives as well. The Police Department has continued these outreach efforts in further developing our Procedural Justice training program in coordination with community members of diverse backgrounds.

- **Developed Diversity Statement** by citywide Inclusion Committee to accompany all recruitments and be shared on the city website.
- **Worked with various communities** to ensure access to city services such as transportation, housing, and police social services unit.
- **Ensured diversity in experience and perspectives** among participants in interview panels for key city staff leadership roles.
- **Maidu Fitness Court** was installed in partnership with the California Parks and Recreation Society and the National Fitness Campaign, providing residents an equitable and accessible way to improve their health and fitness.
- **Facilitated meetings between community groups and staff** delivering police, transportation, and housing services to strengthen awareness of needs and opportunities to improve access.

4. Deploy Police body-worn cameras

- **Police Body Cameras** were deployed for all officers, including associated cloud storage and data management.

Additional accomplishments related to *Maintaining a safe and healthy community*

- **Be Well Roseville citywide wellness initiative** was introduced to highlight the many opportunities provided by Parks, Recreation & Libraries that improve the health and wellness of residents and our community. The program kicked-off with Fitness in the Park events held in various parks and a large Be Well Roseville event at Mahany Park. Hundreds of residents attended these numerous events.

City Manager's Budget Message

Enhance economic vitality

1. Advance sports tourism opportunities, including destination-type amenities

- **Roseville Sports Complex** – Verde Design to research and design a 6-10 field regional soccer complex in West Roseville.
- **Sports Tourism Strategy** – Working with Pros Consulting to develop a sports tourism strategy, to include data to assist in decision-making for the proposed Roseville Sports Complex.
- **Feasibility Study** was developed to assess the financial feasibility of the proposed Roseville Sports Complex.
- **Continued investment in existing facilities**, including the renovation of the Maidu Soccer Fields, and construction of seven new ballfields at Central Park, Crabb Park, and Pistachio Park.

2. Pursue increased transient occupancy tax revenues

- **Explored regional comparative data related to hotel tax** along with awareness and perspectives related to having visitors increase their share of funding toward city services.
- **Evaluated how a Roseville Sports Complex can effectively generate additional transient occupancy tax revenues**, included in the Sports Tourism Strategy being drafted by Pros Consulting.

3. Consider strategic reserves and other funding for job growth incubators, vacant storefront façade improvements, and other economic development opportunities

- **Completed Key Real Estate Transactions** – Sold three surplus properties, generating a total of \$7 million:
 - 1) Galilee Road/Industrial Avenue site (for Green Acres Nursery and Supply)
 - 2) 290 Conference Center Drive (Old Hotel Conference Center site)
 - 3) 320 Vernon Street (old Downtown Roseville Post Office site)

Development of these parcels will include a variety of uses consisting of commercial/retail

and residential. Also initiated the sale of three additional surplus properties - Roseville Industrial Park; 505 Royer Street; and 401 & 403 Oak Street (anticipated to generate \$10 million).

- **Roseville Industrial Park** – Entered into an agreement with Panattoni to develop a large regional jobs center on 236 acres of City surplus land. Panattoni proposes a 127-acre multi-building complex with approximately two million square feet of commercial industrial use, generating an economic value of \$950 million and 6,700 jobs.
- **Downtown Revitalization** – Awarded \$60,000 in financial assistance to seven property and business owners from the Downtown Roseville Façade Program in association with the Downtown Roseville Partnership.
- **Small Business Assistance** – Disbursed \$200,000 in funding from the Placer Share's Community Collaborative Impact Grant to Roseville restaurants in partnership with the Roseville Area Chamber.

Deliver exceptional City services

1. Address staffing turnover due to retirements and succession planning challenges

- **Employee Relations** – Successful negotiations including 25+ meet and confers on classification/salary recommendations, side letter agreements to clarify Memorandum of Understanding (MOU) provisions current payroll practices and bargaining with four labor groups for successor MOUs.
- **Recruitments** – Conducted dozens of recruitments for departments citywide, including for key leadership roles in Police, Economic Development, City Clerk, and Electric departments.
- **Offered staff training opportunities in key areas** of professional development, through the Roseville 100 series (e.g., customer service, business writing, effective communications), diversity and inclusion programs, and topics responding to pandemic stresses.
- **Conducted citywide surveys regarding employee recognition and wellness** and instituted a first-ever all-city Pride of Roseville recognition in 2021 to recognize city staff who served during the March-December 2020 pandemic timeframe.

City Manager's Budget Message

2. Increase code enforcement and beautification efforts (e.g., graffiti and blight abatement)

- **Enhanced Code Enforcement Abilities** in the Social Services Unit to assist with eliminating blight in problem areas.
- **Conducted extensive outreach with residents in Northwest LLD** to increase funding from 1989 levels to improve lighting, landscaping, and irrigation, but residents voted to keep the funding at 1989 levels despite the degradation of landscaping and significant cost increases that erode the effectiveness of funding.

3. Explore greater community-based and volunteer cleanups

- **Park Ambassador Program** – was implemented to enlist residents as volunteers to assist with a variety of PRL activities, including organized park and open space cleanup efforts. Two cleanup events have been held to date, with a good turnout from the community.
- **Bulky Waste Cleanup** – Developed and funded a citywide bulky waste pickup program in partnership with RCONA volunteers to bring neighbors together and help beautify neighborhoods.

Additional accomplishments related to *Delivering Exceptional City Services*

- **ACTIVE Network Registration Software** was implemented to provide a more user-friendly experience and improve efficiencies. This new system more easily facilitates the registration and reservation system for all PRL programs and facilities, as well as provides a point of sale solution for Alternative Transportation, the Utility Exploration Center, and the City's passport services.
- **2021 Municipal Information Systems Association of California (MISAC) Excellence in IT Practices Award** was received for the sixth year in a row. Every year this award recognizes government agencies utilizing technology to enhance services, strengthen cybersecurity and more.
- **Record permit activity** continued to accelerate throughout 2021, contributing to the third-highest year on record since 1988 for single-family permit issuance. Staff issued nearly 7,100 permits

(including 1,807 single family) totaling more than \$500 million in building valuation, conducted 41,000 building inspections, pursued 1,425 code enforcement cases, and oversaw the construction of millions of dollars of infrastructure growth in the new development areas.

- **Leading Fleet Award** was presented by Government Fleet Magazine, which ranked Roseville at 85 in The 100 Best Fleets in the Americas.
- **COVID-19 Response** ensured the health and safety of staff, in compliance with state law. Issued Exposure Control Plan updates, implemented COVID-19 vaccination self-attestation tracking process, offered remote work and stress management tools/webinars, and managed COVID-19 leaves and contact tracing for the City.
- **National Community Survey** was conducted in partnership with the International City/County Management Association to benchmark and track satisfaction levels and priorities over time in our community on a bi-annual basis. This will inform the City's strategic plan, budget, and shed light on perceptions about city and community services. The survey was mailed to 1,500 Roseville households, and emailed to another 1,500 and offered in both English and Spanish. In addition, an open-participation survey was promoted through social media, the Chamber, and RCONA. Results were compared with benchmarks compiled from surveys conducted across the U.S. that draw from a resident opinion database representing well over 30 million US residents. Data showed higher satisfaction levels with city services across almost all categories, with particularly significant satisfaction related to city utilities.

Invest in well-planned infrastructure and growth

1. Support more affordable housing

- **Completed Main Street Plaza Apartments**, adding 65 affordable units to Old Town. All of the units are currently leased.
- **Funded Junction Crossing Apartment Project** by loaning \$4.36 million in affordable housing funds to St. Anton to begin development of Junction Crossing in Old Town Roseville, which will contain 80 affordable units.

City Manager's Budget Message

- **Rent Help Placer Program** – Disbursed \$4.5 million in Emergency Rental Assistance (ERA) funding to assist 400 low-income households with rent and utility payments in an effort to help prevent housing instability and potential eviction.
- **Approved Housing Element** – Concluding a two-year effort, staff completed the City's housing element and presented it for City Council approval on August 16, 2021. The City received its letter of substantial compliance from the state Department of Housing and Community Development (HCD) on November 17, 2021. Roseville was one of only a handful of jurisdictions to receive certification on its initial submittal to HCD.
- **Local Housing Trust Fund** – Submitted a successful application to California Housing and Community Development Department's (HCD) Local Housing Trust Fund (LHTF) Program and received an award of \$1 million in match funds. Funds will support future affordable rental housing development in Roseville.
- **Project Based Vouchers** – Awarded 60 Project Based Vouchers to six projects to assist with the development of over 800 affordable units throughout Roseville.

2. Revitalize core neighborhoods

- **Sidewalk planning** – Senior city leaders and RCONA leaders discussed fiscal, operational, planning, and legal considerations related to a desire to build sidewalks in several core neighborhoods. Public Works is developing a process to help neighborhoods understand and engage in the requirements to build sidewalks.
- **Johnson Pool's 100th year** was celebrated throughout the summer, providing free admission to the pool and culminating with an event on August 7. The pool saw its highest attendance in several years.

FISCAL OVERVIEW

The City budgets conservatively to maintain the level of services delivered to residents and businesses while strategically increasing or expanding services as growth and demand warrant. With its primary tax revenues recovered from the pandemic-induced recession, the City remains focused on **managing labor costs,**

maintaining its reserves, addressing its underfunded pension liabilities, accelerating funding to its capital rehabilitation program, spending its Rescue Plan funding, and pursuing new revenue opportunities.

Pension liabilities - To address the City Council's strategic plan goal to address pension liabilities after General Fund reserve targets are met, the City plans to implement a Section 115 pension trust fund to act as a reserve against rising pension costs in the future. Following action taken last fiscal year, the City will also make another additional discretionary payment to CalPERS to reduce future pension costs and pay down its underfunded liabilities, totalling \$409 million based on the latest actuarial valuations. CalPERS pension contributions are legally required payments and cannot be avoided, so the City is proactively managing these costs and reducing its liabilities.

Capital rehabilitation program - The City's Capital Improvement Program (CIP) Rehabilitation funding has been inadequate to proactively maintain and replace the City's General Fund assets used to deliver City services. These assets include park amenities, public facilities, IT hardware and software, and various types of equipment used primarily by the Police, Fire, and Parks, Recreation, and Libraries departments. With this budget, the City is accelerating the funding for this program and adding street maintenance to the program because its funding sources leave a gap that must be filled by the General Fund.

American Rescue Plan Act funding - The City received approximately \$17.6 million from the American Rescue Plan Act and has until December 31, 2024, to spend the federal stimulus, or program the funding into a CIP and spend it by December 31, 2026. The funding will be used to restore the City's lost revenue due to the pandemic and address the economic impacts of the pandemic on the City's residents and businesses. Childcare services offered through Adventure Clubs throughout the City were closed as schools were closed and health guidelines restricted operations. The Rescue Plan funding will replenish the Youth Development Fund for the lost revenue of the Adventure Club program. Rescue Plan funding is also planned to rehabilitate Johnson Pool, improve Weber Park, and jump-start the City's downtown Entrepreneur Center.

Updating revenues - The City continues to determine where revenues need to be updated, and costs need to be fairly allocated. This year, the City is considering giving voters the option to increase the hotel tax paid by overnight visitors, technically known as the transient occupancy tax (TOT). Roseville's hotel tax rate was last updated 47 years

City Manager's Budget Message

ago in 1975 and is the lowest in Placer County and the region at a time when demand for events at sports tourism venues such as the new facilities @theGrounds will soon ramp up. Visitors would then help offset the costs to a greater extent of maintaining amenities that they are using such as fields, roads, and public facilities. At the same time, residents would receive a benefit that they don't have to pay for since visitors pay the TOT.

Fiscal trends

National economists cite a variety of factors that are causing uncertainty about the economy's future and are increasing the risk of a recession in the next couple of years, including inflation, consumer confidence, and supply chain disruption.

Inflation - The U.S. Labor Department reported that its consumer price index jumped 8.5 percent in March 2022 from 12 months earlier, the biggest year-over-year increase in 40 years. Prices have been driven up by bottlenecked supply chains, strong consumer demand, and disruptions to global food and energy markets worsened by Russia's war against Ukraine. The City is experiencing the effects of inflation from cost increases in services, supplies and equipment, and construction projects.

To combat the high inflation, the Federal Reserve is expected to adopt restrictive economic policies, including raising short-term interest rates. In March 2022, the Federal Reserve approved its first interest rate increase in more than three years, with additional rate hikes expected in May and June. If the Federal Reserve raises interest rates too aggressively, the economy could enter into another recession, with a potential negative impact on the local economy and the City's tax revenues.

Consumer confidence – While national consumer confidence indices have declined over the past six months, regional consumer sentiment has plummeted, as reported by the Sacramento Business Review/SAFE Credit Union Consumer Sentiment Survey. Consumer expectations for inflation have increased over the past year and most expect that their income will not keep pace with prices over the next year. According to the survey, consumer sentiment continues to vary substantially by household income, with a notable drop in sentiment in some of the higher income categories.

Supply chain disruption – The COVID-19 pandemic brought significant supply chain disruptions, which continue to affect manufacturing, construction, retail, and many other industries. These disruptions have significantly lengthened delivery lead times and brought about abrupt

price increases for goods in short supply. The City has experienced these challenges procuring various supplies and equipment, including IT hardware, vehicles, electric transformers, and construction materials.

The City monitors these fiscal trends and considers the potential implications when estimating revenues and expenditures for the next fiscal year and long-term forecasting for future fiscal years.

Fiscal Year 2022-23 Budget

The proposed FY2022-23 budget incorporates the costs of the City's recently negotiated labor agreements and unavoidable cost increases in other spending categories, but it includes only the most critical augmentations to maintain service levels and address Council priorities given the uncertainty surrounding the economy.

In accordance with the Council's financial policies, the FY2022-23 General Fund budget matches budgeted expenses with projected revenues, with resources available to increase reserves up to Council-adopted targets, address underfunded pension liabilities, and transfer funding to new capital reserve and pension reserve trust funds. Although the City's General Fund budget is balanced for FY2022-23, many underfunded needs remain. Council adopted financial policies ensure that future revenues are allocated to move towards fully funding these obligations, including the use of one-time resources to accelerate paying down long-term liabilities.

With an overall City budget of \$767 million, only \$212 million comprises the proposed FY2022-23 General Fund operating budget, a 20 percent growth over FY2021-22. The majority of the remaining \$555 million in funding is dedicated toward electric, water, wastewater, and waste services utility operations.

Major areas of increase include:

- **New positions:** 67 were requested by departments, and 43 are being recommended. Of the 43 positions recommended, 24.5 are predominately funded by the General Fund, 10.5 are funded by the utilities funds, and eight are funded by a mix of other funding sources. (See table below). This equates to a 3.4 percent growth.
- **Materials, services, and supplies:** The unavoidable cost increases include utility costs, fleet costs (including fuel), increase in contract with SPCA for animal control, new citywide park maintenance, contracts, and chemicals.

City Manager's Budget Message

- **Labor market adjustments:** To remain competitive in the labor market, an estimate of \$1,014,000, equating to six months of a 3 percent increase, is included in the proposed General Fund budget.
- **Paying down retirement obligations:** To lower future pension costs and increase the funded status of the CalPERS plan, the budget includes using one-time General Fund resources to participate in the CalPERS Additional Discretionary Payments (ADP) Option.
- **Pension Reserve Benefit Trust Fund:** The budget includes a transfer of \$8 million (\$2 million from FY2020-21 budget surplus and \$6 million of FY2022-23 resources) from the General Fund to a new Section 115 Pension Trust Fund to act as a reserve to guard against future pension cost increases to maintain service levels during future economic downturns.
- **Capital Reserve Fund:** The budget includes a transfer of \$10 million from the General Fund to a new Capital Reserve Fund for significant underfunded capital projects, potentially including the Roseville Sports Complex.

In the \$212 million General Fund, \$39 million is restricted, coming from grants, specific fees, and taxes tied to specific projects. After spending \$22 million on non-discretionary expenses, Council has discretion over \$151 million that is unrestricted. Almost half of this unrestricted funding—about \$77 million—goes toward public safety, the Council's top priority. The rest funds parks, recreation, libraries, museums, streets, floodplain management, code enforcement, and general government such as finance, legal, human resources, public records, website, broadcasting, and legislative advocacy.

Revenues and Expenses

Despite the continued uncertainty about the economy's future, the City's primary tax revenues have recovered from their pandemic impacts. For the FY2022-23 budget, the City is projecting \$103.8 million in sales tax revenues, including \$28.1 million for the Measure B local sales tax, and \$64.4 million in property tax revenues. Sales and property tax revenues will account for 80 percent of the City's FY2022-23 General Fund revenues.

Utility franchise fees from electric, natural gas, and cable companies comprise 5 percent of General Fund revenues. The remaining 15 percent of revenues come from development-related fees, recreation programs, business license taxes, TOT, grants, etc.

City of Roseville - General Fund Three-Year Operating Revenue (in millions)			
	Actual FY2020-21	Amended FY2021-22	Budget FY2022-23
Sales Tax	\$89.5	\$81.8	\$103.8
Property Tax	\$56.3	\$57.9	\$64.4
Subtotal	\$145.8	\$139.7	\$168.2
Other Operating Revenue	\$38.9	\$38.3	\$43.2
Total	\$184.7	\$178.0	\$211.4

With the City's forecasted General Fund revenue, the City must prudently manage the inflationary pressures on its expenditures while addressing its significant underfunded obligations. Continuing pressures on the expense side include the increasing costs of salaries, health benefits, CalPERS retirement costs, and state minimum wage increases, which affect the City's costs of temporary employees and contracts with suppliers.

The expenditures in the following table include transfers to reserves and one-time investments from year-end budget savings. The FY2022-23 expenditures include transfers to reserves up to the Council policy target levels and an additional discretionary payment to CalPERS and transfers to a new capital reserve fund and pension reserve trust fund.

City of Roseville Three-Year Operating Expense Trend (in millions)			
	Actual FY2021-22	Amended FY2021-22	Budget FY2022-23
Operating Expenditures	\$159.4	\$178.7	\$211.8

Positions

To remain fiscally responsible, given the current economic uncertainty and the City's underfunded obligations, proposed staffing augmentations have been limited to only address the following: the growth of the city, service level enhancements to address City Council priorities, and the requirements of new legislation and regulations. The FY2022-23 budget includes recommendations for a net increase of 43 full-time equivalent (FTE) positions to address critical service delivery requirements; however, 67 positions were requested by departments. The recommended positions are due to a variety of factors, including the following:

- **Servicing a growing city** - The City population has grown 25 percent since 2010. With the population growth, the City has added park acreage, streets, buildings, and other infrastructure, increasing the workload and demands on limited resources. With the growth of the city and the continued loss of experienced staff, it is not sustainable to maintain service levels without adding employees. The City

City Manager's Budget Message

enjoyed a high degree of service-level efficiency for many years due to employees' long-term institutional knowledge. The ripple effect of retirements and retention challenges are even more pronounced as a result of the pandemic-induced Great Resignation. Notably, this budget adds four police officers to complete the staffing of Police Beat 7, which was created in FY2019-20.

- **Complying with increased regulations** - In the Environmental Utilities department, the City is dealing with state regulations that require additional staff to maintain service levels.
- **Increasing service levels in high-priority areas** - To advance the City Council's priority of providing a safe and healthy community and the associated strategy of addressing blight, more staff is needed to address blight-related issues quickly.

The following tables summarize the recommended positions by department and by City Council priority/factor:

Department	Positions
City Attorney	1.00
Development Services	1.00
Electric	3.50
Environmental Utilities	6.00
Finance	2.00
Fire	1.00
Information Technology	4.00
Police	12.00
Parks, Recreation & Libraries	7.00
Public Works	5.50
Total	43.00

City Council Goal/Factor	Positions
Maintain a safe and healthy community	19.00
Growth	11.00
Enhanced Service Levels	7.00
State/Federal Mandates	1.00
Deliver exceptional City services	13.50
Growth	5.00
Enhanced Service Levels	8.50
Invest in well-planned infrastructure and growth	8.50
Growth	3.50
Enhanced Service Levels	5.00
Remain fiscally responsible in a changing world	2.00
Growth	2.00
Total	43.00

Economic Indicators

Year in review

Roseville's economic resiliency is evidenced by strong growth and investment from businesses, visitors, and residents.

The city's reputation as a trade hub continues to draw new retailers. Residents' healthy spending power also attracts distinctive brands, cementing Roseville as a destination for visitors outside the region. Shoppers can look forward to the newly expanded Peloton storefront and the addition of Amazon Fresh, Gucci, Saint Laurent, and Tonal.

More retail and restaurant openings are on the horizon, including a Raley's One Market at the corner of Blue Oaks Boulevard and Fiddymont Road. Ace Hardware is joining the growing list of shopping and food offerings at Campus Oaks. A new Safeway-anchored shopping center is proposed at the northeast corner of Pleasant Grove Boulevard and Fiddymont Road.

Investments in Downtown Roseville are accelerating. The adjacent parcels at **401 and 403 Oak Street** are expected to see new development. The parking lot and vacant building previously housing Fire Station 1 were cleared to make way for the purchase of the site for a proposed mixed-use building.

In addition to planned senior affordable living at **505 Royer Street**, several sites on Vernon Street will see development adding to downtown retail and housing options. These locations include **129, 200, and 330 Vernon Street**. Over the past few decades, significant City planning and improvements for public amenities, transportation, and infrastructure have laid the foundation for private sector investment.

Tower Theatre in Downtown Roseville was acquired by Michigan-based Hillsdale College in support of regional higher education opportunities. The college recently purchased nearly 1,000 acres west of Roseville city limits for a future campus.

Medical services continue to grow in the city, with several new projects planned. **Kaiser** Roseville's campus is anticipating a nearly \$300 million addition, expanding health care services in our area. **Sutter Health** is planning an additional building at its hospital campus to house a new residency program to ease California's physician shortage by retaining qualified professionals locally.

City Manager's Budget Message

Roseville was named the **eighth Best Place to Live in America** in 2021 by Livability.com. Specifically highlighted is Roseville's low cost of living compared to other parts of California. Affordable city-owned utilities were cited as a significant benefit. Placer County ranked fourth in California with the most incoming investments and second in business growth, according to a study by SmartAsset. Roseville also saw accolades as a leading landing spot for the tech workforce, military retirees, and one of the nation's top real estate markets.

As California sees challenges with housing shortages, **housing production** in Roseville is at record highs - including much-needed affordable housing options. In 2021, Roseville saw increases in housing production, including 700 affordable units approved or constructed. Approximately 1,800 single-family and 1,200 multi-family building permits were issued in the last year. These numbers were both nearly double the 10-year averages. Residential development valuation stands at about \$431 million.

Placer's **Emergency Rental Assistance Program**, a joint effort of the City of Roseville Housing Division and the Placer County Housing Authority, provided quick and efficient delivery of cash assistance to those struggling to pay rent or utilities due to pandemic-related income loss. While many communities throughout the state experienced difficulties disbursing historic levels of federal financial support, Placer's two local housing authorities partnered to share funding and develop a single online application to quickly assist eligible residents.

Main Street Plaza in Old Town Roseville is a new place to call home for 65 apartment residents. The location adds to Roseville's significant **affordable housing inventory**, with units at the corner of Washington Boulevard and Main Street. The community serves low-income families, veterans, and individuals with special needs. Main Street Plaza also offers specialized on-site services and 3,000 square feet of convenient retail space.

Strong demand

Development activity remains robust in most sectors despite strengthening economic headwinds. At the close of FY2021-22, single-family residential home production is expected to finish nearly 67 percent higher than the City's historical annual average of 900 permits as new subdivisions in the Sierra Vista, Fiddymont Ranch, Creekview, and Amoruso plan areas continue to come online.

Initial projections for FY2022-23 indicate a slightly slower pace as a result of economic uncertainty resulting from rising interest rates, historically high inflation, and persistent supply-chain issues resulting in shortages of construction-related commodities such as garage doors and windows.

Of particular note is a significant increase in lead times for the production and delivery of high-voltage electric transformers as a result of raw material shortages. Until recently, transformer lead times during the pandemic had been manageable, albeit longer than normal. However, current lead times have more than doubled, which has required Roseville Electric to reassess how it manages its inventory of transformers.

Approximately 1,200 finished lots are currently energized and ready for new home construction; however, Roseville Electric does not have sufficient transformers in stock to install in new subdivisions currently under construction until more are received. Development Services will continue to approve plans and issue permits as requested and at the developer's risk, with the caveat that final occupancy may be delayed until transformers are installed, and electricity can be made available to the home. The City will continue to work with the development community to examine a variety of options to mitigate delays until the necessary equipment can be secured, including phased occupancy of subdivisions, allowing builder-provided transformers, and alternative electrical designs to maximize the use of available transformers. Given these market risks, and consistent with past practice, the budget conservatively assumes the issuance of 900 single-family residential building permits.

According to the City's Economic Development Department's early 2022 demographics, the region sees healthy industrial demand, with space 95.6 percent filled. Even with fluctuations surrounding in-person work, the office sector is 88.7 percent filled, and retail space showed a strong 94.2 percent occupancy.

Roseville's top five private-sector employers remain Sutter Health, Kaiser Permanente, Adventist Health, Pride Industries, and Top Golf.

The City shows strong employment numbers with 92,281 jobs and an unemployment rate of 2.8 percent. The latest statistics available from California's Employment Development Department show 4.9 percent unemployment statewide as of March 2022.

City Manager's Budget Message

Looking Ahead

Our City continues to assess changing circumstances and be prepared for the effects they may have on our ability to deliver services.

While much remains out of our control, we have a strong grip on what we do control. Sound, conservative financial planning is at the core of our budget development efforts. This puts the City in a position of strength that allows us to weather storms and leverage the opportunities that emerge.

Our residents and businesses have been valuable partners in this ongoing quest, as have the great people we have on staff who play an undeniable role in our City's success. As we come back together in a more traditional office-based environment, we are reinvigorating the culture that draws

high performers to our organization. As an employer of choice, we will remain open to new ways to support our employees' success so we can continue to ensure the kind of quality of life our community values so deeply.

While one of the constants in life is change, we know that uncertainty is change's close companion. Our resiliency lies in our preparation for uncertain times. Roseville will effectively forge new paths to remain ready to deal with whatever else may lie ahead.

Awards & Achievements

- The Finance Department received recognition for Excellence in Budgeting from the California Society of Municipal Finance Officers for the FY2021-22 budget.
- The Government Finance Officers Association awarded the Distinguished Budget Presentation Award to the Finance Department for the FY2021-22 budget and the Certificate of Achievement for Excellence in Financial Reporting for the FY2019-20 Annual Comprehensive Financial Report.
- The Parks, Recreation & Libraries Department received two Awards of Excellence from the California Park and Recreation Society (CPRS): a CPRS State Award of Excellence in the Marketing category for the PRL Magazine publication, as well as a CPRS District 2 Award of Excellence in the Facility & Park Planning category for Harry Crabb Park.
- The City's Economic Development Department Housing Division, in conjunction with Placer County, was awarded a California State Association of Counties (CSAC) Challenge Award for our collaborative implementation of the Emergency Rental Assistance Program.
- The Roseville Housing Authority was awarded the 2022 Housing Choice Voucher Small Public Housing Authority (PHA) Program of the Year Award for the Western Region by the U.S. Department of Housing and Urban Development (HUD).
- The Roseville Fire Department, for the third year in a row, received the Gold Plus Award from the American Heart Association for excellence in ST-Elevation Myocardial Infarction (STEMI) patient care.
- The Information Technology (IT) Department received an award from the Center for Digital Government (CDG) as a national winner of the 2021 Digital Cities Survey, which highlighted communities that used technology to tackle social challenges, enhance services, and strengthen cybersecurity. The Department also received an award of recognition for the 2021 Municipal Information Systems Association of California (MISAC) Excellence in IT Practices. The 2021 Tyler Excellence Award was earned through a strategic partnership between the IT Department and the Police Department which saw the effective implementation and utilization of a new collaboratively developed Tyler Technologies software module by Roseville PD to effectively offset an increase in officer workload. In collaboration with Public Safety, Roseville was named as a top 3 finalist for the fifth annual Smart Cities North America Awards (SCNAA) by IDC Government Insights, which recognizes local governments that demonstrate best practices in effectively leveraging technology and innovation to offer new services and economic opportunities to its residents.
- The Dry Creek Wastewater Treatment Plant received the First Place Local Section Plant of the Year Award and also received the Statewide Third Place award in the medium-sized category from the California Water Environmental Association (CWEA).
- The Environmental Utilities Wastewater Utility received the Statewide First Place Collection System of the Year Award in the large-sized plant category from the California Water Environmental Association (CWEA).
- The Roseville Utility Exploration Center (UEC) received the Statewide 2021 Award of Excellence for Public Outreach and Education in the large-agency category from the California Association of Sanitation Agencies for a virtual wastewater utility tour.
- In December 2021, Environmental Utilities Water Utility was awarded the Association of California Water Agencies (ACWA) Region 3 Outreach Award for exceptional legislative advocacy efforts at the state level in implementation of the City of Roseville's legislative and regulatory platform.
- Roseville Electric Utility recognized for excellence in communications in three categories by the Northwest Public Power Association (NWPPA) and received first place in the Wild Card category for an economic development promotional video, first place in the Advertising Campaign category for the launch of "Charge Ahead Roseville" (a new electric vehicle program) and second place in the COVID-19 category for the "Reopen Energy Smart" program, targeting small to medium businesses.
- Public Works Fleet Services Division received the Automotive Service Excellence's "Blue Seal of Excellence" award for the 17th consecutive year in 2021. Fleet also received recognition by Government Fleet Magazine as one of the top fleet management groups in North America for 2021, as well as recognized as a "100 Best Fleet" by the National Association of Fleet Administrators 2021.
- Alternative Transportation received the Bicycle Friendly Community Bronze Award from the League of American Bicyclists and a Youth Activity Award for BikeFest 2021 from the Roseville Elks Lodge #2248.

Awards & Achievements

- Public Works Engineering remains one of only two Class 1 Community Rating System (CRS) communities in the nation. This achievement marks the 16th year of continued ability to achieve the highest CRS rating possible. Nationwide there are 22,500 National Flood Insurance Program (NFIP) communities – meeting minimum Federal Emergency Management Agency (FEMA) requirements. Of those communities, only 1,725 have elected to become CRS communities,

implementing higher floodplain management standards. With the context that flooding is the nation's most costly natural disaster, Roseville's leadership (by example) is valuable to communities both nationally and internationally. In addition, a Public Works Street Maintenance Manager was recognized with the Lifetime Achievement Award by the Western Regional Association for Pavement Preservation.

California**

For the Fiscal Year Beginning

July 01, 2021

Christopher P. Morrell
Executive Director

The City of Roseville received the Government Finance Officers Association's (GFOA) Distinguished Budget Award and the California Society of Municipal Finance Officer's (CSMFO) Operating Budget Excellence Award for the FY2021-22 budget. These awards represent a significant achievement and reflect a commitment of the governing body and staff to meeting the highest principles of governmental budgeting. In preparing the FY2022-23 budget, staff has once again followed the GFOA and CSMFO criteria as well as made enhancements. This document will be submitted to the GFOA and CSMFO for consideration for the FY2022-23 budget awards.

California Society of Municipal Finance Officers

Certificate of Award

Operating Budget Excellence Award Fiscal Year 2021-2022

Presented to the

City of Roseville

For meeting the criteria established to achieve the CSMFO Excellence Award in Budgeting.

Dedicated Excellence in Municipal Financial Reporting

City of Roseville

Roseville

Incorporation

April 10, 1909

Government

Roseville is a charter city, operating under the council-manager form of municipal government.

Location

405 miles north of Los Angeles, 102 miles northeast of San Francisco, and 16 miles northeast of Sacramento, the state capital.

County

Roseville is Placer County's largest city.

Area

Roseville is 44.14 square miles.

Elevation

Roseville sits 165 feet above sea level.

Demographics

Population

As of January 1, 2022, the California Department of Finance estimated Roseville's population to be 151,034. This represents an increase of 3,159 new residents from the previous year.

Future Population

Roseville's current growth rate is approximately 2.3 percent, which is higher than the current California rate of -0.44 percent and the national rate of 0.57 percent (California Department of Finance and Census Bureau 2021-2022). Placer County continues to be recognized by the Department of Finance as one of the State's fastest growing counties, while Roseville was the fastest growing City in Placer County in 2021. Current estimates indicate the population of Roseville will surpass 198,000 by the end of 2035 (Development Services Department).

Education

The Roseville community has clearly established education as a high priority. Over 95 percent of Roseville residents, over age 25, have a high school diploma, with approximately 43 percent obtaining a Bachelor's degree or higher (Esri). Roseville high schools have an average dropout rate below that of the national average of 6 percent and considerably lower than the state average of 8.9 percent. However, due to the impact of the COVID-19 Pandemic, the national dropout numbers for the 2021 school year are expected to increase due to declines in attendance, a rising number of failing grades, and shrinking enrollment. Roseville high schools also have Scholastic Aptitude Test (SAT) averages above the national average of 1,051 and the state average of 1,057 (prepscholar.com).

Household Income

The median household income in Roseville is \$97,097 compared to the state median of \$80,440 (Esri).

Persons Per Household

The average Roseville home has 2.69 people, which is slightly more than the county average of 2.68 persons per household (State of California Department of Finance).

Historical Population		Projected Population	
Year	Residents	Year	Residents
1910	2,608	2025	160,000
1960	13,421	2030	179,760
1970	18,221	2035	198,000
1980	24,347		
1990	44,685		
2000	79,921		
2005	102,191		
2010	118,233		
2015	131,433		
2020	143,493

Demographics

Residential Development

Building Permits (Issued SFDs)

Residential development continues at a 15-year high. The City's Building Division issued 1,807 single-family dwelling (SFD) building permits for FY2020-21, which is 831 more than FY2019-20. The City's Building Division anticipates 1,500 SFD permits will be issued by the end of FY2021-22. The average permits per year is 947 SFDs (City of Roseville, Building Division).

Occupancy Permits (Finaled SFDs)

In FY2020-21, the Building Division finaled 1,104 SFD building permits, which is 209 more than FY2019-20. Residential growth is expected to be consistent throughout the recovery of the COVID-19 pandemic (City of Roseville, Building Division).

Total Housing Units

As of November 1, 2021, there are currently 58,296 completed housing units in Roseville. Of those units, 40,027 were Low Density Residential (LDR), 6,701 were medium density residential (MDR), 10,828 were high density residential (HDR), and 740 were other (City of Roseville, Planning Division).

Single-Family Residential Home Prices and Values

The median home value in Roseville is \$659,484. Roseville home values have gone up 23.6 percent over the past year and are predicted to rise approximately 5 percent within the next year. The median list price per square foot is \$332 (Realtor.com).

Single-Family Residential Forecast

As of January 2022, there was an inventory of 1,402 approved single-family lots awaiting construction with an additional 18,614 allocated. The undeveloped lots are primarily located in the Sierra Vista, West Roseville, Amoruso and Creekview specific plan areas (City of Roseville, Business Services Division).

Industrial Development

Developed Industrial Space

As of January 2022, Roseville had a total of 15,892,698 square feet of developed industrial and warehouse space. The majority of industrial space is located in the North Industrial and Infill areas (City of Roseville, Business Services Division).

Source: City of Roseville, Building Division

Source: City of Roseville, Building Division

Industrial Activity

Development of industrial land has continued to increase over the previous year while vacancy rates remain at historic lows (currently at approximately 3.7 percent).

Commercial Development/Office Development

Commercial development has increased over the previous year with new commercial development totaling 568,441 square feet. New commercial development has primarily been related to the construction of restaurants, retail space, and other personal service uses. Office space vacancy is down from the previous year totaling approximately 12.9 percent with current inventory (net rentable area) totaling 7,632,876 square feet. Due to the impacts of the pandemic on vacancy rates, it is not anticipated that significant office development will occur in the upcoming year.

Demographics

Cost of Doing Business

Over the past several years, The Kosmont Rose Institute identified Roseville as one of the 20 least expensive California cities in which to do business for 14 of the last 17 years. The study analyzes fees, taxes, and business incentives to determine its rankings.

Active Business Licenses

The City of Roseville had a total of 13,783 active business licenses as of April, 2022. Of that total, there are 9,496 based inside the City of Roseville and the remaining 4,287 accounts are based outside the City.

Employment

Jobs and Employed Residents

Per Emsi (a labor market analytics firm), Roseville is estimated to have 92,281 jobs and a resident labor force of approximately 72,200. The labor force has increased approximately 16 percent since 2012 (Emsi Occupational Table 2021). Due to the impacts of the COVID-19 pandemic, the City of Roseville and the Greater Sacramento Region is expected to see a leveling in job growth over the next 12 months.

Unemployment Rate

California's 4.8 percent unemployment rate is slightly higher than the national average of 4.1 percent. Placer County unemployment is 3.2 percent and Roseville is at 2.8 percent. Health care, professional and business services, and retail have led the year-over expansion in employment growth (State of California, Employment Development Department).

Roseville Businesses

Roseville hosts over 11,000 businesses that operate and do business within

the City, which further supports the City's tax base. The largest industry sector is health care and social assistance at approximately 18 percent. Retail businesses are second at approximately 16.4 percent. Rounding out the remaining top business sectors are food service, government, and construction (Industry Table 2021).

Top Employers

Roseville's top ten businesses, which account for over 14,000 jobs, include two top-tier health care providers, government agencies, a high-tech company, retail, and the railroad industries. These businesses help solidify Roseville's status as a leader in regional employment.

Budget Document Overview

Section 7.02 of the Roseville City Charter mandates the legal requirements for preparing and adopting the City budget. The Finance Department - Budget Division prepares annual Budget Instructions providing directions for department staff to develop their budgets for materials, services, supplies, and capital projects. Departments submit their budgets in a detailed format to ensure consistency with the City Council's strategic plan and policies.

The General Fund budgeting process starts with an analysis of operational expenses completed by the Budget Division. This review includes a three-year historical analysis and the development of a forecast for future spending requirements.

Finance then works cooperatively with the department heads and their teams to review and discuss their findings. The forecast is the basis for the developing all General Fund targets for materials, services, and supplies based on prior years' spending history and one-time expenditures.

The General Fund contingency is budgeted with the purpose to:

- Fund new departmental appropriations not identified during budget preparation,
- Streamline the budget adjustment process by allowing the City Manager to reallocate funds from the contingency to a General Fund department, and
- Define and control General Fund operating expenditures without tapping into the unrestricted fund balance.

Contingency budgets are also used in the Water, Wastewater, and Waste Services funds.

If a department cannot afford to fund all requirements within its target, requests for additional funding are brought to the City Manager for discussion during budget review meetings. Any new requests approved are included in the proposed budget.

Additional steps in the budget process include the development of a labor forecast (including a salary vacancy factor in select funds), cost allocation plan, internal service fund rate models, transfer budgets, and capital improvement plan.

For the Enterprise Funds, budgets are developed based on their rate cases.

Throughout the year, requests for changes to expenditures, expenses, and revenues are made at the departmental level and are initially reviewed by the Budget Division. The

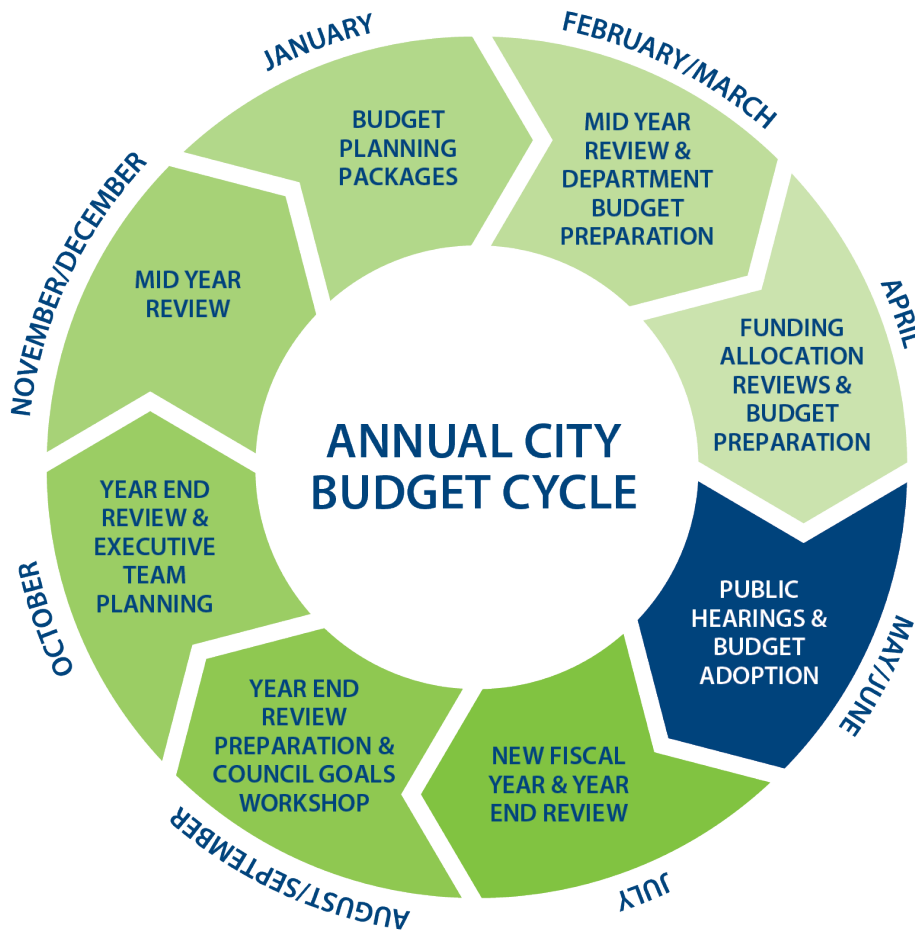

City Manager then reviews all requests and ensures that all budget decisions are consistent with the City Council's strategic plan and all applicable federal, state, and local laws and regulations. City Council authority may be required for certain changes to the budget based on the thresholds established in the annual budget ordinance.

Budget preparation takes approximately five months. Departments will begin preparing their budget requests/revenue estimates by January. From January through March, the Budget Division and City Manager's office carefully review, evaluate, and prioritize each department's budget submissions for materials, services, and supplies; capital outlay; capital improvement projects; positions; and revenue. During the review, the City Manager remains mindful of public safety and legal requirements, adherence to the Council's strategic plan and financial policies, and how to provide the most efficient, effective, and economical service levels possible. Once the review is completed, staff prepare the proposed budget document. The City Manager then presents a proposed budget to the City Council and the public for review in June. (Section 7.05 of the Charter requires that "... on or before June 30, [City Council] shall adopt the budget with revisions, if any, by the affirmative votes of at least three (3) council members".) Typically, the budget is adopted at the Council's second meeting in June.

Detailed Budget Process

1. Budget Workshop – City Council generally conducts a budget goals and objectives workshop in the September/August timeframe. The City Council provides budget policy direction to City staff at this time.
2. Mid-Year Review – Work begins in the fall of each year on the mid-year review, including projected City revenue; salary, wage, and benefits; and other operating expenses during the current fiscal year. Budgetary outcomes are compared to actual mid-year results, and critical financial issues facing the City are highlighted. This review assists the City in establishing funding guidelines for the upcoming fiscal years.
3. Budget Planning Packages – In January, the Budget Division works with Department staff on preparing the budget. Department staff utilize budget instructions distributed by the Budget Division. Instructions include information to assist departments in preparing their budgets including current and historical financial reports of operating expenses, Capital Improvement Projects (CIPs), a budget calendar, and instructions

Budget Document Overview

for preparing budget requests. Budget Division staff also hold several training classes to assist staff with data input and budget processes.

4. Budget Requests – Departments submit requests for new personnel and CIPs to the City Manager in January. Preliminary operational budget requests are submitted to the Budget Division in March.
5. Revenue Projections – During February and March, significant revenue sources, such as sales tax and property tax, are projected. Historical, and year-to-date revenues are analyzed along with major economic trends and new or proposed legislation. Building- and development-related revenues are forecasted by estimating proposed new development and compliance with city policies and City Manager recommendations.
6. Proposed Budget – Recommendations and revisions from departmental review sessions with the City Manager’s Office are incorporated into the proposed

budget. This budget is submitted to City Council no later than the first meeting in June.

7. Council Review/Public Hearings – During June, City Council reviews the proposed budget and conducts public hearings to address public requests and concerns. Any Council recommendations or changes are incorporated into the final budget document.
8. Council Adoption – City Council adopts the Annual Budget by the second Council meeting in June.

Changing the Budget

Budget Implementation and Budget Transfers

Once the City Council adopts the budget, the responsibility of implementing each department’s budget lies with each department head, with ultimate responsibility resting with the City Manager. Department heads are expected to operate their departments within the appropriations established in the budget. Budget adjustment requests

Budget Document Overview

are considered where unforeseen events have occurred. Budget adjustments that require the use of unrestricted fund balances must be approved by the City Council or those delegated by the City Council to approve amendments (Further details concerning budget transfers and amendments can be found in the City Charter Sec 7.06.). The City Manager is authorized to move City Council-approved appropriations within the same fund or use available contingency funds.

Reasons for initiating a budget adjustment may include:

- Recognizing unanticipated revenue, which was not projected in the budget, and appropriating associated expenditures in the year in which the revenue is received
- Appropriating additional funds from reserves
- Transferring dollars from the operating budget to the capital budget or vice versa
- Transferring between funds, departments, or projects
- Use of contingency funds for new appropriations not identified during budget preparation

Understanding the Document Layout

As indicated in the Table of Contents, the City of Roseville's Budget document consists of the following sections:

Introduction

The Introduction outlines the key contents of the budget. The main components of this section include the City Manager's Message and city demographics. The City's fiscal health is discussed in the City Manager's Message, including detailed information about the City's growth and the economy. It also contains the Budget Document Overview, Boards and Commissions, Awards and Achievements, and the ordinance adopting the budget.

Budget Summary

The Budget Summary section summarizes revenues and expenditures/expenses and various other financial matters including the Gann Appropriations Limit.

Fund Summaries

The Fund Summaries section of the document provides an overview of each fund's estimated revenue, appropriations, reserves, and unrestricted fund balance. Local government budgets are made up of funds that help to organize and

account for various resources. Enterprise Funds are set up as self-supporting units similar to a business. They account for the operation and maintenance of facilities and services that are entirely paid for by rates charged to customers or, in the case of internal service funds, to the City's departments. It is important to note that the City's revenue estimates are based on current knowledge of circumstances.

Often there is uncertainty as to actual revenues projected up to 15 months in advance. Overall, the revenue estimates assume conservative levels of growth based on analysis, historical trends, and projections developed using consultants. Appropriations, in turn, are based on these projected revenues. The funds presented in this section include the General Funds, Enterprise Funds, Special Revenue Funds, Capital Projects Funds, Permanent Funds, Special District Agency Funds, Trust Funds, and Internal Service/Self-Insurance Funds. Reflected in this section are actual revenues and expenditures for FY2020-21, the FY2021-22 Amended Budget, and the FY2022-23 Budget. Also included in this section are overviews of each of the fund types, including sources of revenue and significant expenditures.

Department Operating Budgets

An Organizational Budget that summarizes all operating departments within the City is provided at the beginning of this section. The operating departments include City Council, City Manager, City Attorney, Finance, Human Resources, Information Technology, City Clerk, Public Affairs & Communications, Police, Fire, Parks, Recreation & Libraries, Economic Development, Development Services, Public Works, Environmental Utilities, and Electric.

Included in the Department Operating Budgets section of the budget document are organizational charts, service overviews, accomplishments, City Council strategic plan efforts, key performance and workload measures, budget highlights, and a budget summary for each city department.

Positions

This section of the budget document summarizes department position allocations by department and classification.

Capital Improvement Program

This section of the budget document provides readers with cost estimates, funding sources, and recommended

Budget Document Overview

project schedules for the City of Roseville's Capital Improvement Program for the next five years. Accordingly, the documents provide descriptions, justifications, status, costs, classifications, and other relevant facts for each capital improvement project (CIP).

CIPs are composed of expenditures related to the acquisition, construction, expansion, or rehabilitation of an element of the City's infrastructure (such as streets, water, sewer, public buildings, and parks).

Non-Capital Projects

This section of the budget document provides readers with cost estimates, funding sources, and recommended project schedules for the multi-year non-capital related projects for the next five years. Accordingly, the document provides descriptions, justifications, status, costs, classifications, and other relevant facts for each project.

Appendices

The Appendices section of the budget document contains the following information: 1) Debt Management, 2) Glossary of Budget Terms, 3) Glossary of Commonly Used Acronyms, and 4) Index.

Understanding the Details

Financial Summaries

This document reflects actual revenues and expenditures for FY2020-21, the FY2021-22 Amended Budget, and the FY2022-23 Budget.

Revenues: Both operating and non-operating revenues are displayed for each fund. The revenues include items such as fees collected for the cost-recovery of specific services to the public, and revenues received from other funds.

Expenditures/Expenses: Operating expenditures/expenses are displayed at the fund level as well as the department, division, and account levels. For example, within the General Fund summary, the Public Works Department's General Fund budget as a whole is shown. Within the Public Works operating budget, expenditures for the Engineering Division and other Public Works divisions are provided.

Basis of Accounting and Budgeting: The City's funds are maintained in accordance with Generally Accepted Accounting Principles (GAAP), as established by the Governmental Accounting Standards Board (GASB).

In preparing the budget, all funds are budgeted based on the City's budgetary basis of accounting. The City accounts for all governmental funds using the modified accrual basis of accounting, which means revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 120 days after year-end, except property taxes and sales taxes, which are considered available if collected within 60 days after year-end. Proprietary and fiduciary funds are reported using the full accrual basis of accounting, which means revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the cash is disbursed.

In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurances regarding (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. Finance Department staff remain committed to improving the City's accounting system, maintaining the City's internal accounting controls to safeguard assets adequately, and providing reasonable assurances of proper recording of financial transactions.

Budgetary control is directed by the City Council by ordinance when the budget is adopted each year. Expenditures/expenses may not legally exceed appropriations at the department level by fund or at the total project level by fund for multi-year projects. The City utilizes the encumbrance system as a management control technique to assist in controlling expenditures. Periodic reports of revenue, expenditure/expense, and investment activity are available to the City Council and City departments to monitor spending in relation to the budget. The Finance Department conducts quarterly budget monitoring meetings with the departments to ensure that they are on track and there are no unknown expenditures/expenses coming during the remainder of the fiscal year.

Indirect Cost Allocation Plan: The City of Roseville uses the indirect cost allocation process to allocate departmental costs from the General Fund to all funds

Budget Document Overview

that receive benefits from the services that the General Fund departments provide. The City uses a consulting firm that specializes in indirect cost studies to prepare the indirect cost allocation plan. The plan is based on the most current budget information available at the time the study is completed - typically six months before the adoption of a new budget. The consulting firm coordinates several meetings to interview staff from the General Fund departments that provide services to other departments as well as those departments that receive services from the General Fund departments. Cost allocation drivers are confirmed during the interview process, and budget data is provided to the consultant. The budget data used in the study excludes reimbursed expenses. An example of reimbursed expenditures is secondary labor directly charged from one department to another. The consultant prepares a comprehensive study that is provided to all departments for review and comment. Departments receiving allocated costs have an opportunity to comment on the plan and correct any errors.

Indirect cost charges appear as expenses in the operating section of the fund summaries that are paying for the services and as reduced expenses in the operating expenses section of the General Fund. The purpose is to ensure that the General Fund is reimbursed for the full cost of services that it is providing throughout the City. Internal service funds at the City of Roseville directly charge costs of service to funds and departments receiving the service; therefore, the only fund that uses the indirect method of allocating costs is the General Fund.

Reserves

By Council policy, the City of Roseville has consistently planned its budgets while considering the City's long-term needs. This is accomplished by establishing several funds that serve to direct City revenues to long-term financial needs. This ensures that funding is available for needs as they arise. These funds include:

General Fund Emergency Reserve Fund: The City maintains an operating reserve of 10 percent of total estimated General Fund operating expenses to contend with significant short-term issues such as declared emergencies. This reserve is held in a separate fund called the General Fund Emergency Reserve Fund.

General Fund Stabilization Reserve Fund: The General Fund Stabilization Reserve Fund may be used strategically to allow the City to restructure its operation deliberately as required in an economic downturn while minimizing service

disruption. The Stabilization Reserve is intended to address significant revenue shortfalls that occur during an economic downturn until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits. The target reserve level in the General Fund Stabilization Reserve is 15 percent of operating expenditures.

Rate Stabilization Funds: Roseville Electric maintains a rate stabilization fund reserve target of between 40 percent to 90 percent of operating expenses. This allows the City time to react to major changes in the cost of electricity without having to impose an emergency rate increase. Rate stabilization funds are also used in the Environmental Utilities to help ease the impacts of rate increases over a period of years.

Rehabilitation Funds: The City has set aside funds in several rehabilitation funds to maintain the City's investments in its buildings, information technology, equipment, and park facilities. The Council's goal is to increase the balance of these funds to keep pace with the improvements, replacements, and maintenance needed. The rehabilitation funds are Facility Rehabilitation Fund, Equipment Replacement Fund, Parks, Recreation and Libraries Capital Projects Fund, and IT Replacement Fund.

Fleet Replacement Fund: The City saves for the cost of replacement vehicles over the useful life of the vehicle. This ensures that funds are available to keep the City's vehicle fleet operating properly and safely. Roseville Electric sets aside resources for vehicle replacement costs in the Electric Fund.

Strategic Improvement Fund: This fund provides the Council with resources that can be used for periodic strategic investments on behalf of the City. This fund has been used to acquire land and fund improvements, primarily in redevelopment areas.

Litigation Reserve Fund: The Litigation Reserve Fund contains funds set aside for legal matters that are unforeseen and unusual and, as a result, would otherwise require reactive measures such as seeking a budget adjustment and a funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. This fund allows for proactive handling and funding of such matters.

Financial Policies

The following financial policies aim to determine appropriate and responsible financial guidelines for staff

Budget Document Overview

to develop the budget, make recommendations, and fulfill their role as fiscal stewards of public funds. As new policies are developed and approved by City Council, they are added to a comprehensive financial policies document found on the City's website. Each year the policies are reviewed by staff, updated if necessary and submitted to Council for approval. A brief summary of the current policies is provided below:

Investment Policy

The purpose of the Investment Policy is to establish cash management and investment guidelines for the Assistant City Manager/Chief Financial Officer, who is responsible for the stewardship of the City of Roseville's investment program. Each transaction and the entire portfolio must comply with the California Government Code Sections 53600 and 53635 et seq. and the Investment Policy. The Investment Policy conforms to the customary standards of prudent investment management, and any changes to the policy must be adopted by the Council. The Investment Policy has been certified by the California Municipal Treasurers Association through their Investment Policy Certification Program.

Debt Management Policy and Swap Policy

The purpose of the Debt Management Policy and Swap Policy is to provide guidelines for the issuance of bonds and other forms of indebtedness to finance necessary land acquisitions, capital construction, equipment, and other items for the City.

Budget Development Policy

The Budget Development Policy aims to establish guidelines for developing the annual operating and capital budget. The policy maintains a citywide focus during the budget development process consistent with the General Principles of Governance adopted by the City Council. The policy includes guidelines for general revenues, a balanced budget, and public participation.

General Fund Reserves Policy

The General Fund Reserves Policy aims to establish a targeted level of General Fund operating reserves, a basic component of a financially strong city. The policy maintains an amount equal to 10 percent of annual General Fund budgeted operating costs as the minimum level of funding in the City's General Fund Emergency Reserve and 15 percent of annual General Fund budgeted

operating costs as the target level of funding for the City's General Fund Stabilization Reserve Fund. Appropriation from the Emergency Reserve and Stabilization Reserve Funds requires the approval of at least four City Council members. The policy also includes the Litigation Reserve Fund, which was established to address legal matters that require proactive handling and funding. The three General Fund reserves are funded at their target levels in the FY2022-23 budget.

Federal Stimulus Reserve Fund Policy

The purpose of this Federal Stimulus Reserve Fund Policy is to establish a temporary Federal Stimulus Reserve Fund with the City's allocation of the federal stimulus (2021 Coronavirus State and Local Fiscal Recovery Funds) until one-time expenditures or transfers to other City funds are approved over the remaining course of the pandemic. The federal stimulus funding may be used to cover qualifying costs obligated between March 3, 2021 and December 31, 2024 and expended by December 31, 2026.

Budget Document Overview

Internal Service Funds - Operating and Replacement Reserves Policy

The purpose of the Internal Service Funds - Operating and Replacement Reserves Policy is to establish (1) operating reserves to provide for continuity of service in the event of unanticipated changes to revenues or expenditures, particularly within a single fiscal year when charges for service on client operating departments already have been fixed through the adopted budget, and (2) replacement reserves to provide funding for capital improvement, rehabilitation, and replacement of capital assets, whose costs yield a burdensome or unaffordable peak in expenditure if assessed on client operating departments as they occur.

Capital Improvement Program Rehabilitation Funding Policy

The Capital Improvement Program Rehabilitation Funding Policy aims to address funding for the City's General Fund infrastructure rehabilitation and replacement by providing annual increases for funding the program.

Pension Funding Policy

The Pension Funding Policy documents the method the City will use to determine its actuarially determined

contributions to fund the long-term cost of pension benefits. The policy also provides guidance in making annual budget decisions, demonstrates prudent financial management practices, reassures bond rating agencies, and shows employees and the public how pensions will be funded. This policy also provides guidance for making additional discretionary payments to CalPERS, and establishing and contributing to a Section 115 pension trust fund to reserve funds to cover future pension cost increases.

Other Post-Employment Benefits (OPEB) Funding Policy

The purpose of the Other Post-Employment Benefits (OPEB) Funding Policy is to accumulate sufficient assets to fully finance the retiree healthcare benefits that retired employees receive throughout retirement. The policy requires appropriating the actuarially determined contribution amount in all applicable City funds.

Request for Proposals (RFP) Policy

The purpose of the Request for Proposals (RFP) Policy is to provide a uniform process for the issuance, evaluation, and selection of competitive proposals for services and/or customized goods.

Budget Document Overview

Employee Salary & Benefits Summary

The City has a Management/Confidential employee group, as well as five bargaining units: International Brotherhood of Electrical Workers (IBEW), Stationary Engineers, Local 39 (Local 39), Roseville Firefighters, Local 1592 (RFF), Roseville Police Association (RPA), and Roseville Police Officers Association (RPOA). Each unit negotiates a contract reflected in a Memorandum of Understanding (MOU) that governs the total compensation for that particular group (e.g., longevity pay, education pay, and certification pay).

The City has established a general pay philosophy of benchmarking total compensation (i.e., compensation and benefits) at the 55th percentile (75th percentile for the Electric Utility) of the labor market to manage rising pension costs and still be competitive in hiring qualified employees to provide City services and high quality of life in Roseville. The City may have to pay above these levels to attract qualified candidates or retain skilled employees in unique situations. The total compensation comparison includes base salaries (not including overtime or payouts upon retirement), pay incentives (e.g., special certification, longevity), health and welfare benefits (i.e., medical, dental, vision, life insurance, disability insurance), and retirement benefits. The City compares its total compensation with jurisdictions that are similar in size, services (Roseville is a full-service City), and geographical location to remain competitive. A Benefit Summary document for each group can be found on the City's website under the Human Resources Department page. **The key compensation components of a typical City employee are listed below:**

Title	Description
Salary	City salary schedules are set on various factors, including job duties, relation to similar jobs within the organization, reporting structure, etc. Compensation surveys are conducted to compare jobs with comparable local government agencies and, in some cases, private sector industries in Northern California. Survey results ensure Roseville's salaries and benefits packages are competitive with other similar jurisdictions, helping the City attract and retain the high-level talent that the City is known to employ.
Retirement	<p>The City and employees contribute to a plan provided by the California Public Employee Retirement System (CalPERS) based on the employee's age, years of service, highest single year or highest three-year average, and benefit factor.</p> <p>Classic members (hired before 1/1/13): Public Safety 3% @ age 50 Miscellaneous 2.7% @ age 55</p> <p>New members (hired after 1/1/13): Public Safety 2.7% @ age 57 Miscellaneous 2% @ age 62</p> <p><i>Note: City of Roseville employees do not participate in Social Security.</i></p>
Health, Dental & Vision Insurance	<p>Depending on employee elections, the City may contribute up to a maximum dollar amount of \$2020 per month towards employee and dependent insurance coverage for family coverage, \$1,620 for employee plus one coverage, and \$1,547 for employee-only coverage:</p> <p>Medical provided by California Public Employees Retirement System (CalPERS) Dental provided by Delta Dental Vision provided by Vision Service Plan (VSP)</p>
Other Group Insurance	Long Term Disability (LTD) coverage is offered to employees. City-paid LTD is provided to employees with more than five years of service in one of the following employee groups: Management/Confidential, IBEW, or Local 39. A group term life insurance plan is provided to all regular employees. Optional self-pay short-term disability and supplemental life insurance plans are also available to employees.
Other Post-Employment Benefits (OPEB)	The City offers health care coverage to all employees who retire from the City of Roseville through the California Public Employee Retirement System (CalPERS). An employee's hire date will determine the level of city contributions, if any, toward this benefit.
Sick Leave	<p>Sick leave provided to employees includes twelve days or 96 hours per year to all units (except RFF, which is six shifts or 144 hours) for all regular employees (pro-rated for those on modified schedules).</p> <p>Effective July 1, 2015, the City provides up to 24 hours of paid sick leave to all employees who qualify as defined by AB 1522.</p>
Vacation Leave	The City provides twelve days of vacation to those with less than five years of service. As tenure increases, the allocation also increases to a maximum of twenty days to employees who have worked twenty years or more. The accruals are pro-rated based on work schedule and vary for those working a 24-hour shift schedule.

Ordinance

ORDINANCE NO. 6522

ORDINANCE OF THE COUNCIL OF THE CITY OF ROSEVILLE
ADOPTING THE ANNUAL BUDGET FOR THE FISCAL YEAR 2022-2023,
ADOPTING BUDGET CONTROL POLICIES, ADOPTING AN APPROPRIATIONS LIMIT,
ADOPTING THE BUDGET FOR THE SUCCESSOR AGENCY OF THE ROSEVILLE
REDEVELOPMENT AGENCY, TO BE EFFECTIVE IMMEDIATELY
AS AN URGENCY MEASURE

THE CITY OF ROSEVILLE ORDAINS:

SECTION 1. The proposed budget for the City of Roseville entitled "Proposed Budget Fiscal Year 2022-2023, City of Roseville, California," a copy of which is on file in the office of the City Clerk, is hereby adopted as the "Annual Budget Fiscal Year 2022-2023, City of Roseville, California."

SECTION 2. The proposed expenses, expenditures, transfers out, revenues, and transfers in shown in the fund, department operating budget and project summaries of the budget document, which are incorporated herein, are hereby appropriated to the departments and activities in the amounts and purposed therein stated. Encumbrances, expenses and expenditures of the various appropriations described in the budget document shall be made by those departments and employees designated therein as the requisitioning authorities.

SECTION 3. The following budget control policies shall become effective upon the adoption of this ordinance:

1. The operating budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by the following major expenditure/expense summary categories:
 - a. Salaries and Wages
 - b. Benefits
 - c. Materials, Supplies, and Services
 - d. Internal Reimbursements
 - e. Capital Outlay
 - f. Debt Service
 - g. Transfers Out
2. The City Manager or designee shall apply prudent monitoring procedures to assure that actual expenditures/expenses of the City and the Successor Agency of the Roseville Redevelopment Agency do not exceed the appropriations at the department level by fund.
3. The City Council delegates authority to the City Manager or designee to approve the movement of City Council approved appropriations within the same fund, excluding Capital Improvement and Non-Capital Multiyear Projects.
4. The City Manager and Assistant City Manager/Chief Financial Officer are directed to ensure that the budget complies with City Council approved financial policies.

Ordinance

5. The City Manager or designee is authorized to increase the Fiscal Year 2022-23 budget appropriations for the remaining unspent appropriations from the prior fiscal year for City Council approved fleet replacement.
6. Capital Improvement Plan. The Capital Budget of the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Capital Improvement Project. Capital project appropriations shall be used solely for the original purpose approved by the City Council.
7. Non-Capital Multiyear Projects. The non-capital multiyear project budget for the City of Roseville and the Successor Agency of the Roseville Redevelopment Agency shall be approved by Non-Capital Multiyear Project. Non-Capital project appropriations shall be used solely for the original purpose approved by the City Council.
8. City Council approval is required to establish or cancel (without completion) new Capital Improvement Projects or Non-Capital Multi-Year Projects.
9. The City Manager or designee is authorized to carryover any unspent appropriations in Capital and Non-Capital Multi-Year Improvements Projects.
10. Annually, completed or inactive Capital Improvement Projects and Non-Capital Multi-Year Improvement Projects will be closed, except for projects that have existing litigation, payment disputes or other extenuating circumstances. An inactive project is defined as one where transaction activity is less than \$1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager or designee have the authority to take the necessary steps to close completed or inactive projects, including appropriate decreases to the budget.
11. All encumbrances for valid purchase orders and contracts in effect as of June 30, 2022, will remain in effect in the following fiscal year. The City Manager or designee is authorized to increase the Fiscal Year 2022-23 budget appropriations, and any associated revenue or reimbursement budgets, in the amount of the outstanding encumbrances for valid purchase orders and contracts as of June 30, 2022.
12. The City Manager or designee is authorized to eliminate funds as required for proper accounting and fiscal management when the purpose of a fund has expired and its fund balance has been expended.
13. The City Manager is authorized to revise any appropriation made in the Adopted Budget where the revision does not increase total appropriations by fund and is consistent with City Council intent.
14. The City Manager is authorized to increase appropriations in any department or project from the General Fund Administrative Contingency.
15. The City Manager is authorized to increase appropriations in the Environmental Utilities funds from the respective fund's contingency budget.

Ordinance

16. The City Manager is authorized to increase revenue estimates and appropriations for Council-approved bond issuances.
17. The City Manager is authorized to decrease the revenue and expenditure budget for the Development Services reimbursable development projects to match the actual amount of revenues received and expenditures incurred each fiscal year.
18. All increases and decreases to the total adopted budget require City Council approval, except as otherwise authorized in this Ordinance.
19. The City Manager is authorized to refine/add content, as may be needed to meet Government Finance Officers Association (GFOA) and California Society of Municipal Finance Officers (CSMFO) budgeting award requirements, in the Proposed Budget to create the FY2022-23 Approved Budget.

SECTION 4. Pursuant to Article XIII B of the California Constitution, the appropriations limit for the City of Roseville is hereby established in the FY2022-23 Approved Budget. The State Department of Finance provides the City the annual adjustment factors used in the appropriation limit calculation. The factors are the changes in the California Per Capita Personal Income and population levels for the City or the County.

SECTION 5. It is hereby ordered that a copy of this ordinance and the budget document be certified by the City Clerk and filed in the office of the City Clerk. The City Clerk is directed to post a copy of this ordinance in three (3) conspicuous locations in the City and enter the posting thereof in the Ordinance Book.

SECTION 6. This ordinance is required for the orderly operation and maintenance of municipal activities and the appropriations for usual and current expenses of the City and the Successor Agency of the Roseville Redevelopment Agency during the 2022-2023 fiscal year. Therefore, this ordinance shall take effect immediately upon passage hereof as an urgency ordinance, pursuant to Section 5.03 of the Charter of the City of Roseville.

PASSED AND ADOPTED by the Council of the City of Roseville this 15th day of June, 2022, by the following vote on roll call:

AYES COUNCILMEMBERS: Houdesheldt, Alvord, Roccucci, Mendonsa, Bernasconi

NOES COUNCILMEMBERS: None

ABSENT COUNCILMEMBERS: None

Gann Appropriations Limit Calculation

The Gann Appropriations Limit began as a ballot initiative approved by California voters in 1979 and modified by Proposition 111 passed in 1990. Its purpose is to limit the amount of tax proceeds state and local governments can spend each year. The Gann Appropriations Limit appears in California's State Constitution as Article XIII B.

The limit is different for each city and changes annually. Each year's limit is based on the amount of tax proceeds that were authorized to be spent in fiscal year 1978-79 in each city, and modified for changes in inflation and population each subsequent year. By law, inflationary adjustments are based on the California Department of Finance's official report which states the change in California's per capita personal income and population levels for the city or the county.

Each year the City Council must adopt an appropriations limit for the following year. The City's Appropriation Limit for FY2022-23 has been calculated to be \$220,864,716. Appropriations subject to the limitation in the FY2022-23 budget total \$112,246,243, which is \$108,618,473 less than the calculated limit.

Consumer Price Index (CPI)	1.0755
Population Increase	1.0151
Ratio of Change	1.0917
FY2021-22 Appropriations Limit	202,314,319
FY2022-23 Appropriations Limit	<u>\$ 220,864,716</u>

General Government Operating Appropriations	198,535,602
Capital Improvement Project (CIP) Appropriations	39,562,755
Subtotal Operating and CIP Appropriations	238,098,357
Less Exclusions not Subject to Limit	
Non-Proceeds of Taxes	(96,142,272)
Qualified Capital Outlay and Federal Mandates	(29,709,842)
Total Appropriations Subject to Limit	112,246,243
Calculated Appropriations Limit	220,864,716
FY2022-23 Margin	<u>\$ 108,618,473</u>

General Funds Overview

General Funds Overview

The General Funds are used for general City operations and activities. The funds account for all financial resources except those that require a separate fund.

For financial reporting, the General Funds include the following funds:

- General Fund
- General Fund Capital Reserve
- General Fund Contributions by Developers Fund
- General Fund Emergency Reserve Fund
- General Fund Stabilization Reserve Fund
- Harrigan Trust Adult Literacy Fund
- Litigation Reserve Fund
- Parks & Recreation Donation Fund
- Roseville Youth Sports Coalition Fund
- Stormwater Management Fund
- Strategic Improvement Fund

The individual fund summaries in the following pages provide an overview of each General Fund. They include the fund's operating budget (revenues and expenses), non-operating budget (capital, debt, and non-recurring revenues and expenses), and a summary of the fund balance, reserves, and unrestricted fund balance. These summaries provide a mechanism to gauge changes in the fund over three fiscal years.

General Fund

The General Fund budget provides for the delivery of municipal services to the Roseville community. These services include police, fire, parks and recreation, libraries, public works, economic development, development services, and general government, which includes the following departments: City Council, City Manager, Public Affairs and Communications, City Attorney, Human Resources, City Clerk, and Finance. The General Fund is the City of Roseville's primary operating fund.

Following are the details of significant General Fund activity presented in this section.

Major Revenues

The City relies on several major revenue sources to support the General Fund budget. The primary revenue sources are the following:

Sales and Use Tax

Sales and use tax is the largest single source of revenue in the General Fund. In accordance with the Bradley-Burns Local Sales and Use Tax Act, the City of Roseville receives a 1 percent share of taxable sales generated within city limits.

The FY2022-23 budget includes a sales tax estimate of \$74.1 million. This projection reflects an increase of 25

General Funds Overview

Major General Fund Revenue Sources

- Sales Tax
- Secured Property Tax
- Property Tax In-Lieu of Vehicle License Fees
- Building Permits and Plan Check Fees
- Hotel/Motel Tax
- Franchise Fees

percent from the FY2021-22 budget estimate of \$59.4 million. The 25 percent increase over the previous year is primarily due to a conservative forecast in FY2021-22 which was developed in the spring of 2021, when there was still a great deal of uncertainty surrounding the impacts of the pandemic on sales tax revenue. Recent sales tax information from the California Department of Tax and Fee Administration and the City's sales tax consultant indicates that FY2021-22 sales tax revenue is performing much better than expected and could generate between \$67 and \$78 million, with \$72.5 being their most likely estimate.

The FY2022-23 forecast provided by the City's sales tax consultant ranges from conservative at \$71.2 million to optimistic at \$82.8 million, with \$77 million as their most likely estimate. The estimate of \$74.1 million in the FY2022-23 proposed budget is the mid-point between the conservative and most-likely estimates. This estimate assumes continued growth in sales tax but acknowledges the uncertainty of how increasing inflation will impact the local economy.

Measure B Local Sales Tax

With the passage of Measure B in November 2018, the total sales and use tax rate increased one-half of one percent effective April 1, 2019. Measure B revenues have performed better than anticipated over the last year, and this trend is expected to continue into FY2022-23.

The City's sales tax consultant's most recent projections for Measure B range from \$26.6 million to \$32.5 million, with \$29.6 million as their most-likely estimate. Similar to the Bradley-Burns Sales Tax, the FY2022-23 budget includes an estimate of \$28.1 million, which is the mid-point between the conservative and most-likely projections. This estimate represents an increase of \$7 million over the amount budgeted in FY2021-22 and also takes into account the uncertainty of the impact of inflation on the economy during the coming year.

Secured Property Tax

Property tax is the second-largest source of revenue in the General Fund. Real property, which is defined as land and any improvements made to land, such as buildings and other permanent structures, is taxed at 1 percent of the property's assessed valuation by Placer County.

The assessed value of a property is determined based on the value of new construction or when a change in ownership occurs, in which case sales price is used as the new assessed value. Under Proposition 13, assessed value of property is increased by a maximum of 2 percent annually. A property that declines in value may be reassessed (per Proposition 8) for a temporary reduction. Property tax is shared by several taxing entities, mainly school districts, Placer County, and the City of Roseville. The location of the parcel determines the City's share of tax revenue, but on average the City is allocated approximately 15 percent of the property tax revenue. The Placer County Auditor-Controller's Office has provided an estimate of property taxes the City of Roseville can expect to receive during the current year. Building upon this estimate, the FY2022-23 secured property tax projection of \$47.9 million reflects a 12 percent increase over the FY2021-22 estimate of \$42.7 million. The projected growth is based on monitoring the local real estate market, new single family homes recently added to the market, economic forecasts, input from tax consultants and the Placer County Assessor regarding current valuations and appeals.

Property Tax In-Lieu of Vehicle License Fees

Previously the State of California assessed a 2 percent tax for cities and counties known as the Vehicle License Fee (VLF) on car registrants. As part of the 2004 Budget Act negotiations, an agreement was made between the state and local governments where the VLF rate will be permanently reduced from 2 percent to 0.65 percent. The difference is paid through local property tax from County educational revenue augmentation funds (ERAF), referred to as the "VLF swap." The City of Roseville's projection for FY2022-23 of \$12.8 million reflects a 9 percent increase over the current year estimate of \$11.8 million. The projected growth is due to the combined change in the assessed valuation of properties.

Building Permits and Plan Check Fees

The City collects building permit fees when issuing a permit for the development of a property. The basis for building permit and plan check fees is the assessed valuation of the square footage proposed for development and improvements. This revenue estimate is developed by

General Funds Overview

analyzing probable future development of single-family, multi-family, commercial, and industrial property. Builders and developers are contacted regarding possible new residential development, while commercial projects are estimated based upon current submittals to the City.

Combining these projections and tenant improvements comprise the permit and plan check revenue estimates of \$5.5 million generated by the Building Inspection Program.

Hotel/Motel Tax

Hotel/Motel Tax, also known as Transient Occupancy Tax (TOT), is a 6 percent tax assessed on hotel and motel room rentals and short-term residential rentals within the City of Roseville. A total of 18 hotels and motels, with 1,932 rooms, currently operate within city boundaries. This revenue stream has performed much better than anticipated in FY2021-22 as hotel occupancy has increased due the lifting of pandemic related restrictions. The projection of \$4 million is \$1.4 million greater than the current year estimate of \$2.6 million.

Franchise Fees

Franchise fees are considered a form of rent to use Roseville public rights-of-way. This fee is collected from companies furnishing users with telephone, cable television, and gas services. Franchise fee revenue comes from Comcast, Consolidated Communications, Pacific Gas & Electric, and KinderMorgan. Payments are based on a percentage of gross revenues as stated in the Roseville Municipal Code; therefore, they fluctuate based on gross billings by the companies listed above. Based on current year revenues, this revenue stream is expected to remain flat in FY2022-23 at \$2.2 million.

Other General Fund Revenue Sources

Licenses and Permits

The major components of this revenue category include animal licenses, building permits (described above), and fire permits.

Use of Money and Property

This revenue category includes interest on investments and rental/lease revenue.

Charges for Current Services

This revenue category includes fees for items such as building permits, police and fire services, and recreation programs. These items are primarily external reimbursements and fee-based payments for services provided by General Fund departments.

Grants and Contributions

This revenue category includes state and federal grant awards received by the City and reimbursement of state mandates.

Other Revenue

This revenue category comprises third-party reimbursements and recoveries. Items such as sales of publications and DUI cost recovery are included in this category.

Operating Transfers In and Electric Franchise Fee

The most significant components of this category are the Electric Franchise Fee and the Municipal Services District Fund transfer. The Electric Franchise Fee is a result of the City Charter, Article IX, Section 9.01, "City-owned utilities may pay an in-lieu of franchise fee not to exceed 4 percent of total operating and capital expenditures to the City's General Fund. All in-lieu of franchise fee revenue received shall be budgeted and appropriated solely for police, fire, parks and recreation or library services." The Municipal Services District Fund transfer is a funding source for General Fund services. Other transfers include an annual transfer from the Supplemental Law Enforcement Fund. These transfers provide funding to cover the cost of staff and programs in the General Fund.

General Fund Expenses

The General Fund includes expenses for operations, debt, capital, transfers out, and repayment of interfund loans. The operating costs are for departments that provide services to the Roseville community, including Police, Fire, Public Works, Economic Development, Development Services, Parks, Recreation & Libraries, and the general government departments. Operating expenses include post-retirement health insurance (aka, OPEB) and annexation tax-sharing payments to Placer County.

Indirect Cost

The City of Roseville's General Fund includes expenses for all administrative services (e.g., finance, human resources, attorney services, etc.). A portion of these services support the enterprise funds, including utility funds. The City uses a fair and equitable indirect cost allocation process to allocate departmental costs from the General Fund to all funds that benefit from the services that the General Fund departments provide. The City employs a consulting firm that specializes in indirect cost studies to prepare the cost allocation plan. The plan is completed under generally accepted accounting principles (GAAP) as recognized by the Governmental Accounting Standards Board (GASB).

General Funds Overview

General Fund Operating Expenses by Department Total - \$211.8 Million

The primary principles used to develop the plan are: 1) the allocated cost is necessary and reasonable for the proper performance of a department, division, unit, and program; 2) the allocated cost is charged to departments, divisions, units, and programs relative to the benefits received; and 3) costs are consistently treated as direct or indirect. Those costs that cannot reasonably be directly charged are included in the study.

Capital and Debt Expenditures

The General Fund includes Capital Improvement Projects (CIPs) related to public buildings, general improvements, street improvements, drainage improvements, and park improvements. The detail for each CIP that includes additional funding in the upcoming budget year can be found in the Capital Improvement Program section of this document.

Debt in the General Fund includes the principal payments on outstanding loans that are the obligation of the General Fund.

Transfers Out

Funds are transferred out of the General Fund for debt service, loan repayments, parks rehabilitation projects, support to the Golf Fund, and to maintain the Emergency and Stabilization Reserves. The FY2022-23 budget also includes a transfer of \$10 million to a new Capital Reserve Fund for future capital needs and \$8 million to establish a Pension Reserve Trust Fund to assist in funding future pension contributions.

Non-Recurring Expenditures

These include projects that are related to special studies. For example, full cost projects related to future annexations and engineering projects, such as traffic studies, all of which are pass-through expenses that are funded by developer contributions.

General Fund Forecast

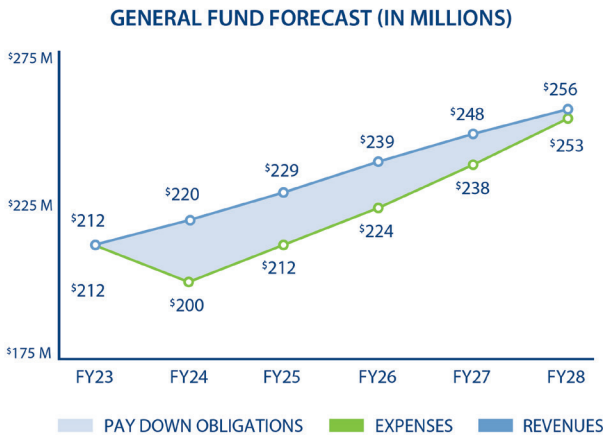

Although the economic outlook is blurred by uncertainty, with the Federal Reserve attempting to control inflation without bringing about another recession, the City remains optimistic about the future. Roseville's financial condition is expected to improve in FY2022-23 as the City increases its General Fund reserves up to the City Council's policy target levels and continues to pay down long-term obligations to create future budget capacity.

The City's FY2022-23 General Fund budget is based on \$102 million of sales tax revenue, including \$28 million from the Measure B half-cent sales tax. Measure B sales tax revenue has helped stabilize General Fund services, protect Roseville's quality of life, and build up additional reserves to weather future economic downturns.

The following graph shows forecasted General Fund revenues and expenditures for FY2022-23 to FY2027-28 based on the City's base case (or most likely) forecast. The General Fund forecast is based on maintaining the service levels included in the FY2022-23 budget over the next five years. The City's sales tax forecast assumes taxable sales return to a normal growth rate between 2.5 percent and 4.1 percent. Property tax revenue is forecast to continue to grow at a rate above the Proposition 13 maximum

General Funds Overview

rate increase of 2 percent due to new growth and higher assessed values when property ownership changes. The City assumes modest salary increases in the forecast based on negotiated labor agreements and its general pay philosophy. Pension costs are forecasted based on the latest information from the CalPERS actuaries and Other Post Employee Benefits (OPEB) costs are based on the City's funding policy and information from the City's OPEB actuary. The forecast includes an increasing contribution toward deferred maintenance and rehabilitation of City assets based on the Council-adopted Capital Improvement Program Rehabilitation Funding Policy. The forecast also includes staffing for a new fire station in FY2023-24, as well as six additional full-time equivalent positions each year to meet the increasing demand for services as the City grows.

The City's forecast also includes revenue and expenses based on current law and policy but does not include events or changes that may or may not happen in the future. The City's base case forecast does not take into account the next economic recession; however, staff present a sample recession scenario to the City Council each year to highlight the importance of long-term financial planning. Because the forecast is based on many assumptions that are not expected to be 100 percent accurate, the City also develops revenue forecasts that are more optimistic and more pessimistic than the base case forecast to demonstrate the uncertainty of revenue projections and alternative future outcomes.

From the base case forecast in the graph, the projected revenue surplus will allow the City to pay down long-term obligations for retiree benefits, thereby creating capacity in future years to maintain services. Expenses are projected to again outpace revenues. To prepare, Roseville remains focused on fiscal responsibility.

General Fund Capital Reserve Fund

The FY2022-23 budget includes the establishment of a new General Fund Capital Reserve Fund. This fund will reserve one-time funding for significant capital projects in the planning and design phase, potentially including the new Roseville Sports Complex and Weber Park improvements. This budget includes an initial transfer of \$10 million from the General Fund to the General Fund Capital Reserve Fund.

General Fund Contribution by Developers Fund

The revenue source for this fund is from non-construction contributions from developers. This fund is used to support General Fund operations as necessary.

General Fund Emergency Reserve Fund

By policy, the City maintains an emergency reserve of at least 10 percent of total estimated General Fund operating expenses. This reserve is held in a separate fund called the General Fund Emergency Reserve Fund. The Emergency Reserve may be used to contend with significant short-term issues such as declared emergencies. It is the intent of the Council to limit the use of the Emergency Reserve to addressing unanticipated, non-recurring needs. The FY2022-23 budget includes a transfer of approximately \$1.25 million from the General Fund into the Emergency Reserve to bring the total reserve balance to \$18.6 million or 10 percent of the General Fund budget before one-time transfers and the CalPERS Additional Discretionary Payment.

General Fund Stabilization Reserve Fund

The General Fund Stabilization Reserve Fund may be used strategically to allow time for the City to restructure its operation in a deliberate manner as required in an economic downturn while minimizing service disruption. Use of the Stabilization Reserve will only take place in the context of a Council-adopted long-term plan. The Stabilization Reserve is intended to be used to address significant revenue shortfalls that occur during an economic downturn until the City's operating expenditure and revenue levels are adjusted to eliminate structural deficits.

The FY2022-23 budget includes a transfer of approximately \$1.37 million from the General Fund into the Stabilization Reserve to bring the total reserve balance to \$27.7 million or 15 percent of the General Fund operations budget before one-time transfers and the CalPERS Additional Discretionary Payment.

General Funds Overview

Litigation Reserve Fund

The Litigation Reserve Fund contains funds set aside for legal matters that are unforeseen and unusual and, as a result, require reactive measures such as seeking a budget adjustment and funding source. Some examples are contract disputes, municipal code enforcement, and other public safety enforcement matters. The purpose of this fund is to address these situations by allowing for a proactive handling and funding of such matters. The revenue source for this fund is transfers from other City funds.

Stormwater Management Fund

The Stormwater Management Fund is a program developed by the City to improve water quality within local creeks. Under this program, the City educates and involves the community in stormwater pollution prevention, requires water quality facilities in development projects, regulates stormwater run-off from construction sites, investigates non-stormwater discharges, and reduces non-stormwater run-off from municipal operations.

Revenue

The main funding sources come from a General Fund reimbursement and transfers from Community Facilities Districts.

Expenses

Approximately half of the fund expenses are dedicated to staff working in the program. The remaining budget is comprised of material, services, and supplies. This includes professional services, advertising, printing, software, tools, training and travel, and other internal charges.

Strategic Improvement Fund

The Strategic Improvement Fund was established to provide support for the General Fund as necessary. The major revenue source is a Community Benefit Fee.

The expenditures in this fund are typically to support Council approved strategies related to land acquisition and usage. This fund also supports General Fund operations and strategic CIPs in other funds, which would eventually generate revenue for the General Fund.

Fund Summary

1001 - General	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget	FY2022-23 Budget (\$)
OPERATING REVENUES, TRANSFERS IN, AND CARRYOVER			
Taxes	150,940,671	144,018,393	174,398,000
Licenses and Permits	4,668,440	3,659,029	3,795,351
Charges for Services	9,764,056	13,069,481	13,725,930
Grants and Contributions	2,210,594	318,535	110,500
Use of Property and Money	800,835	1,402,995	2,595,679

Subtotal Non-Discretionary	\$ 23,080,646	\$ -	\$ 241,027	\$ 158,877	\$ 1,854	\$ 2,649	\$ -	\$ 617,058	\$ 103,040	\$ -	\$ 1,124,505	\$ 21,670,866
Total Operating Expenses	\$ 211,776,207	\$ 3,795,351	\$ 13,725,930	\$ 2,595,679	\$ 110,500	\$ 1,265,936	\$ 7,295,172	\$ 1,952,058	\$ 6,352,306	\$ 1,622,000	\$ 38,714,932	\$ 172,776,000

This chart compares the total General Fund expenditures with the amount that is funded with sales, property and other tax revenue. It shows that of the total \$211.8 million ¹ in budgeted operating expenses, \$ 38,714,932 - \$38.7 million are funded by revenue offsets, ² \$ 172,776,000 - \$172.8 million are funded by sales, property and other tax revenue, ³ \$ (285,275) - \$285K the difference between operating revenue and operating expenses. ⁴ After spending \$21.7 million ⁵ of the sales and property tax revenue on non-discretionary expenses, the City Council has \$151.1 million at its discretion. After funding Police and Fire (with \$77.1 million ⁷ of sales, property and other tax revenue) there is \$74.0 million remaining for City Council to fund the rest of the City's operations. ⁶

Fund Summary

Electric Funds Overview

Electric Funds Overview

Roseville Electric Utility is a community-owned utility that provides reliable electricity to Roseville residents and businesses. The enterprise funds associated with the utility are the Electric Fund and the Electric Rate Stabilization Fund.

Revenue

The primary source of operating revenue in the electric funds is retail electricity sales to residential and business customers. Capital revenues include Contribution in Aid of Construction and the Electric Backbone Mitigation Fee, which recover the costs of designing and installing new electric infrastructure. Other revenue sources include interest earnings and proceeds from the sale of low carbon fuel standard credits.

Operating Expenses

Operating expenses represent the cost of acquiring and delivering electricity to City customers. The cost of acquiring and generating power is the largest utility

expense. Other expenses include engineering, construction and maintenance, customer and government relations, utility billing, traffic signals, administration, and shared City services and technology projects. As provided under the City Charter, the utility pays an in-lieu of franchise fee of 4 percent of total operating and capital expenditures to the City to fund police, fire, parks, and library services. The utility also shares in funding of the City's Utility Exploration Center.

Capital Expenses

The utility's Capital Improvement Program provides for the acquisition, expansion, rehabilitation or modernization of electric utility distribution and generation infrastructure.

Debt

Electric utility debt is the result of bonds issued to build the Roseville Energy Park (REP) and portions of the distribution system. Opportunities to lower costs by refunding or refinancing debt are monitored, and acted on when advantageous for the utility.

Fund Summary

Environmental Utilities Funds Overview

Environmental Utilities Funds

Environmental Utilities (EU) is a group of rate-based utilities that provides water, wastewater and recycled water, and waste services to Roseville residents and businesses.

The water, wastewater, and waste services operating funds account for the majority of each utility's total financial resources. Their primary source of revenue is the rates paid by customers. Per Proposition 218, EU's rates cannot exceed the cost of providing services.

Each of these funds pays for a portion of services shared across EU: engineering, data management, safety, business services, public information, utility billing, and the Utility Exploration Center (a joint effort with Roseville Electric Utility).

Each utility has operating, construction, and rehabilitation capital programs, which typically include technology, facilities, and industry-specific infrastructure.

Water Funds

The rate-based Water Operations Fund provides for the purchase, treatment, and delivery of water to the Roseville

community which includes the operation of the City-owned water treatment plant and water storage, water efficiency programs, and reimbursed expenditures. The budget also includes costs for the continued implementation of the Advanced Metering Infrastructure (AMI) project (in partnership with Roseville Electric Utility), water distribution system maintenance, government relations, hydrogeology, new regulatory requirements, reliability planning, and a set-aside for future rehabilitation and replacement. Other water funds are:

- Water Rate Stabilization Fund
- Water Construction Fund
- Water Rehabilitation Fund
- Water Meter Retrofit Fund

The City is obligated to meet debt service coverage related to long-term debt as part of a rate covenant made to bondholders. The rate covenants outlined in the Certificates of Participation (COPs) issued in 2007 and refunded in 2015 for water capital improvement projects require a minimum debt service coverage ratio of 120 percent. While connection fees are the primary source for payment of debt service, water utility revenue is the ultimate security for repayment of debt.

Environmental Utilities Funds Overview

Wastewater Funds

The wastewater utility collects and treats wastewater for Roseville and its regional partners (South Placer Municipal Utility District and Placer County) at its two City-owned wastewater treatment plants. The utility has also been designated a regional provider of recycled water for areas in the City and Placer County. The rate-based Wastewater Operations Fund provides for all operational costs, reimbursed expenditures, and a set-aside for future infrastructure rehabilitation and replacement. Other wastewater funds are:

- Wastewater Rate Stabilization Fund
- Wastewater Construction Fund
- Wastewater Rehabilitation Fund
- Wastewater Regional Rehabilitation Fund

As a partner in the South Placer Wastewater Authority (SPWA), a joint powers authority, the City is obligated to meet certain debt service coverage ratios related to long-term debt. The rate covenants, as outlined in bond documents and State Revolving Fund documents where debt was issued for wastewater capital improvement projects, require a minimum debt service coverage ratio of 110 percent. While connection fees are the primary source

for payment of debt service, wastewater utility revenue is the ultimate security for repayment of the City's portion of the debt.

The Wastewater Regional Rehabilitation Fund was created in FY2020-21 to track annual contributions for regional wastewater rehabilitation projects from the City's SPWA partners (South Placer Municipal Utility District and Placer County) as well as to track project costs.

Waste Services Funds

Waste Services collects, recycles, and disposes of refuse for residential and commercial customers, and oversees the maintenance of the closed Roseville Sanitary Landfill.

The rate-based Waste Services Operations Fund provides for these operational costs as well as regulatory compliance and the implementation of programs aimed at increasing diversion from the waste stream. In addition, the budget includes a set-aside for the rehabilitation and replacement of existing cans and bins. Other waste services funds are:

- Waste Services Rate Stabilization Fund
- Waste Services Capital Purchase Fund
- Waste Services Rehabilitation Fund

Transportation Funds Overview

Transportation Funds Overview

The Transportation Funds are used for Transit, Bikeway and Transportation Systems Management (TSM) programs and projects, and street and road improvements, such as roadway resurfacing. The three enterprise funds that comprise the transportation funds include:

- **Transit Fund** - This fund supports transit operations (including services for the elderly and the handicapped), maintenance, and capital improvements.
- **Transportation Fund** - This fund supports bikeway development and maintenance, bicycle education programs, and the TSM Program. This fund also supports roadway resurfacing and pedestrian improvements when funds are available.
- **Consolidated Transportation Service Agency (CTSA) Fund** - This fund supports the South Placer Transit Information Center (the Call Center) and the Transit Ambassador and Mobility Management Programs, which are services provided by the City of Roseville on behalf of the West Placer Consolidated Transportation Services Agency (WPCTSA).

Revenue

State sales taxes, passenger fares, and federal grants typically account for most of the revenues for the Transportation Funds. Two key revenue sources allocated to the City's Transportation Funds each year are derived from the Transportation Development Act (TDA). These are revenues from the State Transit Assistance (STA) and Local Transportation Funds (LTF) accounts. The LTF allocation to the City of Roseville is derived from a quarter-cent general sales tax collected in Placer County and distributed based upon the City's population. LTF must be used to meet all transit needs determined to be reasonable

before funds can be diverted to bikeway, TSM, or roadway improvements. The STA allocation is derived from the statewide sales tax on diesel fuel and is distributed using a formula based upon population and transit fare revenues. Two transit revenues are derived from Senate Bill 1 (SB 1). One of the SB 1 sources augments the STA allocation, and like STA is derived from fuel excise taxes. A program called State of Good Repair (SGR) was also created by SB1 and is funded by State Transportation Improvement fees on vehicle registrations. Passenger fares, federal, state and local grants, and bus advertising are other sources of revenue. FY2022-23 transit revenues also include \$1.2 million in Federal Transit Administration American Rescue Plan Act (ARPA) and Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) stimulus funds intended to offset increased expenses and decreased local revenues associated with the COVID-19 pandemic.

Funding for the Consolidated Transportation Services Agency (CTSA) programs is provided by the Western Placer Consolidated Transportation Services Agency (WPCTSA) (whose funds are derived from the TDA and managed by the Placer County Transportation Planning Agency).

Expense

Seventy five percent of all operating expenses in the Transportation Funds are for Roseville Transit operations such as contractor expenses, vehicle maintenance, fuel, and administration. The other 25 percent of operating expenses pay for bikeway and pedestrian planning and education, TSM programs, safe routes to school programs, crossing guards program, Public Works communications, and engineering. A significant share of the Transportation Funds support capital projects for transit, bikeways, bike trail resurfacing, and road maintenance.

Youth Development Fund Overview

Youth Development Fund Overview

The Parks, Recreation & Libraries Department operates Adventure Club and Preschool programs, which are accounted for within the Youth Development Fund.

Youth Development programs provide safe, engaging, and memorable experiences for Roseville children and families. The Adventure Club & Preschool programs operate in partnership with both the Roseville and Dry Creek School Districts to provide before and after school licensed child care at 19 elementary school locations. Subsidized care programs are offered for qualifying families at locations eligible for grant funding.

Revenue

The Youth Development Fund revenue is derived from fees collected for before and after school childcare programs, and preschool programs. The fund includes Adventure Club, preschool, After School Education & Safety (ASES), and subsidized care programs. Fund expenses include charges for staff, facility maintenance, materials and supplies.

Through a Memorandum of Understanding (MOU) with the Roseville City School District, the District reimburses the City for direct costs to provide the ASES after school program at Cirby and Woodbridge Schools. These subsidized care programs are funded within the Youth Development Fund and provide a significant benefit for participating families.

While the Youth Development Fund previously had a healthy fund balance, the fund experienced significant losses due to the COVID-19 pandemic. Adventure Club and Preschool operations were impacted by limited

needs for this service, as remote working had significantly increased. Surplus General Fund resources from FY2020-21 and American Rescue Plan Act funds have been transferred into the Youth Development Fund to replace the lost revenue and return the fund balance to pre-pandemic levels.

Expenses

Costs of personal protective equipment, cleaning supplies, and individual materials for participants contributed to increased operational costs at a time when overall registrations were low. Direct expenses include staff salaries, facility maintenance, materials and supplies. Indirect fund expenses include post-retirement insurance, City indirect charges, Internal Service Fund charges, and loan payments.

Debt

An interfund loan currently exists within the Youth Development Fund. The loan encompasses the following: an accounts receivable balance payoff loan was necessary in FY2013-14 and the fund needed a loan to purchase the Fiddymont Farm facility in 2015, the Orchard Ranch facility in FY2017-18, and the Riego Creek facility in FY2020-21. The loan is scheduled for payoff in 2037.

Capital improvement Projects (CIPs)

CIP expenses for Adventure Club facility maintenance including HVAC repair, flooring replacements, exterior paint, Americans with Disabilities Act (ADA) ramp repair/resurface, etc. are funded within the Youth Development Fund. Infrastructure investments are needed, and included in the operations budget. As new schools open, the fund incurs the expense to purchase these new facilities.

Special Revenue Funds Overview

Special Revenue Funds Overview

These funds are established to collect money that must be used for a specific purpose. Special Revenue Funds provide an extra level of accountability and transparency to taxpayers that their tax dollars will go toward an intended purpose. Special Revenue Funds are:

- Affordable Housing In Lieu and Program Equity Fund
- BEGIN Fund
- Cable TV Peg Funds
- CalHome Fund
- Community Development Block Grant Fund
- Federal Asset Seizure Fund
- Federal Stimulus Reserve (ARPA) Fund
- Forfeited Property Fund
- Golf Course Funds
- Grants Fund
- Highway Users Tax Fund
- HOME Investment Partnership Program Fund
- Housing Successor Low Mod Fund
- Housing Trust Fund
- Landscape & Lighting and Services District Funds
- Native Oak Tree Propagation Fund
- Non-Native Tree Propagation Fund
- Open Space Fund
- Police Evidence Fund
- Road Maintenance and Rehabilitation Account Fund (RMRA)
- Roseville Aquatics Maintenance Fund
- State Gas Tax Fund
- Supplemental Law Enforcement Fund
- Technology Replacement Fund
- Traffic Safety Fund
- Trench Cut Recovery Fund

Following are details for three of the larger Special Revenue Funds presented in this section (Highway Users Tax Fund, RMRA, and Golf Course Operations Funds).

Highway Users Tax (HUT) Fund and RMRA Fund

The HUT Fund, along with the RMRA Fund, are the City's primary sources of funding for the street maintenance program, which includes maintenance of pavements, curb and gutter, sidewalks, and roadway drainage systems.

Revenue

The source of annual revenue for the HUT and RMRA funds is the State Excise Tax paid at the gas pump. RMRA funds

are a result of the 2017 passage of Senate Bill 1, which established an additional gas tax in California for road maintenance purposes. Other sources of road maintenance revenue include the Roadway Fund, which derives its annual revenue from Utility Impact Reimbursement (UIR) funds paid by Environmental Utilities for their impact on the City's roadway network, Transportation Development Act funds remaining after funding the City's Transit needs, and Federal Regional Surface Transportation Program (RSTP) funds from the Federal Excise Tax (Federal Gas Tax) paid at the pump. The amount of HUT and RMRA revenue the City receives is a function of Roseville's population and roadway miles. As the City grows, the HUT and RMRA fund revenues will increase accordingly. Roadway Fund revenues are a function of the actual cost of the previous year's resurfacing work (UIR portion) and the cost of meeting the City's transit needs (TDA portion).

Expenses

These funds include costs for staff, materials, and equipment. Also included are the roadway resurfacing contracts that are put out to bid each year. For roadway resurfacing, it is most cost-effective for the City crews to perform the prep work (crack filling, pothole repair, etc.) and then contract out the application of the resurfacing material.

The City has invested over \$1 billion in street infrastructure, so it is critical to protect that investment. The City's goal is to maintain arterial and collector streets at a Pavement Quality Index (PQI) of 72 or better, and 65 or better for residential streets. PQI is a measure from 1 to 100, with 100 representing a brand new street. Having high quality street pavement is a key element in maintaining the high-quality of life Roseville citizens and business owners have come to expect. Approximately \$4 million per year of additional revenue would be required for the next eight to 10 years to achieve this goal for all streets in Roseville.

Special Revenue Funds are funds that are established to collect money that must be used for a specific purpose.

Special Revenue Funds Overview

Golf Course Funds

The City owns two municipal golf courses, operated and maintained by contracts and managed by the Parks, Recreation & Libraries Department. Woodcreek Golf Club is an 18-hole championship course with a lighted driving range and full service restaurant and banquet facility designed to provide the public with a country club-like experience. Diamond Oaks Golf Course is an 18-hole traditional municipal course designed to ensure recreational golf is available to the public. Both courses provide a variety of golf opportunities for City residents and neighbors. The Golf Course Operations Fund is the special revenue fund associated with the golf courses.

Revenue

The most significant source of revenue is generated through user fees for course play. Additional revenue is derived from food and beverage services. Revenue generation related to golf industry economics is highly dependent upon customers' desire to expend their disposable income on recreational golf. Despite COVID-19, golf rounds and driving range use increased in both 2020 and 2021. The Golf Course Fund ended FY2020-21 with a surplus of \$1 million due to higher than anticipated user fees. Revenue growth in this fund is forecasted to continue in FY2021-22 and into FY2022-23.

Expense

The primary fund expenses are course maintenance, bond payments, and utilities. Although City staff is involved in managing course contracts, no staff are employed directly at the courses. The existing General Fund subsidy will continue in FY2022-23 but is expected to be reduced in 2024 when an annual bond payment of \$490,000 is paid off.

Debt

The construction of Woodcreek Golf Club was financed through municipal bonds. The construction of the Woodcreek clubhouse was financed through an interfund loan.

Capital Improvement

Minor course repairs and improvements are budgeted through the operations accounts, while more significant repairs and renovations are funded through CIPs. Both courses are aging and are in need of significant renovation and repair. A golf course improvement plan is under development and the FY2022-23 budget includes \$1 million for rehabilitation of the golf courses.

Fund Summary

2199 - Landscape & Lighting Districts/Services	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)

Capital Project Funds Overview

Capital Project Funds Overview

These funds are used to account for financial resources to be used for the construction or maintenance of major city facilities. Capital Project Funds are:

- Air Quality Mitigation Fund
- Al Johnson Wildlife Area Fund
- Bike Trail Creekview Fund
- Bike Trail Fund
- Blue Oaks Blvd Fee Fund
- City County Mitigation Fund
- Citywide Park - Sierra Vista SP Fund
- Citywide Park - West Roseville SP Fund
- Citywide Park Fund
- Citywide Park In Lieu Fund
- Community Facility District Capital Project Fund
- Downtown Benefit Fund
- Downtown Parking Fund
- Fire Facilities Fund
- General Capital Projects Fund
- Neighborhood Park Funds (All)
- Parks and Recreation Fee Funded Projects Fund
- Parks Recreation and Library Capital Projects Fund
- Pleasant Grove Drainage Basin Fund

- Public Facilities Fund
- Roadway Fund
- SVSP Fee Program - Admin Fund
- SVSP Fee Program - Park Land Fund
- Traffic Benefit Fee Fund
- Traffic Coordination Fund
- Traffic Mitigation Fund
- Utility Impact Reimbursement Fund
- Westpark Drive Fee Fund

The following are details for three of the larger Capital Project Funds presented in this section (Park Development Funds, Traffic Mitigation Fund, and Fire Facilities Fund).

Park Development Funds

The City of Roseville specific plans require each plan area to provide for the development costs of citywide/regional parks, neighborhood parks, school parks, and in some areas, bike trails. The specific plan development agreements and accompanying financing plans set the parameters for the future collection of park development fees and ensure the amount and types of park facilities are constructed for each plan area. Different funds are used to segregate and account for the fees, which cannot be used for any other purpose.

Capital Project Funds Overview

The primary sources of revenue are development fees, which are assessed at building permit issuance (unless deferred to occupancy phases). These include citywide park development fees, neighborhood park development fees, and bike trail fees. Other revenues include in-lieu fees (in-lieu of land dedication and development) and interest.

The primary fund expenses are Capital Improvement Projects for new citywide parks, neighborhood or school parks, or bike trail development. Typical costs include design, grading, underground, construction, permits, and inspections. City indirect charges account for less than two percent of expenses.

Interfund loans are sometimes used to bridge the timing gap between collection of fees and CIP construction.

Traffic Mitigation Fund

The Traffic Mitigation Fund is the City's primary source of funds for capacity improvements to the roadway network. The source of revenue for the Traffic Mitigation Fund is traffic impact fees paid by developers when they are issued building permits. The fee is based on the amount of traffic generated by land development and the cost of the roadway projects contained in the roadway related CIPs. This method complies with Assembly Bill 1600, which requires a nexus between the impact fee and the impact caused by land development. Although traffic impact fees paid by developers comprise the majority of revenues for capacity improvements to the City's roadway network, the City also participates in federal and state grant programs when available.

The City's roadway Capital Improvement Program is comprised of just over \$500 million in roadway improvements that have been identified as being needed to handle the volume of traffic once Roseville is completely built out, and areas surrounding Roseville are developed to market levels in the future (typically around twenty years into the future). Traffic modeling software is used to forecast those future traffic volumes. In determining the projects for the CIP, the City targets the threshold for traffic congestion as adopted by the City Council, which is to maintain Level of Service C or better during the p.m. peak hour at 70 percent or more of signalized intersections.

The citywide roadway capital improvement and traffic impact fee program were adopted by the City Council in 1989. Since then, the City has constructed over \$200 million in roadway improvements. Examples of some of the major roadway CIPs that have been constructed are:

- Harding Boulevard Overcrossing (over Atlantic Street)
- Old Auburn Road Realignment

- Pleasant Grove Overcrossing (over the Union Pacific railroad tracks)
- Atlantic Street Widening
- Roseville Parkway/I-80 Overcrossing
- Douglas Boulevard/I-80 Tunnel and Flyover
- Fiddymont Road Widening
- Eureka Road/I-80/Taylor Road Improvements
- Blue Oaks Boulevard Widening (from four to six lanes)
- Intelligent Transportation System (ITS) and Traffic Operations Center (TOC)
- Woodcreek Oaks Boulevard Widening from Canevari Drive to Crimson Ridge Way

Since traffic impact fees are paid when building permits are pulled, the Traffic Mitigation revenue stream varies each year based on the rate of land development. When land development is booming, Traffic Mitigation revenues can range from \$10 million to \$11 million per year. When land development is slow, Traffic Mitigation revenues hover around \$1 million to \$1.5 million per year. During a down economy, it takes longer to save up enough money to construct roadway projects. But by the same token, a lower rate of land development means traffic volumes are not growing as rapidly.

Fire Facilities Fund

The Fire Facilities Fund was established in 1984 to account for the fire service construction tax. This tax was established to fund the cost of additional fire service facilities and equipment needed to provide services for new development. On December 31, 2009 the tax ended; however, the terms of the tax, in the form of a fee, continue to survive in various development agreements.

Revenue

The majority of revenue comes from the development agreements that require the collection of the fee calculated by multiplying 0.005 by the valuation of the structure for which the permit application is made. It is due at the time of the permit application and is a condition for obtaining a building permit.

Expenses

The fund expenditures can only be used for the funding of construction, reconstruction or repair of fire facilities, or the acquisition, repair, or maintenance of fire equipment that is related to new development. Historically, the fund has been the primary source of funding for fire station construction projects and the purchase of additional apparatus. Planning is underway for design and construction of a new fire station funded by the fire facility fee.

Fund Summary

3099 - Community Facility District Capital Project	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)

Other Funds Overview

Permanent Fund

This fund is used to account for resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs, to remain intact in perpetuity or until a specific future date or event. Permanent Fund is:

- **Citizens Benefit Fund** – provides community and Roseville Employees Charitable Hearts (REACH) grants to non-profit organizations throughout the City. The primary source of annual revenue comes from interest and City of Roseville employee donations. Ordinance 3388, Section 4.06.040 allows the City Council to appropriate up to 90 percent of the prior year's annual interest earnings.

Special District Agency Funds

These funds account for assets held by the City as an agent for individuals, governmental entities, and non-public organizations. Special District Agency Funds are funds used for public infrastructure improvements and maintenance financed by special levies against property holders. They are secured by special taxes assessed on the property owners within the district to pay the principal and interest on the bonds.

Trust Funds

These funds are restricted for specific programs and purposes in accordance with a statute that designates the fund as a trust. Trust Funds are:

- **OPEB Trust Fund** – used to account for assets held by the City as a trustee agent for the members and beneficiaries of other post-employment benefit plans (retiree medical). Investment income is based on a long-term actuarial assumption of 6.25 percent and may include income earned, as well as realized and unrealized gains/losses.
- **Pension Reserve Trust Fund** – used to account for assets held by the City as a reserve to help manage future increases in required pension contributions. This budget includes a transfer of \$8 million of initial funding from the General Fund to establish this new fund.
- **Private Purpose Trust Funds** – a collection of trust funds including the Library Endowment Fund and various urban reserve funds.
- **Successor Agency to the Former RDA Fund** - is responsible for unwinding the affairs of the former Redevelopment Agency (RDA). The Successor Agency will continue to oversee completion of redevelopment

projects, dispose of assets and properties of the former RDA and meet its enforceable obligations. A seven-member Oversight Board approves the annual Recognized Obligation Payment Schedule (ROPS) that determines the amount of property tax increment the Successor Agency receives to pay its annual debt service and other enforceable obligations.

Internal Service Funds and Self-Insurance Funds

These funds are used to account for the financing of goods and services provided by one City department to other City departments on a cost-reimbursement basis.

Internal Service Funds are:

- **Fleet Replacement Fund** - provides automotive replacement services for the City's fleet.
- **Fleet Services Fund** - provides maintenance and supplies to the City's fleet.
- **Facility Rehabilitation Fund** - provides rehabilitation for City's facilities.
- **Facilities Services Fund** - provides building maintenance and custodial services to all departments citywide.
- **Equipment Replacement Fund** - provides for the replacement of equipment for General Fund departments.
- **IT Operations Fund** - provides information technology support and services for digital communication, database and cloud, network infrastructure, business solutions, GIS, client services, and enterprise solutions to all departments citywide.
- **IT Replacement Fund** - provides rehabilitation for City's information technology infrastructure.

Self-Insurance Funds are:

- **General Benefits Fund**
 - Dental Insurance Fund
 - Vision Insurance Fund
 - Section 125 Fund
- **General Liability Fund**
- **Workers' Compensation Fund**
- **Unemployment Insurance Fund**

These Self-Insurance Funds provide services and benefits to the City and its employees on a cost reimbursement basis. The primary source of revenue is a premium charged to funds that include city salaries.

Fund Summary - End Notes

**[1]
Prior Year Encumbrance Carryover**

Prior year encumbrance carryovers are included as operating revenue since they represent the reserve set aside to cover the carryover expenses/expenditures from the prior year. The beginning fund balance has been adjusted down by the amount of these reserves.

**[2]
Prior Year Project Carryover**

Prior year project carryovers are included as non-operating revenue in FY2020-21 since they represent the reserve set aside to cover the carryover of expenses/expenditures from prior fiscal years. Project carryovers no longer appear as non-operating revenue beginning in FY2021-22 because the City has adjusted methodologies and no longer increases the annual non-operating budget for the remaining project balances. Instead, prior year project budgets are tracked and accounted for within the City's financial system. The beginning fund balances in FY2020-21 and FY2021-22 have been adjusted down by the amount of these reserves.

Fund Summary - End Notes

[3]

Others Sources/(Uses)

1001 - General

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	(11,043,000)	-

Budget adjustments totaling \$11,043,000 from surplus FY2020-21 General Fund resources were approved on May 18, 2022. These budget adjustments are reflected as an other use in the FY2022-23 General Fund summary. Due to the timing associated with approving and posting this adjustment, the FY2021-22 Amended Budget does not reflect this change.

1040 - Litigation Reserve

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	-	250,000

The Litigation Reserve Fund is used for unanticipated outside attorney fees. Staff anticipates that the expense budgeted in FY2021-22 will not be spent, which will make that amount available in FY2022-23 and result in a positive fund balance after year-end.

2201 - Community Development Block Grant

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	231,994	-

Staff will recommend a FY2021-22 budget adjustment to City Council to recognize an additional \$231,994 in funding for the Community Development Block Grant Fund.

2270 - Grants

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	2,240,020	-

Staff will recommend a FY2021-22 budget adjustment to City Council to recognize an additional \$2,240,020 in revenues associated with Permanent Local Housing Allocation.

3318 - Neighborhood Park - Westbrook

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	209,184	-

Staff will recommend a FY2021-22 budget adjustment to City Council to recognize an additional \$209,184 in funding for Neighborhood Park - Westbrook Fund.

4251 - Unemployment Insurance

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	634,000	-

On May 18, 2022, the City Council approved a budget adjustment transferring \$634,000 from the General Fund into the Unemployment Fund. Due to the timing associated with approving and posting this adjustment, the FY2021-22 Amended Budget does not reflect this transfer. This transfer is reflected as an other source in the FY2022-23 Unemployment Fund Summary.

6330 - Waste Services Rehabilitation

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	2,000,000	-

Staff will recommend a FY2021-22 budget adjustment to City Council to transfer \$2,000,000 in excess Waste Services Operations funds to the Waste Services Rehabilitation Fund to meet utility rehabilitation requirements.

6511 - Transit

	FY2020-21 Actuals (\$)	FY2021-22 Amended Budget (\$)	FY2022-23 Budget (\$)
Other Sources/(Uses)	-	2,084,714	-

Staff will recommend a FY2021-22 budget adjustment to City Council to modify existing Transit Capital Improvement project budgets to match anticipated expenditures. As a result, the estimated unrestricted ending fund balance for FY2021-22 will be \$1,468,746 and for FY2022-23 will be \$1,557,879.

Other Sources/(Uses)	-	3,961,439	-

On May 18, 2022, the City Council approved a budget adjustment transferring \$3,500,000 from the General Fund into the Youth Development Fund. Due to the timing associated with approving and posting this adjustment, the FY2021-22 Amended Budget does not reflect this transfer. In addition, staff anticipates that the Youth Development Fund will end FY2021-22 with \$461,439 in savings. This transfer and the anticipated savings are reflected as an other source in the FY2022-23 Youth Development Fund Summary.

Department Operating Budgets Overview

Department Operating Budgets Overview

The Department Operating Budgets section contains the operational costs by department. The section begins with a Budget Summary by Department that outlines all department operating budgets. The full-time equivalent (FTE) positions for each department are also included in this summary. Following the Budget Summary is the detail for each department and the costs required to fund their services.

Each department section contains an organizational chart which displays the overall structure of the department.

In addition, each section provides an overview of services, accomplishments, City Council Strategic Plan efforts, key performance measures, workload measures and budget highlights.

The Department Budget Summary provides position and expenditure/expense information over a three-year period: prior year actuals, current year budget, current year amended budget, and the new budget year. Each department section contains a summary of positions, expenditures/expenses by major category, expenditures/expenses by fund, and expenditure/expenses by center or division.

The expenditures/expenses by major category summary are segregated into the following categories:

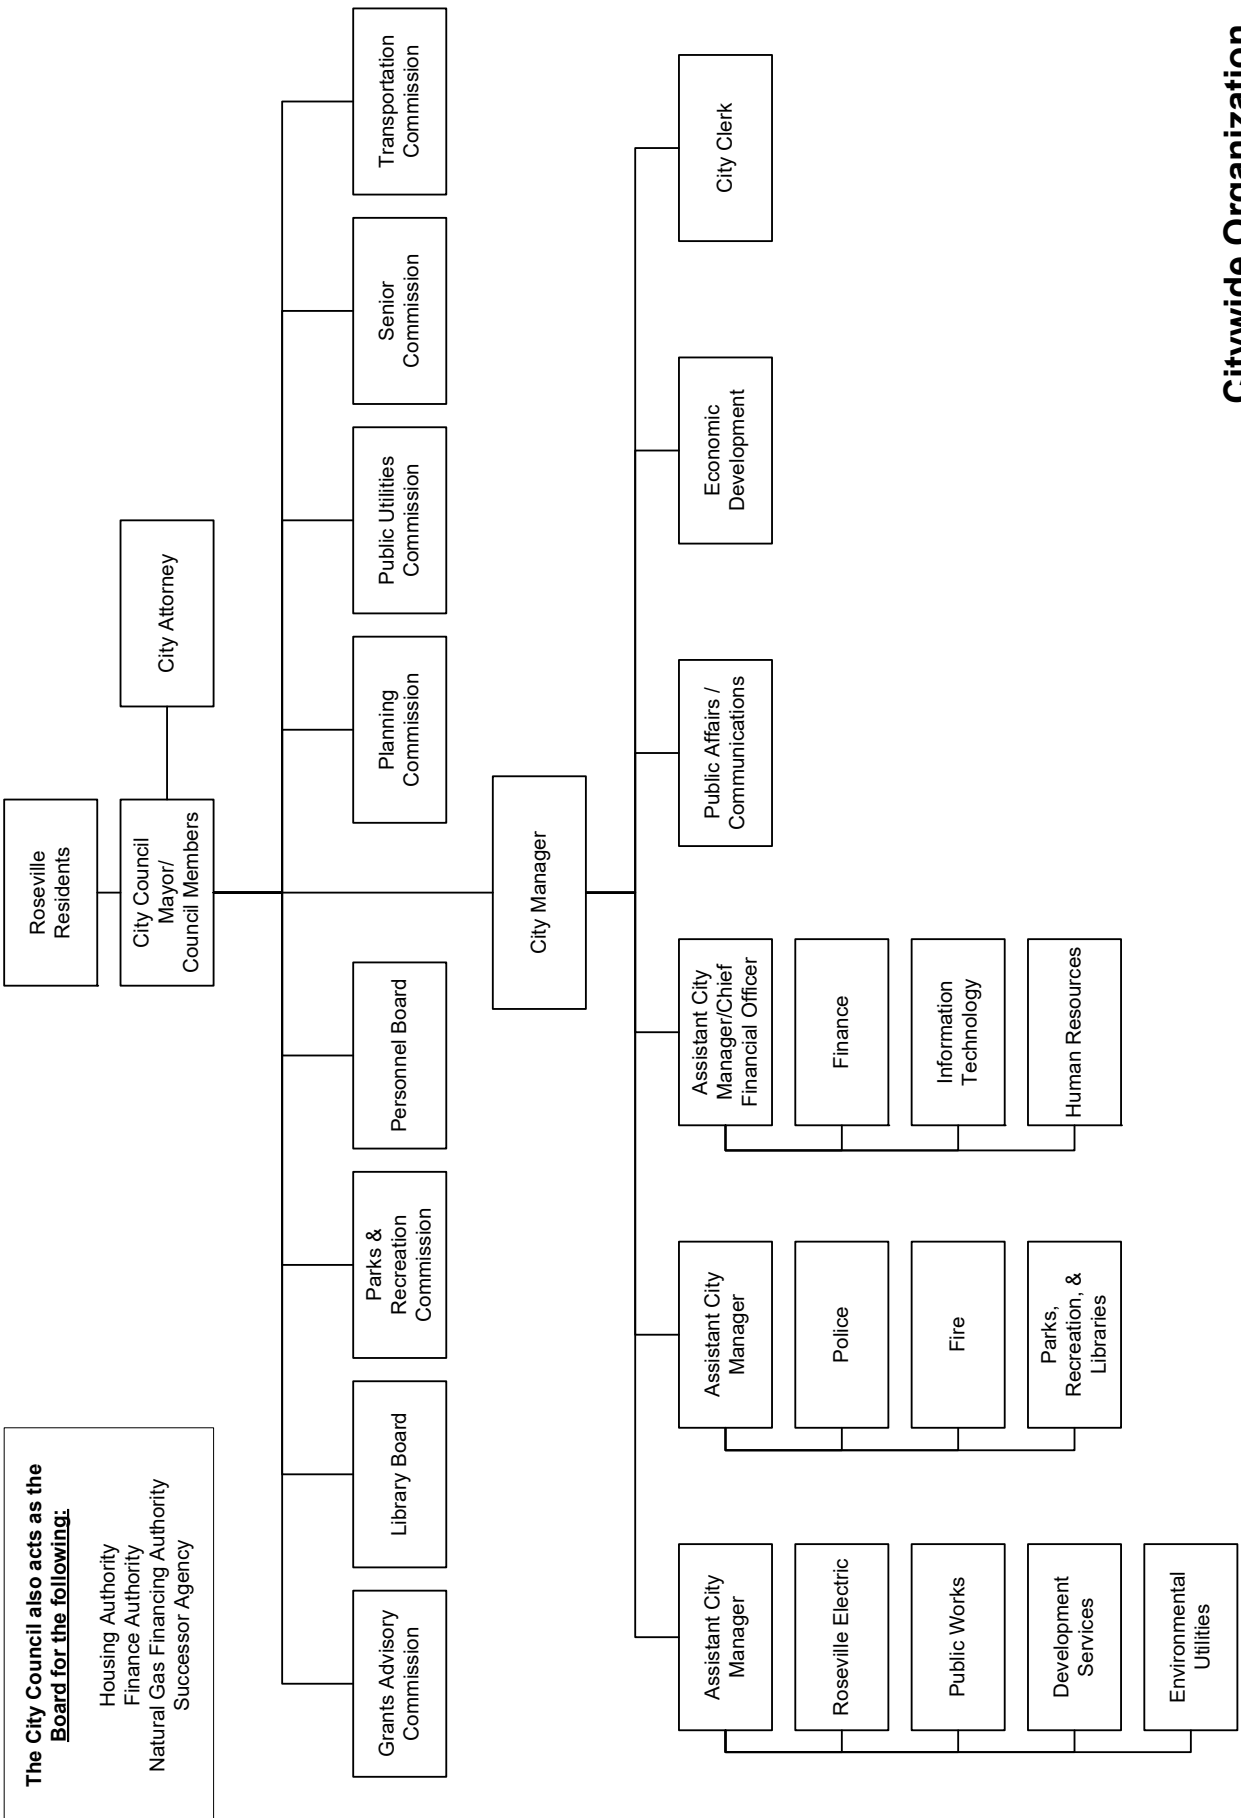

- Salaries and wages
- Benefits
- Materials, supplies, and services
- Internal reimbursements
- Capital outlay
- Transfers out

The salaries and wages and benefits categories include compensation and benefits paid to employees of the City. Materials, services, and supplies contain costs consumed during the fiscal year and are not capital related. Internal reimbursements are for expenditures/expenses charged to other departments, funds, or projects. Capital outlay expenditures result in acquisitions or additions to capital assets and represent a betterment or improvement. These expenditures typically have a life of more than one year and cost \$5,000 or more.

Note: Transfers between City funds, internal service fund budgets, and Other Post Employment Trust Fund budgets, related to payments for retiree benefits, are excluded from the Budget (Net) calculation to prevent double-counting these expenditure budgets.

The City Council also acts as the Board for the following:
 Housing Authority
 Finance Authority
 Natural Gas Financing Authority
 Successor Agency

Citywide Organization

Department Operating Budgets

City Council

Overview of Services

The City Council, as the elected body, adopts legislation, sets policy, adjudicates issues, and establishes the budget. The City Manager, the administrative head of the City government, implements City Council approved policies and laws. The City Council obtains direct citizen input from 13 Council-appointed boards and commissions. The Mayor and Councilmembers are accountable to the electorate and must balance the views of individuals and groups with the community's needs. Councilmembers achieve success with public policy issues facing the region by leading and collaborating with residents, businesses, and regional partners on issues of mutual interest.

Accomplishments

As the governing body for the City of Roseville, the City Council sets policy, diligently works toward common solutions, builds a sustainable future, provides perspective on critical issues, seeks community input, and works with the community to enhance understanding of City processes and issues.

Council Strategic Plan

With comprehensive community input through ongoing efforts, as well as initiatives such as EngageRoseville, the City Council updated its four-year strategic plan in February 2022. The City Council's Strategic Planning Update Workshop considered progress made on current priorities along with staff and funding capacity to work on new or expanded focus areas.

The resulting plan describes the City's mission, vision, and values that guide the City's work. It includes overarching goals through FY2023-24 and specific strategies to support each goal. The plan was developed and updated at public workshops.

The six goals that support the City's mission and vision are:

- Maintain a safe and healthy community
- Remain fiscally responsible in a changing world
- Enhance economic vitality
- Invest in well-planned infrastructure and growth
- Support community engagement and advocacy
- Deliver exceptional city services

Budget Highlights

The City Council's FY2022-23 budget totals approximately \$47,000. This budget decreased by approximately 50 percent over the prior year from \$95,000 to \$47,000. This change is primarily due to increased internal citywide cost plan reimbursements.

Department Operating Budgets

City Manager's Office

Overview of Services

The City Manager's Office implements the City Council's vision and goals by aligning financial resources and administering City projects, programs, and services that support expressed City Council priorities. The City Manager makes policy recommendations to the City Council and oversees all City departments except the City Attorney's Office. The City Manager's Office also focuses on leadership; overall quality-of-life issues, fiscal accountability, internal and external communications; engagement with employees, the business community, neighborhood associations, residents, and regional governments; internal collaboration between departments; public/private partnerships; higher-education opportunities, and drives efficiency, innovation, and change within the City.

Accomplishments

- Led City through significant financial, regulatory, and economic change while receiving some of the highest satisfaction ratings in the country from residents
- Worked with labor groups on new contracts to ensure stability of the workforce and competitive compensation in a particularly tight labor market
- Conducted City Council Strategic Planning Update Workshop
- Created a comprehensive unsheltered plan for integrated city services and participated in regional homelessness initiative
- Conducted executive recruitment for new Economic Development Director, City Clerk, and Electric Utility Director
- Supported implementation of inaugural Independent Redistricting Commission's redistricting efforts
- Managed a variety of challenging issues with utilities and public works projects in dynamic financial, regulatory, and climate environment

Budget Highlights

The City Manager's FY2022-23 budget totals approximately \$1.5 million and provides funding to support seven position allocations. The City Manager's budget decreased by approximately 5 percent over the prior fiscal year, from \$1.5 million to \$1.47 million. This decrease is primarily due to one-time professional services funding that was included in the FY2021-22 budget.

Department Operating Budgets

Public Affairs & Communications Department

Overview of Services

The Public Affairs & Communications (PA&C) Department leads the City's legislative advocacy, media relations, community relations, social media, broadcast, internal communications, neighborhood services, and public information initiatives.

The Department staff manages the work related to the City Council's Law & Regulation Committee, Organizational Culture & Leadership Committee, Employee Recognition Committee, and REACH (Roseville Employees Annual Charitable Hearts) giving program. PA&C leads citywide teams including communications, government relations, marketing, emergency services, E-Government, and open data, and is the liaison for the Roseville Coalition of Neighborhood Associations, community/affinity/faith-based groups, and other business, education, and community initiatives.

Accomplishments

- Facilitated Council Priorities Update Workshop in February 2022 to review accomplishments, discuss areas of focus and update four-year Council priorities
- Ensured comprehensive communication to raise awareness and transparency for first-ever Independent Redistricting Commission redistricting effort through direct mail, website, and broadcast or audio recording of nearly two dozen meetings
- Educated Roseville residents on newly formed districts, updated Council Strategic Plan, and ways to participate in local government decisions and keep informed with news and events
- Participated in regional Homelessness Task Force and City's Interdepartmental Homelessness Task Force, facilitating conversations, strategy development, intergovernmental relations and nonprofit partnerships, community engagement, education, and awareness
- Integrated ability for remote presentations to coincide with in-person meetings in Council chambers
- Significantly expanded Economic Development marketing, business support, website, and communications and supported development of Economic Development Strategic plan and marketing campaigns
- Developed digital communications strategy to support HR recruitment, retention, and organizational culture efforts without adding additional staff
- Conducted staff surveys regarding employee recognition and remote work in conjunction with SacState and Wharton to help guide workplace initiatives
- Brought together citywide committees, developed strategic direction, implemented return to office-based work interactions and activities
- Supported utilities marketing, video, and graphic design
- Consulted with Parks Recreation and Libraries on video production
- Assisted Local Sales Tax Citizens' Oversight Committee in developing initial draft scorecard of expenditures of half-cent sales tax
- Showcased city jobs through a virtual Careers in Government Day to over 500 local high school students and at local career fairs
- Conducted recruitments of high school students to serve on city boards and commissions
- Established City TikTok channel and developed content to gain familiarity among younger populations

Department Operating Budgets

- Developed recruitment videos highlighting seasonal job opportunities with the City targeted to younger populations
- Developed a communications strategy related to homelessness to provide context and inform the community of the efforts underway to address this issue, to provide information to people experiencing homelessness about resources available, and to guide the community in ways they can most effectively support efforts to prevent and address homelessness
- Partnered with Placer County-based nonprofit Global Marketplace to conduct four nine-week sessions of Conversations on Racial Healing for city staff and community members with Roseville Police Department representatives sharing and listening to perspectives as well. The Police Department has continued these outreach efforts in further developing our Procedural Justice training program in coordination with community members of diverse backgrounds
- Developed Diversity Statement by citywide Inclusion Committee to accompany all recruitments and be shared on the city website

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

- Provide transparent, easily understood communications about the City's financial situation through the City Manager's Budget Message, Budget in Brief, strategic presentations, columns, videos, public engagement efforts, and graphic design visuals.
- Work with organizations that promote public engagement in the budget process to bring best practices to Roseville.

Goal: Support community engagement and advocacy

Strategy: Increase communications regarding legislative advocacy efforts and the impacts of unfunded mandates on City services

- Conduct customer outreach explaining the rationale for utility rate increases, highlighting how unfunded mandates increase costs.
- Focus on legislative platform to ensure residents and customers' interests are protected and promoted in legislative advocacy efforts.
- Provide updates to Law and Regulation Committee and regional Chamber government relations meetings on City's focus on cost avoidance and containment in advocacy efforts with state and federal legislative and regulatory bodies.

Strategy: Increase communications and education about City finances

- Develop and lead education strategy regarding hotel tax.
- Produce Budget in Brief brochure to provide high-level overview and education of city budget, for use at community meetings, including Council Coffees.
- Provide in-depth presentations about City budget and finances at Council meetings and with community groups, including Chamber, RCONA, and Rotary.

Strategy: Focus on increased outreach to and engagement with younger populations

- Actively post, monitor, and engage in social media channels to disseminate accurate information.
- Operate City of Roseville-TV broadcasts to provide transparency in public policy discussions.
- Conduct FlashVote polls with the community to gauge priorities, concerns, and vision.

Department Operating Budgets

- Participate in an advisory and consulting role with the Roseville Coalition of Neighborhood Associations.
- Work with councilmembers on Community Coffees and other outreach needs to ensure accurate, timely information.
- Respond to requests, complaints, and comments from the public.

Goal: Maintain a safe and healthy community

Strategy: Address homelessness through stronger regional partnerships with defined expectations and outcomes (note: affordable housing accomplishments listed with corresponding strategy below)

- Participate in Regional Homelessness Task Force with Placer County, cities, and nonprofit agencies to develop and coordinate regional opportunities to address and prevent homelessness.

Strategy: Strengthen inclusiveness, equality, and justice efforts for all in partnership with the community

- Work with various communities to ensure access to city services such as transportation, housing and the Police Department's Social Services Unit.
- Ensure diversity in experiences and perspectives among participants in interview panels for key city staff leadership roles.
- Support Conversations on Racial Healing in the community and among staff.
- Highlight federal observance months and support efforts to promote awareness.

Goal: Enhance economic vitality

- Develop marketing materials for prospective businesses and to raise awareness among business community about opportunities the City offers.
- Provide transparent, easily understood communications and data about the City's economic development activities through regular business newsletters, strategic presentations, columns, videos, public engagement efforts, and graphic design visuals.
- Support annual economic outreach events including State of the City, Chamber events, industry conferences.

Goal: Deliver exceptional city services

- Lead OC&L initiative for the City to improve its culture, attraction, and retention of its workforce and create optimal work environment and interaction.
- Conduct employee surveys to identify concerns and enhance the work environment.
- Revamp the REACH program and bring the Inclusion Committee and Employee Recognition Committee with the OC&L Committee to integrate all citywide committees, so efforts are stronger, complementary, and leverage the strength of each other.
- Provide transparent, easily understood communications about the City's policy and operational objectives to staff.
- Develop communication opportunities, including citywide staff meetings, all-manager meetings, and written and video presentations to staff on behalf of the City Manager.

Department Operating Budgets

Budget Highlights

The PA&C Department's FY2022-23 budget totals approximately \$1.1 million and provides funding to support seven position allocations. Funding for every-other-year National Community Survey, as well as educational materials related to possible ballot items are included in the FY2022-23 budget, along with a limited-term position to assist with outreach for capital projects.

City Attorney's Office

Overview of Services

The City Attorney's Office (CAO) provides comprehensive in-house legal services for the City. The City Attorney's mission is to contribute to the City's success by delivering high quality legal counsel, representation and effective solutions with professionalism and integrity. Primary services consist chiefly of staffing the meetings of the City Council and various City boards, commissions, and committees; preparation and review of ordinances, resolutions, contracts, and other legal documents; advice and strategic assistance to City departments; civil litigation management/representation; self-handling of various legal proceedings; supporting claims review; tracking legislation; providing trainings; collections; code enforcement; and criminal prosecution of the municipal code.

Council Strategic Plan

The CAO will support the City Council, executive management and City departments with key City projects in furtherance of the City's overarching goals and key strategies.

Goal: Remain fiscally responsible in a changing world

The CAO will assist with the placement of a Transient Occupancy Tax measure on the November 2022 ballot and proper educational outreach efforts.

The CAO will assist with the creation of a commercial linkage fee and implementing the ordinance.

The CAO will maintain effective strategies to support and defend existing fees and revenue sources.

Goal: Maintain a safe and healthy community

The CAO will continue to participate in regional efforts to identify strategies for addressing homelessness in Placer County.

Goal: Enhance economic vitality

The CAO will assist with various surplus land disposition and development projects (e.g., old fire station, old courthouse, and old Post Office sites).

Goal: Deliver exceptional City services

The CAO will participate in efforts to modernize and streamline the City's Public Records Act processes.

The CAO will place a greater emphasis on training staff and public officials on various laws and legal responsibilities.

Goal: Invest in well-planned infrastructure and growth

The CAO will assist staff with municipal code and program changes needed in order to come into compliance with SB 1383, California's new organics waste law.

The CAO will assist staff with needed property acquisitions for the Roseville Parkway extension.

Department Operating Budgets

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Requests for legal service (“Greenies”) completed	954	850	1,000	1,000
Legal Opinions	19,351	18,000	19,000	21,000
Citations	187	350	266	300
Public Meetings	165	180	182	180
Trainings	N/A	N/A	N/A	30

Accomplishments

- Resolved 20,481 legal services requests
- Negotiated and drafted subleases and ground leases for the placement of two digital billboards on I-80 and Hwy 65. Based on the minimum annual guarantee, signing bonus and lease costs, approval of the ground leases and subleases would guarantee a minimum \$14.4 million in General Fund revenue over the 20-year term
- Obtained a “Hotel Operator’s Agreement” with several nuisance hotels to contractually obligate them to a list of conditions. Since entering into the agreements, calls for service at these locations have plummeted
- Provided effective pandemic response including advising on policies and practices in response to numerous new labor and employment laws; tracking state and federal legislation and rulemaking; drafting three new Executive Orders; overhauling the City’s contracting processes and documents; and interpreting and advising on State orders and public health guidance
- Guided the first ever Roseville Independent Redistricting Commission through extensive public outreach and adoption of a new City Council electoral district map
- In partnership with the California Department of Water Resources, assisted Roseville Electric in placing two temporary emergency generators at the Roseville Energy Park, bringing in close to \$9 million to the City
- Assisted the Police Department with the deployment of body-worn cameras by negotiating an agreement with the vendor using a procurement method that will save the City tens of thousands of dollars over the life of the agreement. Assisted with the preparation of the Police Department’s body-worn camera policy and retention procedures
- Supported the City Manager’s Office and Human Resources Department with negotiating successor labor agreements. Acted as lead negotiator for the Local 39 labor agreement, bringing that agreement in on time, first and within staff’s authority
- Closed escrow on both the Junction Crossing project, an 80-unit affordable housing project located in Historic Old Town, and the Tower Theater. The Junction Crossing project will provide needed affordable housing units towards the City’s Regional Housing Needs Allocation. The Tower Theater’s transfer to a college will reduce the City’s maintenance costs associated with the facility as well as help with the revitalization goals outlined in the Downtown Specific Plan

Department Operating Budgets

Budget Highlights

The City Attorney's FY2022-23 budget totals approximately \$2.3 million and provides funding to support 10 position allocations. The City Attorney's budget increased by approximately 4 percent over the prior fiscal year, from \$2.24 million to \$2.32 million. This change is primarily due to an addition of a new Deputy City Attorney I/II position. This will be the first new attorney position added to the office since 2007. The duties of the position include performing a wide range of professional legal services related to municipal government operations in a variety of civil and criminal matters; conducting legal research and preparing legal opinions, memoranda, contracts, ordinances, and other legal documents; advising City departments, boards and commissions; and representing the City in a variety of litigation matters. In addition to the normal duties associated with this position, and assuming the workload permits it, this new position could also potentially place a greater focus on nuisance abatement issues, collection matters, and prosecuting violations of the Roseville Municipal Code in criminal court. In addition, internal citywide cost plan reimbursement increased by approximately 16 percent.

Department Operating Budgets

Finance Department

Overview of Services

The Finance Department provides services in budgeting, investing and cash management, issuance and management of debt, accounting, accounts payable, payroll, ERP system support, special district administration, purchasing, and central stores.

Budget Division

The Budget Division is responsible for the preparation, development, and publication of the Annual Adopted Budget as well as Quarterly Financial Reports. This division also assists with budget amendments, including the carry-forward of approved budgets for unspent encumbrances. The budget team works with all City departments to ensure that actual spending does not exceed City Council-approved budget appropriations.

Accounting Division

The Accounting Division is responsible for developing, implementing, and maintaining effective financial accounting systems and internal controls. The division provides management control over the City's financial activity by ensuring the ability to present a fairly stated financial position of the City on a timely basis. The division is responsible for managing the revenue operations of the City and monitoring the City's debt and investment portfolio. It is also responsible for the City's billed receivables, including the collection of citywide delinquent accounts. This division is also responsible for grants, special assessments, capital assets, and financial reporting.

Enterprise Resource Planning (ERP) Support Division

The ERP Support Division is responsible for managing the teams of staff performing maintenance and optimization of the City's ERP system, as well as managing or coordinating with other projects that integrate with the ERP system.

Disbursements Division

The Disbursements Division is responsible for the timely calculation and payment of payroll, payments to vendors, CalPERS administration and reporting, and retiree health administration and payment. The division is also responsible for all federal and state payroll and accounts payable reporting requirements.

Purchasing and Central Stores Division

The Purchasing and Central Stores Division is responsible for procurement and acquisition services, central warehousing, mail handling, and courier services.

Accomplishments

- Recognized by the Government Finance Officers Association (GFOA) with the Certificate for Excellence in Financial Reporting for the FY2019-20 Annual Comprehensive Financial Report
- Recognized by the GFOA and the CSMFO with Distinguished Budget Presentation Awards for the FY2021-22 Approved Budget
- Updated the City Council-adopted financial policies to include a new Federal Stimulus Reserve Fund Policy, as well as a new Internal Service Funds - Operating and Replacement Reserves Policy to formalize existing operating reserve practices and document long-term replacement reserve funding processes
- Assisted Local Sales Tax Citizens' Oversight Committee in developing initial draft scorecard of expenditures of half-cent sales tax

Department Operating Budgets

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Strategy: Ensure financial policies provide ongoing stability

The Finance Department continues to focus on developing new financial policies to determine appropriate and responsible financial guidelines for staff to follow when developing the budget, making recommendations, and fulfilling their role as fiscal stewards of public funds. Consistently following adopted policies will assist the City in achieving its current and future goals in a fiscally responsible and sustainable manner. Each year the policies are reviewed by staff, updated where recommended, and submitted to Council in a comprehensive document for approval during budget development.

Strategy: Align service levels and the size of the organization with Council and community priorities

The Finance Department facilitates the citywide budget process for the development, implementation, and evaluation of a plan to deliver services and capital assets. Staff design the budget process to help decision-makers make informed choices about the delivery of services and capital assets and to promote stakeholder participation in the process. Finance incorporates a long-term perspective into the budget process and establishes linkages to the City Council goals.

Number of purchase requisitions processed	2,620	2,800	3,235	3,300

Budget Highlights

The Finance Department's FY2022-23 budget totals approximately \$4.1 million and provides funding to support 45.23 position allocations. The Department budget increased by approximately 12 percent over the prior fiscal year, from \$3.7 million to \$4.1 million. This change is primarily due to increased labor costs. The Finance Department's budget includes the following highlights:

Accountant

The Finance Department is converting a limited-term Accountant to a full-time position allocation to maintain the level of staffing needed to provide accurate financial information to management and timely financial reporting required by the City Charter and state and federal law.

Purchasing

The Finance Department is converting a limited-term Buyer to a full-time position allocation to address increased workload related to purchasing regulatory and policy requirements.

Department Operating Budgets

Human Resources Department

Overview of Services

The Human Resources Department provides services to assist City departments and the community with employment and volunteer opportunities. The Department's focus is on recruiting, developing, engaging, and retaining a diverse, well-qualified, and professional workforce of approximately 1,270 regular employees and 400 temporary/seasonal employees to deliver high-quality services to the City.

Employment Services and Benefits

Employment Services is responsible for planning, developing, conducting, and overseeing the City's classification and compensation plans, recruitment, examination, selection, pre-employment, and onboarding processes for regular and temporary employees. This team also coordinates the intern and volunteer program. Additionally, the team administers the employee insurance and benefits programs, including the CalPERS retirement and supplemental retirement plans, medical, dental, vision, life and long-term disability insurance plans, flexible spending accounts, and the employee assistance program. This team manages the Human Resources Information System (HRIS), including the processing and approval of employee salary and benefits information and conducting retirement consultations.

Labor Relations/Performance Management/Employee Development

This team promotes organizational advancement through effective employee/labor relations activities pertaining to five recognized employee bargaining units and two unrepresented employee groups, employee performance evaluations; coordinates, develops, and conducts employee training; administers and tracks online instruction; processes tuition reimbursement and coordinates the annual giving campaign.

Risk Management

Risk Management is responsible for creating a safe work environment for employees and a safe city for its residents. Risk Management accomplishes this by administering safety training, Cal-OSHA mandated programs, assuring safe and healthy work environments, administering liability and workers' compensation programs, Americans with Disability Act interactive process and reasonable accommodations, managing leaves of absence, and responding to both resident and employee safety concerns.

Management and Administrative Support Services

Management and Administrative Support Services oversees the department operations, organizational development and engagement, including succession planning, policy development, champions the Inclusion Committee and the Employee Recognition Committee and oversees the department budget.

Accomplishments

- Implemented an Exposure Control Plan, safety protocols, and numerous COVID-19 related programs, policies, FAQs and employee communications
- Completed 281 recruitments
- Processed 10,974 employment applications
- Implemented classification study recommendations for 24 classifications involving 68 employees
- Supported succession planning by processing 144 promotions
- Effectively implemented a new Open Enrollment benefit election process and updated Flex Credit benefit to recognize the unexpected increasing CalPERS health benefits premiums

Department Operating Budgets

Strategic Plan

Goal: Deliver Exceptional City Services

Strategy: Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, new labor agreements, and a strong culture

The Human Resources Department focuses on streamlining the hiring process to attract top talent in a tight labor market. Staff integrated the City's core competencies into performance evaluations, recruitment, and training programs for supervisors and new employees to orient them to the City's high-performing work culture. The Human Resources team has incorporated additional outreach strategies to ensure that the City has the most diverse and highly qualified candidate pool available.

Key Performance Measures

Recruitments

Goal	Deliver exceptional city services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Total number of General/ Management Recruitments	184	230	220	220
Number of Employees Onboarded (Regular)	128	190	175	160
Number of Employees Onboarded (Temporary)	286	340	190	325
Purpose	To efficiently deliver a more diverse and highly skilled candidate pool to produce a dedicated workforce to deliver City services to the community.			
Status	Human Resources enhanced recruitment efforts through social media tools to promote opportunities with the City. Executive recruiter outreach and continuous filings of openings have reduced the number of repeat recruitments and resulted in the successful filling of hard to fill positions.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Total filled regular positions	1,148	1,175	1,151	1,175
Number of Workers' Compensation Lost Time Claims	81	50	120	75
Total Liability Claims Cost	\$549,000	\$1,000,000	\$700,000	\$1,000,000

Department Operating Budgets

Budget Highlights

The Human Resources FY2022-23 budget totals approximately \$13.7 million and provides funding to support 18 position allocations. The Human Resources budget increased by approximately 18 percent over the prior fiscal year, from \$11.6 million to \$13.7 million. This change is primarily due to increased workers compensation and general liability premium and claim costs. The budget includes the following highlights:

Recruitment Branding

The budget includes funding to hire a consulting firm to create an effective recruitment brand to establish the City as an Employer of Choice. This will help attract top talent as a premiere equal employment opportunity employer in the region. The funds will also be used to establish a stronger presence on LinkedIn and Glassdoor for broader outreach to more diverse candidates.

NEOGOV Applicant Tracking System

Human Resources will be working in partnership with the Information Technology Department to implement a new applicant tracking system called NEOGOV to create efficiencies for Human Resources staff and department staff in the recruitment process and gain more robust reporting for managing the recruitment workload.

Roseville 100 Series Training Program

Funding in the amount of \$40,000 is included in the budget to provide the Roseville 100 Series Training program for City staff. This program is coordinated by Human Resources and will provide foundational training classes to develop the following skills: Customer Service, Effective Communications, Business Writing, and Emotional Intelligence.

Supervisory Training

The Human Resources budget includes \$79,000 for the Human Resources Department to offer a learning management library for 400 supervisors and managers to complete trainings that will help develop the skills they need to meet the challenges of leading and supervising employees. The City has had a significant number of employees promote who are new to supervisory and management roles for which these trainings will be beneficial. The variety of trainings offered will provide tools for effective performance management, personal accountability, responding to conflict, ensuring efficient and effective customer service, and much more.

Recognition Program

Additional funding is recommended to provide for a Pride of Roseville breakfast or luncheon to honor the recipients at the ceremony and a general recognition event to recognize all City staff for their contributions to the City and build engagement and camaraderie amongst the team. Funding was also included to purchase recognition kits for City departments/programs to promote on-the-spot recognition of great work to further build a culture of appreciation that ultimately will result in better service to the community.

Automated External Defibrillators (AEDs)

Funding in the amount of \$35,000 was included to purchase 25 of these life saving devices to be placed in various City owned buildings.

Department Operating Budgets

Information Technology Department

Overview of Services

The Information Technology (IT) Department aims to provide exceptional services through the use of smart technology to serve both internal departments and the community. The Department is responsible for administering and sustaining vital City services through innovative technology, business solutions, and cybersecurity. The Department's vision is focused on leadership, innovation, partnership, and performance. This vision is delivered through the following service areas:

Planning & Administration

The primary role of the IT Planning & Administration Division is to define the Department's goals and vision, provide leadership, and take a forward-thinking strategic approach to help guide technology and business decisions for the future. The division focuses on several areas: budget, strategic planning, eGovernment, technology governance, conferencing/collaboration tools, and administrative tasks.

Client & Innovation Services

The IT Customer Service team is comprised of three divisions: Client Services, Business Solutions, and Utility Solutions. They are dedicated to providing superior customer service to the City, incident management, asset management, business and public safety applications support, technology solutions implementation, report development, and business solutions analysis.

Infrastructure Team

The IT Infrastructure team consists of three divisions: Data Intelligence, Network Infrastructure, and IT Security. The IT Security Division reports directly to the Chief Information Officer but is part of this team. They are dedicated to the quality and stability of the City's network, security (both cyber and physical), radio and telephone, data center maintenance, database administration, server administration, infrastructure and development, and responsible for the maintenance and administration of all citywide geographic information systems.

Accomplishments

The Department was the national winner of the 2021 Digital Cities Survey award recognition from the Center for Digital Government (CDG) for utilizing technology to tackle social challenges, enhance services, and strengthen cybersecurity. Additionally, the Department received the 2021 Municipal Information Systems Association of California (MISAC) Excellence in IT practices award recognition and was awarded the Smart Cities North America Awards (SCNAA) in the Data-Driven Policing category.

- Enhanced citywide cybersecurity awareness through citywide training and education. Successfully blocked 6 million spam emails and avoided 144,000 threats due to these efforts
- As part of AB953, the IT Department partnered with the Police Department to lead the Racial & Identity Profiling Act (RIPA) to improve diversity/racial and identity sensitivity in law enforcement
- Revitalized the City's Open Data portal with updated datasets, data automation, and new storytelling narrative pages to increase accountability and transparency to citizens
- Upgraded GIS platform to enhance citizen's access to community data, crime and fire analysis and response, routing, field data collection, data for emergency operations and flood, and multiple applications
- Upgraded the City's electronic content management system with Hyland OnBase providing a central location for storing files for citywide use including structured data searching

Department Operating Budgets

- Partnered with the Police Department on the Body-Worn Camera (BWC) implementation project to increase accountability and transparency to the community, enhance officer safety, and improve evidence collection and documentation

Strategic Plan

Goal: Remain fiscally responsible in a changing world

Strategy: Identify operational efficiencies

Funded through an Internal Service Fund (ISF), the IT Department continues to work diligently to streamline its budget processes to provide cost optimization opportunities and make incremental enhancements to the ISF model to build trust and collaboration with internal customers.

Goal: Support community engagement and advocacy

Strategy: Explore best practices for city engagement in social media

The IT Department will continue to enhance the City's open data platforms and digital transparency by updating current data in the existing open data portal and expand the data to include Council Goals tracking. The City's financial data will be available for the community to easily consume and understand. The IT Department will continue to provide digital transparency through Geographical Information System (GIS) data in an online easy to use platform.

Goal: Deliver exceptional city services

Strategy: Implement customer service software to improve customer experience

As the City grows, so does the need for community engagement and internal efficiencies. The IT Department has taken on this project with a collaborative approach to research, design, and implement a new Customer Relationship Management (CRM) system. This system will enhance productivity by improving process and workflow efficiencies, collect data to make data-driven decisions, and provide consistency for tracking customer requests.

Strategy: Optimize the use of technology and data to improve operations

The IT Department prides itself on being innovative, expanding knowledge, and implementing tools in the areas of business intelligence (BI) and artificial intelligence (AI). These technologies will continue to be a focus for the Department and will enhance the City's ability to improve day-to-day operations while improving internal efficiencies.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in aging infrastructure

The IT Department is committed and focused on investing in existing aging infrastructure to continue supporting communication with customers, to provide operational efficiencies, and provide a secure infrastructure to protect the City's data. The Department will continue to focus heavily on cybersecurity awareness through education and regular cybersecurity training.

Department Operating Budgets

Key Performance Measures

Response Times

Goal	Deliver exceptional City services			
Strategy	Optimize the use of technology and data to improve operations			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percent of service requests fulfilled or incidents resolved within established Service Level Agreements (SLAs) (quarterly)	95%	91%	85%	90%
Percentage of application uptime during business hours (annual)	99%	99%	99%	99%
Percentage of overall customer satisfaction (annual)	95%	97%	97%	97%
Purpose	Achieve results by meeting business needs through flexible and agile services. Develop a trusted, cooperative, collaborative work environment.			
Status	The year-over-year percentage of incidents solved is within the targeted response time and has remained relatively consistent, near 90 percent. The goal remains at 95 percent, and the Department will continue to strive to meet that goal.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Number of technology incidents resolved (annual)	3,000	4,368	1,759	2,344
Number of service requests resolved (annual)	4,000	4,765	4,544	5,500
Number of general government business systems and solutions supported (annual)	60	60	60	60
Number of visits to City website (quarterly)	1.5 million	1.7 million	1.3 million	1.4 million
Number of innovative projects submitted (annual)	25	27	23	25

Department Operating Budgets

Budget Highlights

The IT Department's FY2022-23 budget totals \$13 million and provides funding to support 58 position allocations. The IT budget increased by approximately 4 percent over the prior fiscal year, from \$12.5 million to \$13 million. This increase is due to increased labor costs associated with four new positions. The budget includes the following highlights:

Operational Efficiencies

The past year, COVID-19 accelerated the adoption of digital technologies to keep services up and running while also introducing a new way of working. The IT Department implemented the COVID-19 Screening application to document temperatures and symptoms for each employee working onsite and ensure employees' safety. The IT Department anticipates the COVID-19 screening application will continue to be used in FY2022-23 and is committed to evolving the application to provide more automation to enhance operational efficiencies.

Cyber Security Maturity

Cybersecurity attacks and outages increased during the pandemic across the country. Going into FY2022-23, the IT Department will continue to take a proactive approach to reduce cybersecurity risks for the City of Roseville. For the past several years, the IT Department has invested in cybersecurity training and budgeted for this training in FY2022-23 as a continued effort to increase cybersecurity awareness. This training has proven to be highly effective in making the organization more secure from data breaches and ransomware attacks. Additionally, the IT Department is investing in security enhancements to systems and applications to provide more robust tools for defending the City against cyberattacks and threats.

Projects and Maintenance

Maintenance costs continue to fluctuate due to technology enhancements, supply chain issues, regulatory compliance, economic changes, and the increased need for risk mitigations against evolving threats. Much of the City's technology resides on aging infrastructure and equipment, resulting in increased maintenance and support costs. In response, the IT Department's budget includes the resources necessary to lead several system update and replacement projects to meet the new or changed compliance requirements and mitigate threats in the ever-changing cyber threat landscape. IT continues to focus on tracking and replacing aging technology equipment that is nearing or past its useful life. The value of investing the time and resources necessary to oversee these projects ensures that employees, residents, and visitors can access the services needed to perform their daily business needs.

Improve Services through Data Analytics

The IT Department is heavily focused on opportunities for enhancement through data analytics. The IT Department budget includes the resources necessary to utilize a data warehousing and integration framework to support citywide infrastructure. This data is used citywide and through Open Data to help build upon transparency and update outdated information. Continual advancements to Open Data will improve internal efficiencies, provide better data for community members, and address the need for more self-service and automation.

Department Operating Budgets

City Clerk Department

Overview of Services

The City Clerk Department provides services in elections, legislative support, records management, and passport application processing.

Elections

The Elections Division conducts regular and special municipal elections in consolidation with the Placer County Elections Office for election of City Councilmembers, local initiatives, referendums, and recalls, under the governance of the California Elections Code. This division also administers Political Reform Act requirements related to campaign disclosure statements and Conflict of Interest filings.

Legislative Support

The Legislative Division is responsible for supporting the City Council, City Council Law and Regulation Committee, Housing Authority, and Roseville Natural Gas Financing Authority in the preparation, posting, and publication of agendas, minutes, resolutions, ordinances, and contracts, pursuant to law, and providing staff support at their meetings. The Division is responsible for the bid opening process, and the safekeeping of bonds and securities. The Division oversees board, commission, and committee member recruitment, orientation, and training. The Division ensures the compliance of AB1234 Ethics Training for Local Officials, Sexual Harassment Prevention Training, and Fair Political Practices Commission requirements of designated employees, and board, commission, and committee members.

Records Management

The Records Management Division provides records management oversight to ensure city actions are accurately archived and retrievable. Provides open and transparent access to city records in compliance with the California Public Records Act.

Passport Facility

The Passport Division provides passport application processing, live scan fingerprinting, and notary services to the public, which contributes revenue to the City's General Fund.

Accomplishments

- In conjunction with the City Attorney's Office, facilitated and supported the Independent Redistricting Commission in their objective to adopt a new district map
- Partnered with the Information Technology Department to implement a new citywide records management system
- Processed over 800 Public Records Requests in FY2021-22
- Transitioned to virtual services and telecommuting to continue uninterrupted service delivery in the areas of bid processing, contract execution, municipal code codification, council meeting support, and board/commission/committee recruitment
- In partnership with the Placer County Clerk-Recorder-Registrar of Voters, coordinated district map implementation in preparation for the 2022 City Municipal election

Council Strategic Plan

Goal: Deliver exceptional city services

The City Clerk Department is committed to working on strategies that foster community engagement. Implementation of the new records management system provides a self-service portal, giving City's customers the ability to search for city records, fostering community engagement and transparency.

Department Operating Budgets

Goal: Support community engagement and advocacy

Adoption of a district map by an independent redistricting commission comprised of Roseville residents ensures the public's interests are heard and protected.

Key Performance Measures

Public Records Act

Goal	Deliver exceptional City services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percent of records requests completed within 10 days	88%	90%	91%	93%
Percent of records requests completed within 14 additional days	94%	90%	90%	90%
Purpose	Public Records request law dictates strict timelines to fill requests. The City Clerk Department responded to over 800 Public Records requests in FY2021/22.			
Status	The yearly percentage of response to records requests remains consistent within the ten-day response mandate. The City Clerk Department will partner with the Police Department and the City Attorney's Office to implement software that will improve response times.			

Meeting Agendas

Goal	Support community engagement and advocacy			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Number of agendas posted 72 hours prior to City Council, and Law & Regulation Committee	42	45	36	45
Number of special meeting agendas posted 24 hours prior to City Council, Law & Regulation and Charter Review Commission meetings	9	8	9	8
Purpose	Brown Act law mandates agendas be posted 72 hours prior to a meeting of the governing body including Council appointed boards, commissions, and committees.			
Status	All City Council, boards, commissions, and committee agendas are meeting mandated posting deadlines.			

Department Operating Budgets

Passport Center

Goal	Deliver Exceptional City Services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Number of passport applications processed	6,063	6,000	9,000	9,000
Number of passport photos processed	4,621	2,050	7,000	2,050
Purpose	Generate revenue and introduce applicants to the amenities of Downtown Roseville.			
Status	Department anticipates applicant and photo number increases in FY2022-23 due to COVID-19 closures being lifted.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Number of city calls for service and information	11,983	20,000	15,000	15,000

Budget Highlights

The City Clerk Department's FY2022-23 budget totals \$1.5 million and provides funding to support 12 allocated positions. The City Clerk's budget increased by approximately 5 percent over the prior fiscal year, from \$1.45 million to \$1.53 million, primarily due to increased labor and materials, supplies and services costs offset by an increase in internal citywide cost allocation plan reimbursements. The budget includes the following highlights:

Municipal Election 2022

Redistricting has concluded and the City of Roseville will have its first election for District 2 and 4 in FY2022-23. The City Clerk's budget includes an additional \$175,000 in material, service, and supply funding to complete the election process.

Police Department

Department Operating Budgets

Police Department

Overview of Services

The Roseville Police Department provides all law enforcement services within the City. The Department's primary mission is the safety of the public and the protection of their property. The Department delivers the following services to achieve this mission:

Administration

Police Administration sets goals and provides leadership to the Department. Police Administration includes the Professional Standards Unit, training and personnel, payroll, budget/finance, and the Public Affairs Team.

Property, Records and Crime Scene Investigation Unit

This unit processes thousands of police reports, citations, and other documents annually, and provides for the security and legal release of evidence, property, and police record information. This unit also ensures mandated reporting compliance and manages the Crime Scene Investigations (CSI) team and the department's false alarm reduction program (FARP).

Communications Unit

The Communications unit answers 911 and routine calls for police, fire, and advanced emergency medical dispatch, and dispatches the appropriate assistance. Emergency Medical Dispatchers are trained continuously to provide definitive pre-hospital emergency medical care, are certified biennially and are subjected to continuous quality improvement standards.

Social Services

This unit provides a comprehensive Social Service model to reduce recidivism and maintain a collaborative multidisciplinary team with City departments, state, county, and local agencies. Social Services officers address mental health, substance abuse, and homelessness. School Resource Officers (SRO) are assigned to all high schools through a partnership with the Roseville Joint Union High School District. In addition, the Department's Threat Assessment Officer, who observes and identifies potential, immediate, or imminent threats (e.g., active shooter), is also part of this unit.

Patrol

Patrol provides uniformed police officers and other staff who respond to emergencies and routine calls for service. Patrol also includes an Unmanned Aircraft Systems (UAS) team, K-9 Officers, and Regional Special Operations Units, which contain SWAT (special weapons and tactics), CINT (critical incident negotiations team), and EOD (explosive ordinance disposal) teams.

Investigation

This unit investigates major crimes in an effort to identify and arrest the perpetrators. The Investigation unit includes investigators assigned to the Placer County Special Investigations Unit (SIU) and the Placer County Regional Auto Theft Task Force (RATTF). This division also consists of the Crime Suppression Unit (CSU), which targets gangs, known offenders, and emerging crime problems.

Traffic

The traffic unit enforces traffic and driving under the influence (DUI) laws and investigates traffic collisions. This unit is also responsible for investigating major accidents by the Major Accident Investigations Team (MAIT).

Department Operating Budgets

Animal Control

Animal Control enforces animal control laws, responds to animal-related emergency and routine calls, and transports dead, stray, and abandoned animals to the Society for the Prevention of Cruelty to Animals (SPCA). The City's contract with the Placer County SPCA for shelter and animal care service is included in the Animal Control budget.

Accomplishments

The Police Department completed a strategic planning process to guide the Police Department going forward through 2025. The process included developing a new mission statement and new leadership values. The plan identified five foundations on which to build the Police Department going into the future. These foundations were then used to identify nearly 50 different projects areas across the Police Department as our future plans. The plan is being used to determine Division and Unit goals, as the basis for budget planning, and to measure success. It also includes a staffing plan for growth of the Police Department over the next five years. The plan was developed entirely in-house by Department staff through the first half of 2021 and was rolled out in August of 2021.

The Roseville Police Department has realized enormous success from the initial deployment of 10 Flock cameras. Due to this success, the Department expanded the Flock License Plate Reading (LPR) program through the purchase of an additional 10 new Flock LPR cameras. This purchase will bring the total LPR camera count to 20. The increase in cameras will afford the Police Department the ability to increase our pro-active enforcement to prevent crime, investigate criminal acts within the city, and expand the real-time crime center, which assists with identification and prevention of crime. The new cameras will be installed over the next few months at various intersections throughout the city by the City of Roseville's Traffic Engineering team. In addition to the 20 Police Department cameras, the Roseville Galleria has provided funding for two additional Flock license plate reader cameras. The funding will be utilized to deploy the new cameras at entrances to the Galleria Mall. This collaborative partnership will assist the Police Department with responding to stolen and felony vehicles in real-time and investigating cases that occur on their property.

The Police Department's primary function is to respond to calls for service and conduct proactive enforcement to keep the community safe. During 2021, the Police Department received 167,745 calls from the public including 69,560 911 emergency calls. Through the course of the year, the Police Department responded to a total of 71,524 incidents which includes 24,634 officer-initiated enforcement actions. The efforts of the Police Department led to a 1 percent drop in total reported Part 1 Crimes versus 2020 and an 11 percent drop when compared against the ten year average of Part 1 Crimes.

Council Strategic Plan

Goal: Maintain a safe and healthy community

Strategy: Ensure public safety service levels are maintained with real-time crime monitoring and staffing as the City grows

Service Levels:

The Police Department is one of the "front lines" in keeping the Roseville community safe. Staffing levels continue to be a challenge, both overall staffing and available staffing. The past few years have made recruiting for police officer positions difficult. While the Department is not seeing the recruiting issues of many agencies, predominantly because of the high level of community support, the Department still struggles with a small applicant pool. At the same time, injuries to current staff and the continued effects of the COVID-19 pandemic have led to the prioritization of Patrol staffing over other units. This has resulted in reduced staffing in special assignment units such as Investigations, Traffic, and Crime Suppression. The Police Department has seen success in filling nearly every position across the professional staff teams such as Dispatch, Property, and Records.

Department Operating Budgets

As the Department heads into 2022, recruitment efforts to remedy these gaps in staffing are full steam ahead. The Department has accelerated the lateral hiring process and plans to increase academy attendance from two recruit classes per year to five using two different academies. The Police Department developed specific recruiting videos and materials aimed at lateral officers and used a targeted social media campaign to recruit for officers in regions across the state. The Department added ten new members to the Recruiting Team. It is a Department-wide effort to hire future staff.

Plans for FY2022-23 include adding Patrol Officer positions to help with injury issues, adding Patrol Sergeants where staffing has not been added in over 15 years, and increasing the number of Dispatch supervisor positions from three to four.

Real Time Crime Center (RTCC):

The RTCC is a system designed to leverage all of the available camera resources across the city in response to active incidents as well as investigative follow-up. The RTCC will monitor video activity, including city traffic cameras, the Police Department license plate reading system and videos posted on social media, and assist with investigations. Through 2021, the fledgling RTCC was using basic computer systems in their work, but the system isn't efficient. With additional funding in 2022, the RTCC will move into the future with updated technology resources and a framework for adding additional RTCC staff to expand hours of coverage.

Strategy: Address homelessness through stronger regional partnerships with desired expectations and outcomes

The Police Department has been at the forefront of city response to homelessness for many years through the Social Services Unit (SSU) and Patrol teams. Through these services, strong relationships have been built with service providers and Placer County Health and Human Services. The Police Department is involved in city level planning for future homeless strategies and the county sponsored strategic planning process.

To address homeless issues, mental health crisis response, and strengthen outside partnerships, the Police Department will create a new "Community Services Division" headed by a Captain. This new division will work with the SSU team including the Social Services Practitioner to develop a strategic plan for the social service model moving forward.

Strategy: Strengthen inclusiveness, equality, and justice efforts for all in partnership with the community

The Police Department is in the process of expanding its current Procedural Justice training program, which was implemented several years ago. This program includes input and assistance from several community groups in developing the best training for the Department.

Strengthening inclusiveness is all about relationship building. Community policing has long been a foundation of how the Department helps work with the community to keep it safe. The COVID-19 pandemic made it difficult to foster community relations. With the lifting of COVID-19 restrictions, the Department has placed a renewed effort to build community connection at the officer level at every opportunity.

Department Operating Budgets

Key Performance Measures

Traffic Enforcement

Goal	Maintain a safe and healthy community			
Strategy	Optimize police levels of service			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Quantitative amount of DUI-related collisions, based on a target of ≤100 annually	101	105	96	104
Quantitative amount of injury and fatal traffic collisions, based on a target of ≤500 annually	450	553	496	551
Purpose	To increase public safety on City roadways and streets through traffic law education, enforcement, and checkpoints.			
Status	The number of DUI-related collisions has been on a slow increase over the last couple of years, while injury/fatal traffic accidents have remained relatively consistent. The Department will continue to study traffic mitigation and identify what changes are needed to reach these goals, including such elements as traffic congestion.			

Uniform Crime Reporting

Goal	Maintain a safe and healthy community			
Strategy	Optimize Police levels of service			
	CY2020 Actuals	CY2021 Initial Estimate	CY2021 Revised Estimate	CY2022 Estimate
Part 1 violent crimes reported (by calendar year)	277	255	255	251
Part 1 property crimes reported (by calendar year)	2,877	2,870	2,870	3,185
Purpose	To increase safety and protection through criminal law enforcement, outreach and prevention, and effective follow-up and investigations.			
Status	Efficiency and effectiveness are determined by Part 1 Crimes per 100,000 population (crime rate). The Department constantly analyzes this performance measure to target specific areas of need.			

Department Operating Budgets

Maintain Community Outreach

Goal	Maintain a safe and healthy community			
Strategy	Maintain community policing			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percentage of in-person community outreach events Department went to or participated in compared to requests	97%	90%	95%	95%
Purpose	To strengthen our police-community partnerships through outreach and engagement, and manage unsheltered strategies and priorities through social services.			
Status	The Police Department connects with the residents of Roseville through a comprehensive approach of communications and community engagement. The Department hosts community programs, attends neighborhood meetings, and communicates through print and digital channels to inform and educate. Through these efforts, the department strives to reduce crime, improve connections and align services for the homeless, and advocate for increased mental health services, substance abuse assistance, and suicide prevention resources.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Number of police calls for service where personnel responded	71,563	79,390	69,377	77,707
Number of arrests (including citations issued)	4,280	4,178	3,056	3,912
Percentage of calls that are 911 related (Police)	18%	15%	19%	16%

Budget Highlights

The Police Department's FY2022-23 budget totals \$54.8 million and provides funding to support 224 position allocations, including 12 new positions. The Department budget increased by approximately 10 percent over the prior fiscal year, from \$49.7 million to \$54.8 million. This increase is primarily due to increased labor costs and materials, supplies and services funding. The changes in internal reimbursements are related to a service contract for police services and a grant that was not completed at the time of budget development. The budget includes the following highlights:

Police Officers (Beat 7 Patrol)

Measure B allowed for the addition of four Police Officer positions to assist in the building of Beat 7 in West Roseville. These four positions were added to two positions already in Patrol to bring staffing to six Officer positions. However due to our shift structure, it takes eight officer positions to fully staff a new beat. In order to allow for Beat 7 to be fully staffed with eight positions, two Police Officer Positions are being added to Patrol, completing the staffing required for a seven beat system.

Department Operating Budgets

Police Sergeants

Two Police Sergeant Positions are being added to the Department's Patrol Unit. Currently, our Patrol Unit has eight Sergeants, one for each Patrol shift. If any Sergeant is off (vacation, injury, sick, etc.) then another Sergeant must backfill the shift. Depending on when this occurs, our ability to backfill is strained. The addition of two Sergeant positions will allow for one Sergeant to be assigned to each Patrol team to assist with any staffing shortage and help spread out the workload.

Communications Supervisor

Communications Supervisors are required to supplement Dispatcher staffing levels and process 911 calls, work law and fire radio, and complete dispatch functions in addition to their supervisory task. The Communications Center is currently staffed with three supervisor positions. This creates a structure where day shift has supervisory coverage 7 days a week, swing shift only has coverage for part of the week, and there are no Communications Supervisors on graveyard shifts. With the addition of a fourth Communications Supervisor we can ensure adequate supervisor coverage for the graveyard shift.

Animal Control Officer (ACO)

An ACO position is being added because the Police Department has not added an Animal Control Officer since 1993. During that time, the city population has grown from 53,000 to 148,000 residents and Animal Control calls have grown significantly. The department doesn't have statistics back to 1993, but since 2001, the ACO calls for service have increased 50 percent. This past year they have handled 5,303 calls for service with another 568 being dispatched to Patrol Officers because of a lack of ACO staffing.

Police Officer (Professional Standards Unit)

During the implementation of the Body Worn Camera program, it was determined that any needed staffing to manage the program may need to be phased in. In the first year of the program, a Property Clerk position was added to manage the video evidence. In the second year of the program, the need is becoming apparent for a position within the Professional Standards Unit in order to handle any potential issues that arise in a video or to review videos ahead of any public request for the records. The added Officer position within PSU would be responsible for the Body Worn Camera program and assist with the large number of background investigations for all staff and other city positions assigned to work within the Police Department.

Police Officers (5 Positions)

The Police Department has endured a significant impact to Patrol staffing as the result of work-related injuries and a portion of those injured officers are out for a long term, some pending retirement due to their injuries. Predominantly, these injuries occur in our Patrol Division where they affect our minimum staffing levels required for response to calls for service. Currently, Patrol is staffed with 70 officers across two patrol teams, but when a long term injury impacts that staffing it limits the ability for others to attend training or take vacation. It also leads to more overtime when we cannot meet the minimum staffing level required for each shift.

With the addition of five Police Officer positions, the Police Department will increase Patrol Staffing from 70 officers to 75 officers, but without adding to minimum staffing. Thus, our allocated number of 75 with 70 assignments gives us 5 spaces to "park" an injured officer in without affecting our staffing and service levels.

Crisis Negotiations Equipment

LETS Respond equipment is a wireless crisis negotiations system built with proprietary phone switching technology. This phone has been modified to be a secure throw phone. A throw phone can only be used to call or text the primary Negotiator and the Crisis Negotiation team and has remote access to the device's camera and microphone for live audio and video. This equipment will improve the Police Department's ability to successfully negotiate on critical calls with proficient software and equipment.

Department Operating Budgets

Bluetooth Integrated Technology Systems (BITS)

Bluetooth Integrated Technology Systems (BITS) is an add on to our existing Body Worn Cameras (BWC). The BITS allows a small adapter to be installed on every Roseville Police Department marked vehicle or motorcycle which will automatically be activated any time an officer activates the overhead lights. This integration is a safer and effective means for the BWC to be activated seamlessly when an officer is quickly engaged. It will eliminate the human error or slow muscle memory of turning on the camera in a stressful situation.

Unmanned Aircraft System (UAS) Program Equipment and Streaming Software

The Police Department's current UAS program has incorporated a few small aircraft that are entirely dependent upon battery life, equipment upkeep, HDMI cords, and other equipment. With an approved budget for the UAS program the Department can purchase necessary equipment to maintain the UAS fleet. The UAS operations team provides oversight, security, and other vital functions at critical incidents, crime scenes, disaster scenes, and suspect apprehension calls. The view captured by an UAS is essential to quality operational decisions. Many times, the pilots and observers cannot logistically cohabitate with the command center. With a Streaming Software service, the view from UAS aircraft will stream to a command center location for critical command decisions and situational awareness.

Real Time Crime Center Software (RTCC) and Video Integration Devices

The Police Department's budget includes funding for the ongoing growth of our Real Time Crime Center to include new video integration devices and Software as the Department gains access to additional cameras throughout the City. The purpose of the RTCC is to provide real time information to field personnel in an effort to help make efficient and effective decisions when responding to in-progress incidents.

Flock License Plate Reader

The Roseville Police Department expanded the Flock License Plate Reading (LPR) program through the purchase of an additional 10 new Flock LPR cameras. This purchase will bring our total LPR camera count to 20. The increase in cameras will afford the Police Department the ability to increase our pro-active enforcement to prevent crime, investigate criminal acts within our city, and expand the real-time crime center which assists with identification and prevention of crime.

Public Affairs

Funding in the amount of \$10,000 was included for Police Department's Public Affairs Unit to support community policing, engagement, and communication efforts. Guided by the Police Department strategic plan, our Public Affairs team will use a multi-layered approach that balances social media, website, direct mail, digital ads, news articles, in-person presentations, community events, fliers, and assessment tools to measure our effectiveness. The Public Affairs team will continue their efforts to improve police-community relations.

Procedural Justice and Implicit Bias Program

The Police Departments Budget includes funding for our Procedural Justice and Implicit Bias program. The funds will help support training for the Department's instructor group, and provide them with opportunities to seek training throughout the United States to help increase awareness and knowledge around current social issues affecting police and the community we serve.

Law Enforcement Records Management System (LERMS) Report Writing Interface Update

The Police Department will update the Coplogic and Tyler Tech LERMS interface to build efficiency in the online report approval process and reduce data entry requirements on staff by automating direct entry into LERMS. The interface will update the system to ensure compliance with the National Incident-Based Reporting System (NIBRS) and the Uniform Crime Reporting (UCR) reporting standards.

Department Operating Budgets

Training

The Police Department's training budget includes an increase in the amount of \$20,600. This increase in funding will allow Department personnel to develop their expertise through training and attendance at specialized conferences. Department personnel will attend the California Narcotics Officers Association conference, the California Homicide Investigators Association conference, the Public Information Officials conference, the International Association of Identification conference, the Woman Leaders in Law Enforcement Training symposium, and the Public Information Officer program.

Fire Department

Department Operating Budgets

Fire Department

Overview of Services

The Roseville Fire Department is a full-service agency that strives to provide the highest level of public safety services to the community. The Department's goal is to protect lives, property, and the environment through fire suppression, emergency medical services, community risk reduction, public education, and emergency preparedness. In fulfilling this mission, the following services are provided:

Fire Administration

This Division provides oversight and coordination to the various programs and services provided by the Department and ensures City policies and guidelines are implemented; including the overall management of the Department's budget, community outreach, and public information programs.

Fire and Life Safety

As the focal point of the Department's effort to minimize risk within the community, the Division's responsibilities include the enforcement of the California Fire Code, including a comprehensive fire safety inspection program and the administration of a comprehensive hazardous materials inspection program. The Division delivers fire safety education programs to thousands of students and a full-service car seat safety program to the community.

Fire Operations

The Department's core mission is to respond to all hazards and emergencies from the routine to the catastrophic. As a fire-based emergency medical department, the Operations Division responds to many calls for service, including fires, medical responses, rescues, and hazardous materials emergencies. The Division maintains a host of emergency equipment and vehicles as well as a Type I Hazardous Materials Response Team and a Type II Rescue Team.

Fire Training

The Training Division coordinates initial and ongoing emergency response and medical training for all firefighters within the Department. The Division maintains a training center that is utilized daily by operational personnel to maintain proficiency in both firefighting and emergency medicine. The Department has service agreements with Sierra College and other agencies, which allows them to utilize the facility providing the City with a source of annual revenue.

Emergency Preparedness

The Department coordinates the City's Emergency Management Team, which is comprised of at least one member of every department. As the program lead, the Fire Department coordinates required citywide emergency management training and exercises. The Department coordinates the maintenance of the Emergency Operations Center and the Emergency Operations Plan.

Accomplishments

- Responded to over 18,247 calls for service with 90 percent of responses within nine minutes and 12 seconds
- Received a \$441,000 California Office of Emergency Services multiyear training contract and a \$450,000 contract for the continued development of a Hazardous Materials Derailment Training Facility
- Received \$40,317 in a federal grant as a sub grantee through the City of Sacramento's Urban Area Search Initiative for personal thermal imaging cameras
- Received \$51,200 for self-contained breathing apparatus for the hazmat program as a Placer County Office of Emergency Services sub grantee for a FEMA/Homeland Security Grant
- Received and implemented eight Lucas Chest Compression Devices valued at \$128,015 from the Placer County Ambulance Advisory Committee and the Sierra-Sacramento Valley Emergency Medical Services Agency Funds

Department Operating Budgets

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Pursue available grants to offset expenses.

Continue to review all purchases in an effort to utilize competitively bid contracts, and lower cost purchasing opportunities.

Continue to secure training partnerships through federal, state and local partners to enhance training of staff and provide funding to support and develop those programs.

Goal: Maintain a safe and healthy community

Continue to optimize its levels of service in order to maintain a safe and healthy community.

Goal: Enhance economic vitality

Focus on partnerships in higher education to provide educational opportunities in public safety through agreements with Sierra College and the California Specialized Training Institute.

Goal: Invest in well-planned infrastructure and growth

Utilize analytical data and performance metrics to drive decision making related to facility needs to improve operational capabilities and response.

Goal: Support community engagement and advocacy

Engage the community in various ways, including attending neighborhood meetings, a kids' fire camp, an active social media presence, and open houses. All of these outreach methods help the Department communicate the services and programs provided to the community.

Goal: Deliver exceptional City services

Work to enhance the use of technology, best practices, and data to improve operations.

Department Operating Budgets

Key Performance Measures

Response Times within Standards

Goal	Maintain a safe and healthy community			
Strategy	Optimize fire levels of service			
	CY2020 Actuals	CY2021 Actuals	CY2022 Estimate	CY2023 Estimate
Total response time (call to arrival) for 90% of the total emergency hazardous materials incidents	10:12	10:26	08:00	08:00
Total response time (call to arrival) for 90% of the total emergency technical rescue incidents	08:13	08:30	08:00	08:00
Total response time (call to arrival) for 90% of the total emergency fire incidents	08:58	09:01	08:00	08:00
Total response time (call to arrival) for 90% of the total emergency medical incidents	08:31	08:38	07:00	07:00
Purpose	Total response time impacts the outcome of each emergency incident.			
Status	The Department continually monitors response times to emergency incidents.			

Support Community Safety Education

Goal	Support community engagement and advocacy			
	CY2020 Actuals	CY2021 Actuals	CY2022 Estimate	CY2023 Estimate
Number of Roseville K-5th grade students receiving a fire safety presentation	3,000	8,000	5,000	8,000
Car seat safety inspections completed	189	200	220	250
Purpose	The Department works to educate the community in targeted areas through proactive education.			
Status	The school education program has been able to effectively educate approximately 8,000 students even with varying degrees of shutdowns due to COVID-19.			

Department Operating Budgets

State Mandated Inspections Performed

Goal	Maintain a safe and healthy community	
Strategy	Optimize fire levels of service	
	CY2021 Number	CY2021 Percent of Completed
Number of Assembly (A) occupancy inspections	331	100%
Number of Educational (E) occupancy inspections	65	100%
Number of Institutional (I) occupancy inspections	26	100%
Number of Hotel / Motel / Apartment (R-1/R-2) occupancy inspections	198	100%
Purpose	Pursuant to CA Health & Safety Code section, 13146.4, every fire department is required to perform annual inspections and shall report statistics annually to its administering authority when discussing its annual budget in a resolution or a similar formal document.	
Status	The Department continually monitors the status of mandated inspections to ensure they are completed.	

Key Workload Measures

	CY2020 Actuals	CY2021 Actuals	CY2022 Estimate	CY2023 Estimate
Number of medical incidents	10,668	11,810	12,500	12,500
Number of fire incidents	344	379	350	350
Number of total incidents	16,693	18,247	18,500	19,000
Number of Certified Unified Program Agencies (CUPA) inspections	842	1,516	1,500	1,500
Number of occupancy inspections	1,775	2,492	1,500	2,000

Budget Highlights

The Fire Department's FY2022-23 budget totals \$41.7 million and provides funding to support 120 position allocations. The Department's budget increased by approximately 8 percent over the prior fiscal year, from \$38.8 million to \$41.7 million. This increase is due to increased labor and materials, services, and supplies costs.

Fire Battalion Chief

The budget includes funding for an additional Fire Battalion Chief. This position will support the recent implementation of the Emergency Medical Services First Responder Fee and will provide logistical support to the Department's facilities and fleet, serve as the Department's Safety Officer, and assist with the Department's strategic planning efforts.

Department Operating Budgets

First Responder Fee

With the adoption of Section 9.27 of the Roseville Municipal Code - Emergency Medical Services First Responder Fee, beginning in FY2021-22, the City began to collect fees related to the cost of providing advanced life support services, basic life support services, or other medical services that require immediate transportation to the hospital for both community members and visitors. This fee is anticipated to generate approximately \$1 million in revenues for the City's General Fund in FY2022-23 after accounting for program administration and collection costs.

Economic Development Department

Department Operating Budgets

Economic Development Department

Overview of Services

The Economic Development Department is comprised of two divisions: Economic Development and Housing, which includes the federally-funded Housing Authority. Economic Development's primary role is to foster a dynamic environment that supports business growth, attracts private investments, and delivers housing options in ways that enhance community vitality.

The Economic Development Division focuses on strengthening Roseville's position as a community of choice for business, investment, and lifestyle by retaining, attracting, and growing businesses, encouraging job growth and investment in the city, leveraging local and regional partnerships, and building on Roseville's competitive advantages, which include capitalizing on the City's utility advantages. The division also provides staffing and support for the City's Economic Development Advisory Committee.

The Housing Division manages programs including Housing Choice Voucher Rental Assistance, Community Development Block Grant, Affordable Purchase, and Owner-Occupied Rehabilitation that strive to increase the City's affordable housing availability. The division provides staffing and support for the Roseville Housing Authority (Housing Choice Vouchers), the Homeless Response Team, the Successor Agency, the Housing Successor, and the Grants Advisory Commission.

Economic Development Advisory Committee and Grants Advisory Commission

The Economic Development Advisory Committee advises the City Council on creating a community environment conducive to existing businesses, attracting desirable businesses to Roseville, and promoting tourism as a key element of the local economy. The Roseville Grants Advisory Commission recommends grant awards from the Citizens' Benefit Fund and the Roseville Employees Annual Charitable Hearts (REACH) Fund.

Roseville Housing Authority

The Housing Authority is funded by the federal department of Housing and Urban Development (HUD) and administers the Housing Choice Voucher (HCV) Rental Assistance Program (formerly Section 8), which assists elderly, disabled, and low-income individuals and families by providing affordable housing opportunities in a safe environment.

Roseville Housing Loan and Grant Programs

The Department's Housing Division coordinates and administers the Community Development Block Grant, First-Time Homebuyer, Housing Rehabilitation, and Affordable Purchase and Rental programs, which create affordable housing and are funded from several federal and state grants, as well as developer fees and other sources.

Roseville Homeless Response Team

The Department provides leadership and coordination with both the internal Homeless Coordination Team to enhance interdepartmental communication across the City on actions related to homelessness and the multidisciplinary Homeless Response Team and the Placer County Continuum of Care.

Successor Agency and Housing Successor

The Department provides staff support for the Successor Agency of the former Redevelopment Agency and manages the Agency's enforceable obligations. The Successor Agency is overseen by the Placer County Consolidated Oversight Board. The Housing Successor of the former Redevelopment Agency has assumed the assets of the former Low and Moderate Income Fund, and staff manages the funds that are used primarily for affordable housing projects and homelessness intervention activities.

Department Operating Budgets

Accomplishments

Economic Development

- Completed Key Real Estate Transactions for three surplus properties, generating a total of \$6,992,165:
 - Galilee Road/Industrial Avenue site (for Green Acres Nursery and Supply)
 - 290 Conference Center Drive (Old Hotel Conference Center site)
 - 320 Vernon Street (old Downtown Roseville Post Office site)
- Development of these parcels will include a variety of uses consisting of commercial/retail and residential. Also initiated the sale of three additional surplus properties - Roseville Industrial Park; 505 Royer Street; and 401 & 403 Oak Street (anticipated to generate a little over \$10.5 million)
- Negotiated and executed an agreement with Panattoni for development of a large regional jobs center on 236 acres of City surplus land. Panattoni is proposing a 127 acre multi-building complex with approximately two million square feet of commercial industrial use, generating an economic value of \$950 million and 6,700 jobs
- Awarded \$60,000 in financial assistance to seven property and business owners from the Downtown Roseville Façade Program in association with the Downtown Roseville Partnership
- Disbursed \$200,000 in funding from the Placer Share's Community Collaborative Impact Grant to Roseville restaurants in partnership with the Roseville Area Chamber

Housing Division

- Completed Main Street Plaza Apartments adding 65 affordable units to Old Town. All of the units are currently leased
- Funded Junction Crossing Apartment Project with a \$4.36 million loan in affordable housing funds to St. Anton to begin development of Junction Crossing in Old Town Roseville, which will contain 80 affordable units
- Disbursed \$4.5 million in Emergency Rental Assistance (ERA) funding to assist 400 low-income households with rent and utility payments in an effort to help prevent housing instability and potential eviction
- Completed the City's Housing Element and presented it for City Council approval on August 16, 2021. The City received its letter of substantial compliance from the state Department of Housing and Community Development (HCD) on November 17, 2021. Roseville was one of only a handful of jurisdictions to receive certification on its initial submittal to HCD
- Submitted a successful application to California Housing and Community Development Department's (HCD) Local Housing Trust Fund (LHTF) Program and received an award of \$1 million in match funds. Funds will support future affordable rental housing development in Roseville
- Awarded 60 Project Based Vouchers to six projects to assist with the development of over 800 affordable units throughout Roseville
- Received the 2022 Housing Choice Voucher Small Public Housing Authority Program of the Year Award for the Western Region by the U.S. Department of Housing and Urban Development

Strategic Plan

Goal: Maintain a safe and healthy community

Strategy: Address homelessness through stronger regional partnerships with desired expectations and outcomes

The Housing Division will continue to increase affordable housing availability and address homelessness by working with affordable housing developers to access capital and keep projects on target, disbursing Homeless Prevention &

Department Operating Budgets

Rapid Rehousing funds, coordinating with the internal Homeless Coordination Team and the multidisciplinary Homeless Response Team, as well as the Placer County Continuum of Care.

Goal: Enhance economic vitality

Strategy: Advance sports tourism opportunities, including destination-type amenities

The Economic Development Division will continue to work with the PRL Department to implement sports tourism strategies, projects, and opportunities including leveraging partnerships with Placer Valley Tourism (PVT) and Roseville Chamber of Commerce to support and grow our retail, restaurant, and hospitality industries.

Strategy: Support conditions that promote and retain retail, commercial, and industrial opportunities to include Baseline Marketplace

The Economic Development Division will continue to focus on opportunities that promote job growth, key industries, and investment in Roseville. Over the next year, we will work with both internal and external partners to strategically promote Roseville's value propositions, encourage and facilitate seamless and user-friendly experiences for development, and strengthen our prominent and emerging industry sectors. Economic Development will also engage in regional opportunities to secure state and federal funding to support local economic development efforts.

Strategy: Consider strategic reserves and other funding for job growth incubators, vacant storefronts, façade improvements, and other economic development opportunities

Over the next year, the Economic Development Division will grow Roseville's entrepreneurship ecosystem, small business community, and venture backable sectors with the launch of the new Growth Factory Roseville: Venture Lab, targeted programs, community partners, and events. Additionally, Economic Development will engage partners to promote commercial and development sites for key users and businesses.

Strategy: Finalize updated Economic Development Strategy

The Economic Development Division will finalize an updated citywide Economic Development Strategy that will set forth Roseville's economic development goals and outline initiatives to build upon the City's value propositions, address its threats and challenges, and pursue key opportunities. The updated citywide strategy will also acknowledge the collective role played in supporting local economic growth.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in core neighborhoods

The Local Housing Trust Fund (LHTF) is the City's primary tool for supporting new affordable housing development. The Housing Division will continue to support reinvestment in core neighborhoods by leveraging LHTFs to develop affordable housing options throughout the City. The Housing Division will also seek opportunities to secure additional local funding through upcoming state and federal affordable housing initiatives.

Strategy: Prioritize completion of the Roseville sports park complex and crucial corridors

The City's Commercial Corridor specific plan project is intended to encourage pedestrian-friendly design, public amenities, streetscape beautification, appropriate parking, access to transit, and flexible and mixed uses. The Department will actively promote opportunities for housing and business investments along key corridors consistent with specific plans, including engaging in regional opportunities to secure state and federal funding to support local infrastructure projects and housing development along crucial corridors.

Key Performance Measures

Housing Choice Voucher (HCV) Lease Up

Goal	Maintain a safe and healthy community			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Provide HCV rental assistance to at least 698 households monthly	92%	95%	94%	88%
Purpose	To maintain 95 percent monthly lease up of HCV households.			
Status	The Housing Authority's ability to assist the same number of households is decreasing due to sharp rent increases in Placer County. Continued rent increases will likely result in a HCV shortfall. RHA is working closely with HUD to address our anticipated shortfall needs and secure an increased funding allocation for future years. The goal is to increase RHA's future budget authority and return to a range of 95 percent or more lease-up.			

Affordable Monitoring

Goal	Maintain a safe and healthy community			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Monitor all 27 affordable rental agreements on an annual basis	100%	100%	100%	100%
Purpose	To ensure all affordable rental obligations are met.			
Status	As required, all affordable projects are current on rental obligations and annual monitoring.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Family Self-Sufficiency Escrow Accounts	7	10	10	10

Budget Highlights

The Economic Development Department's FY2022-23 budget totals \$4.1 million and provides funding to support 16 position allocations. The Department's budget decreased by approximately 52 percent over the prior fiscal year, from \$8.5 million to \$4.1 million. This decrease is primarily due to one-time grant funding associated with the Junction Station housing project included in the FY2021-22 budget. The increase in General Fund expenditures is due to labor cost increases and the \$120,000 lease payments to the landowners that have agreed to the installation of electronic billboards on their property. The lease payments to the landowners are fully offset by \$1.1 million in revenue sharing from the company responsible for operating the billboards.

Parks, Recreation & Libraries Department

Department Operating Budgets

Parks, Recreation & Libraries Department

Overview of Services

The mission of the Parks, Recreation & Libraries Department (PRL) is to enhance lives and the community by providing exceptional experiences. The Department accomplishes this by providing the following services and facilities:

Strategic Support

PRL's Strategic Support Division provides administrative services and support to the Department. With a department staff of 135.5 FTE and 700+ part-time staff and an operating and non-operating budget of more than \$40 million, these services are critical to the department's success. Strategic Support includes Administration, Human Resources, Budget, Accounting, Technology, and Marketing & Communications.

Parks

PRL's Parks Division oversees the management of the department's 80 parks totaling more than 885 acres, as well as approximately 4,000 acres of open space. This division also handles the maintenance of 311 acres of city streetscapes and 43.5 acres of school property. Along with the Parks and Open Space sections of this division, the Park Development section works closely with PRL staff, City staff, and area developers in the development and rehabilitation of parks and facilities, to ensure Roseville's recreation, library, parks, and open space needs are met.

Recreation and Youth Development

PRL's recreation programs are managed by the Programming section, ensuring the quality offering of tot, youth, teen, adult and senior programs and events.

Recreation facilities and community events are managed by the Facilities section, which oversees the front desk and facility operations at PRL's two community centers. The Aquatics section manages the aquatic programs at three swimming pool facilities. Youth Development is comprised of the Adventure Club, Preschool, After School Education and Safety (ASES) Program, and subsidized care programs. Lastly, the City has two championship golf courses hosting 110,000 rounds annually.

Libraries & Culture

PRL's three libraries loaned more than 1,100,000 items and served over 150,000 visitors this past year. A variety of educational and cultural programs are offered at the libraries and at Maidu Museum & Historic Site, focusing on literacy, early learning, Maidu cultural and natural resources. The libraries continue to lend both print and electronic materials, and utilize technology to deliver efficient services to every member of the community.

Accomplishments

- PRL Department restructure, creating internal efficiencies
- Dedication of Parks:
 - o Pauline & Richard Roccucci Park
 - o RG Phillips Park
 - o Pistachio Regional Park - Phase 1
 - o Harry Crabb Park - Final Phase
 - o Central Park - Final Phase
 - o John L. Sullivan Park
 - o Jim Gray Park

Department Operating Budgets

- Completion of major renovations:
 - o Wallace Park at Cresthaven - Tennis/Pickle Ball Courts
 - o Play structure replacements at Wanish & Crestmont
 - o Maidu Interpretive trail repairs
 - o Maidu Soccer Arena renovations
 - o Maidu Soccer Complex – new hybrid Bermuda turf
 - o Shade structures at Hughes, Cambria & Mahany Patio
- New or Renovated Amenities made possible through Partnerships:
 - o Kings Basketball Court at Royer Park – in partnership with the Sacramento Kings and Kaiser Permanente
 - o Maidu Fitness Court – in partnership with the National Fitness Campaign and California Park & Recreation Society
- California Park and Recreation Society (CPRS) State Award of Excellence – Marketing, PRL Magazine
- CPRS District 2 Award of Excellence for Facility & Park Planning – Harry Crabb Park
- Homeless Camp Cleanup – Cleaned 143 camps and removed 187 tons of hazardous debris
- Sustainable Shelves to keep library collections relevant and dispose of old materials responsibly
- Kano PC devices and curriculum teaches computing and coding both in the Library and Adventure Club programs
- Zip Books increase accessibility for customers to access library materials
- Optimizing ActiveNet, the new recreation software system that manages activity registration, facility reservations, memberships, and the point of sale solution
- Two PRL facilities served as COVID-19 testing and vaccination sites

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Strategies: Increase funding for CIP rehabilitation to prevent erosion of infrastructure

Included in the PRL Department's goals for FY2022-23 is to determine the feasibility of a PRL foundation. The creation of such a foundation could provide an avenue for community members to financially support the department's efforts in targeted areas of interest. The Department will continue to be innovative in the offering of new programs and will evaluate and update user fees. Additional federal, state, and grant funding will be sought to support PRL services, as well as COVID-19 recovery efforts.

Goal: Support community engagement and advocacy

Strategies: Explore opportunities to engage increasingly diverse audiences in relevant ways; increase outreach to and engagement with younger populations; explore volunteer opportunities for employees

The PRL Department is actively engaged in multiple social platforms, including Facebook, Instagram, and Nextdoor. Over the past year, the Department has enhanced community communication with the new Experience PRL magazine and has created a monthly video series to help educate the community on PRL programs, services and efforts. In the last year, PRL has also increased outreach to the City's younger populations by asking for assistance planning for a new playground at Royer Park. We have also translated some outreach material into Spanish and had translation services available as needed for virtual public meetings. Additionally, the Department engages residents through public meetings (virtually and in-person), social media, website, and surveys, seeking input on park design, playground replacement design, program offerings, service priorities, and program satisfaction.

Department Operating Budgets

Goal: Maintain a safe and healthy community

Strategy: Address homelessness through stronger regional partnerships with desired expectations and outcomes

Everything PRL does contributes to the community's health and wellness. The Department promotes physical activity through participation in recreation programs and visits to local trails, parks, and playgrounds. The Department promotes social and emotional wellness through interaction with others at PRL organized activities. "Be Well Roseville", a new citywide wellness initiative, has engaged hundreds of residents and promoted physical activity, good nutrition, and mind/body renewal. Mental and intellectual wellness services are provided at libraries. PRL is an important partner in the City's efforts to address homelessness, cleaning hundreds of camps, and removing hundreds of tons of hazardous debris from our open spaces each year, protecting humans and the environment.

Goal: Enhance economic vitality

Strategy: Advance sports tourism opportunities, including destination-type amenities

The Department is instrumental in advancing sports tourism opportunities through its many sports facilities that draw league and tournament play. Planning is underway for the Roseville Sports Complex in West Roseville. Improvements to existing PRL sports facilities and this new Complex will attract events to Roseville. Also enhancing the City's economic vitality, PRL's efforts increase home values; parks and open spaces improve air and water quality; and, quality parks, recreation, and libraries systems attract businesses, talented workers, and new residents.

Goal: Deliver exceptional City Services

Strategy: Remain an employer of choice through expanded recruitment and attraction efforts, a focus on retention, new labor agreements, and a strong culture; implement greater community-based and volunteer cleanups

PRL puts delivering exceptional City services at the forefront in all we do. Internal department efforts focus on culture, making PRL a department where people want to work and stay. The PRL Ambassador program successfully engages residents in community-based volunteer cleanup events.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in core neighborhoods, with a focus on Weber Park; increase funding for CIP rehabilitation to prevent erosion of infrastructure; prioritize completion of the long-field sports park complex and crucial corridors

The PRL Department continues to reinvest in its aging infrastructure including playgrounds, park amenities, streetscapes, fencing, and more. The FY2022-23 budget includes the replacement of the Royer Park playground, re-plaster and tile replacement for the Mike Shellito Indoor Pool, and renovations of the tennis courts at Mahany Park. Construction of the Roseville Sports Complex is in design and expected to begin construction in FY2022-23. Also being reviewed are improvements to Weber Park. We recognize that investment in City parks and facilities adds new vitality to neighborhoods.

Department Operating Budgets

Key Performance Measures

Participations/Visitations

Goal	Deliver exceptional City services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Program and Event Participations	745,565	820,121	861,127	984,145
Recreation Facility Visitations	517,876	569,663	598,146	683,295
Library Facility Visitations	330,228	465,000	284,000	385,450
Purpose	The Parks, Recreation & Libraries mission is to enhance lives and the community by providing exceptional experiences. The Department's facilities and programs enable staff to accomplish its mission and add value to the Roseville Community.			
Status	All facilities are open and programs and events are back in full swing. Visitations at our facilities are steadily increasing and participation in most of our programs and events are at or near full capacity.			

Revenue Recovery

Goal	Remain fiscally responsible in a changing world			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Revenue to Operating Expenditures (without CFD/LLD)	12.8%	24.9%	20.3%	20.9%
Revenue to Operating Expenditures (with CFD/LLD) (CFD/LLD revs=exp)	40.1%	42.9%	44.2%	43.9%
Purpose	The financial stability of the Department is the key to success. The Department continues to seek new revenue opportunities to lessen its reliance on the General Fund. Monitoring revenue to operating expenditures ratio is a good measure of financial success.			
Status	COVID-19 significantly impacted the revenue to expense ratio in both FY2020-21 and FY2021-22; however, the department is beginning to see revenue recovery that could positively impact FY2022-23.			

Department Operating Budgets

Library Comparisons

Goal	Deliver exceptional City services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Items loaned per capita	7.2	8.9	7.3	9.2
Budget books per capita	2.1	2.39	2.4	2.5
Visitors per hours open	60	72	43	58
Purpose	Library services are vital to the health of the community. The Parks, Recreation & Libraries Department strives to provide these services in an efficient, effective, and prudent fashion.			
Status	While we are still offering some services related to COVID-19, including expanded offerings of online services and materials, our total materials lending has fully recovered, and visitation is again increasing.			

Park Maintenance

Goal	Deliver exceptional City parks			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Maintenance Standards: Increased Pruning	3-4 times per year	3-4 times per year	3-4 times per year	3-4 times per year
Maintenance Standards: Increased Fertilization Application # of Acres	140	211	214	214
Purpose	The Parks, Recreation & Libraries mission is to enhance lives and the community by providing exceptional experiences. Parks enable the Department to accomplish its mission and to add value to the Roseville community. Effective park maintenance ensures safe, clean, and green spaces for residents' enjoyment.			
Status	Additional funding from the passing of Measure B has increased service level standards, enhanced park aesthetics, and improved the overall quality of the City's park system.			

Department Operating Budgets

Number of phone calls received from customers	93,361	84,025	72,086	70,000

Budget Highlights

The Parks, Recreation & Libraries (PRL) Department's FY2022-23 budget totals \$43.4 million and provides funding to support 132.5 position allocations, including seven new positions. The PRL Department budget increased by approximately 10 percent over the prior fiscal year, from \$39.4 million to \$43.4 million. This change is primarily due to increased labor and materials, services, and supply costs associated with maintaining current service levels and additional funding to support the new positions and program requirements highlighted below.

PRL is working towards accreditation through NRPA's Commission for Accreditation of Park and Recreation Agencies (CAPRA). This accreditation provides quality assurance and quality improvement of accredited park and recreation agencies throughout the United States by providing agencies with a management system of best practices. CAPRA is the only national accreditation of park and recreation agencies and is a valuable measure of an agency's overall quality of operation, management, and service to the community. Achieving CAPRA accreditation is the best way to demonstrate that the Department provides the community with the highest level of service. To prepare for the future accreditation process, the Parks, Recreation & Libraries Department has developed a comprehensive strategic plan to establish clear and attainable goals, objectives, and implementation strategies that can guide the Department for the next 10-15 years.

PRL is continually challenged with recruiting and retaining quality staff to conduct its many programs/events and to ensure its parks/facilities are adequately maintained. Ongoing efforts have been made to re-align department staffing resources to find the right balance of full time and part-time employees as well as contractor resources to deliver programs and services effectively and efficiently. These efforts will continue in FY2022-23. The Department is putting an emphasis on turf management. The Department received funding for an Agronomics Technician and Parks Maintenance Worker to focus on improving the quality of turf and sports fields. Turf maintenance requires the skills, knowledge, and understanding scientific agronomics practices, soil conditions, irrigation practices, disease and pest control, and sports field specifications. Portering is a core function of maintaining City parks for safety, cleanliness and general conditions. On a daily basis, porter staff ensure restrooms are cleaned, trash is emptied, inspect the entire park for safety issues, address vandalism/graffiti, ensure playgrounds and sports courts are safe, as they are the department's onsite representatives that most residents see day to day. The budget includes the conversion of temporary salaries to support two full-time Parks Maintenance Workers.

Department Operating Budgets

The Department is converting contract dollars to fund a Park Project Technician assigned to construction inspection for new parks, rehabilitation projects, expanding miles of new streetscape construction and the new sports complex. Contract inspection is essential to deliver consistent and experienced construction inspection services for high quality assets. The Parks Division maintains 50,000 park and street trees, 80,000+ trees in open space preserve areas and 40 miles of trees along bike trails throughout the City. The addition of a Senior Tree Trimmer will allow the Division to increase productivity, reduce contract costs, be more responsive to field inspections of customer service concerns regarding trees, and conduct regular quality assurance and safety inspections.

In an effort to increase hours, programs and services at the Maidu Museum & Historic Site, a Recreation Leader was added in the budget. There was a significant reduction in services in 2018 before Measure B was passed. This new position will allow for the expansion of essential services including volunteer coordination, program and event development, and increased hours, which will greatly increase public access to the facility bringing in additional revenue. Additionally, there will be a plan developed to update the exhibits at the facility. The addition of a Librarian for the Riley Library will allow us to expand library hours, add programming, and assist customers at our busiest location serving 250,000 visitors and 500,000 items loaned annually. There is also an effort to improve the level of security at the Downtown Library utilizing the existing vendor that supports the Downtown. Security issues have significantly increased the past year.

There is an investment in Park amenities to ensure safety and equity in our aging facilities including replacement of amenities such as benches, picnic tables, drinking fountains, shade structures, sports court fixtures, and restroom fixtures. Annual condition assessment and inventory tracking will assist in determining priorities each year. The General Fund will now support the cost of inspecting, testing, and repairing backflow devices for General Fund owned devices within parks, streetscapes, and facilities.

Golf Fund

The most significant source of revenue in the golf fund is generated through user fees for course play. Since the start of the COVID-19 pandemic, golf rounds and revenues have increased resulting in higher revenues. Although the Golf Fund revenues have trended positively the past few years, both golf facilities and courses are in need of significant improvements. To address this need, \$1 million has been identified in the FY2022-23 budget for golf course improvements.

Youth Development Fund

The Youth Development Fund revenue is derived from before and after school childcare programs and preschool programs. The fund includes Adventure Club, Pre-school, After School Education & Safety (ASES), and subsidized care programs. Fund expenses include charges for staff, facility maintenance, materials, and supplies. Additional fund expenses include post-retirement costs, citywide cost allocation plan charges, internal service fund charges, and facility loan payments. The Youth Development Fund experienced significant losses due to the COVID-19 pandemic with reduced registrations due to a variety of societal factors. Additionally, Adventure Club and Preschool operations were impacted by limited needs for this service, as remote working had significantly increased in FY2021-22. It is anticipated that program revenues will begin to rebound in FY2022-23. There is a \$1.8 million transfer from American Rescue Plan Act funds in the budget to restore the fund balance back to pre-pandemic levels.

Budget Summary

Positions by Division/Program

Full Time Equivalent (FTE) Positions	FY2020-21 Actual	FY2021-22 Adopted	FY2021-22 Amended	FY2022-23 Budget	FY2022-23 Change	FY2022-23 Change (%)
Parks, Recreation & Libraries Total	116.500	125.500	125.500	132.500	7.000	5.6%

Department Operating Budgets

Public Works Department

Department Operating Budgets

Public Works Department

Overview of Services

The Public Works Department (PWD) manages all aspects of transportation infrastructure within the public right of way including the maintenance and operations of programs and services for the safe and efficient transportation of Roseville residents, businesses, and visitors. The PWD also manages the construction and maintenance of public buildings, is responsible for flood control within the City, and manages and maintains the City's fleet of vehicles. Specifically, Public Works plans, develops, and maintains public roads, bridges, buildings, traffic signals, City fleet, flood control facilities, Roseville Transit, and Class I (off-road) multi-use trails.

Administration

The Administration Division provides direction, goals, and leadership for the Department; maintains the integrity of policies, procedures, staffing, and budget; coordinates supportive services for the Department and represents the Department at Council, manager, regional, and public meetings and events; and provides support staff to the Transportation Commission, a recommending body for the City Council.

Alternative Transportation

The Alternative Transportation Division manages Roseville Transit services, various active transportation (bikeway and pedestrian) programs, projects and grants, and transportation demand management through the Transportation Systems Management Ordinance. The programs this division manages include: Roseville Bikefest, Safe Routes to School, School Crossing Guards, Mobility Training, and volunteer Transit Ambassador and Bike/Walk Ambassador programs. In addition to managing Roseville Transit, Alternative Transportation oversees, on behalf of the Placer County Transportation Planning Agency, the operation of the South Placer Transit Information regional service - a phone, web, and e-mail portal for the public to easily obtain information and trip-planning assistance for all public transit services in the south Placer region.

Facilities

The Facilities division maintains, repairs, and rehabilitates 1.35 million square feet of City facilities. The division annually completes over 8,000 work orders, oversees the Americans with Disabilities Act improvements for facilities, is responsible for California Air Resources Board requirements for emergency generators and boilers, manages State Elevator permitting, and oversees facility tenant improvements. The Custodial unit cleans 480,000 square feet nightly. The Facility Services Division is a vital part of employees' overall work experience and their safety and security.

Fleet

The Fleet Services Division manages the purchase of new and replacement equipment, performs preventative maintenance, and repairs the entire City's fleet of vehicles and equipment. Fleet Services has maintained an Automotive Service Excellence (ASE) Blue Seal of Excellence status for the past 17 years. Fleet also upholds compliance with all California Air Resources Board rules and regulations for public fleets and compliance with the State mandated California Highway Patrol Basic Inspection of Terminals program. In addition, Fleet Services implements and services zero-emission and alternative fuel vehicles such as battery-electric sedans, battery-electric busses, renewable diesel fuel, and compressed natural gas (CNG) vehicles and infrastructure.

Street Maintenance

The Street Maintenance Division maintains 1,100 lane miles of public roadway infrastructure including drainage, paving, street sweeping, signs, and street markings. This division also performs storm drain maintenance including drain inlets, underground pipes, and open channel tributaries that lead to the City's creeks. This work protects the public by identifying and removing blockages that could cause flooding. Optimized pavement maintenance includes streets, alleys, multi-use trails, and parking lots. Regular street sweeping keeps pollutants out of the storm drain system and City creeks,

Department Operating Budgets

and keeps the community clean. Signs in the right of way, City parks, and City facilities are updated and replaced when deteriorated to ensure they meet state and federal standards. Markings are maintained to provide clear, highly visible, and consistent information to safely guide pedestrians, bicycles, and motorists along City streets and multi-use paths.

Engineering

The Engineering Division designs and manages the construction and maintenance of public roads, bridges, and Class I (off-road) multi-use paved trails, and the construction and maintenance of flood control projects, including an advance flood alert warning system. The City of Roseville is one of only two communities in the United States to have the FEMA Class I rating for flood protection and insurance. Engineering is responsible for maintaining this rating for the safety and benefit of the community. Engineering also manages the City's Intelligent Transportation System, which includes approximately 200 traffic signals, 11 changeable messaging signs, 30 pedestrian blinker signs, two automated horn train crossings, 23 speed radar signs, 10 Police Department license plate reader cameras, 30 floodplain monitoring stations, and a complex fiber network that supports the needs of various City departments and resources.

Accomplishments

Alternative Transportation

- Received Federal discretionary grant funding in the amount of \$560,000 to purchase four electric Microtransit vans and one electric charger
- Received \$2.4 million in American Rescue Plan funding to support transit as an essential service, maintain pre-COVID service levels, and retain bus operator jobs
- Roseville Transit continued to initiate COVID-19 safety protocols of daily disinfection of high-touch areas on buses and deep-cleaning of buses
- Received \$159,000 in discretionary grant funding for the Maidu Park Phase 2 Resurfacing Project
- Coordinated Taylor Homes' construction of a 1.5-mile long extension of Class I trails in the West Roseville Specific Plan, which opened to the public recently
- Roseville Bikefest continued as a drive-through event to minimize the spread of COVID-19, providing bike safety information to Roseville residents, and giving away a record 564 helmets to children and adults whose helmets were damaged or did not fit properly
- The Safe Routes to School program delivered 19 Bicycle/Pedestrian Safety Assemblies at five area schools and at six Adventure Club sites. Twelve area schools participated in Safe Routes to School's Walk to School Day event

Facilities

- 116 South Grant Street tenant improvement is wrapping up with staff moving in May of 2022
- Completed downtown space needs assessment

Fleet

- Received the Automotive Service Excellence's "Blue Seal of Excellence" award for the 17th consecutive year in 2021
- Received recognition by Government Fleet Magazine as a Leading Fleet for 2021
- Recognized as a "100 Best Fleet" by the National Association of Fleet Administrators in 2021

Department Operating Budgets

Street Maintenance

- Street Maintenance has abated more than 30,000 square feet of graffiti
- Obtained new fall protection equipment, which allows City staff to safely maintain CDS stormwater treatment units throughout the city, saving \$80,000 per year in contract costs

Engineering

- Completed the construction of approximately \$13.5 million worth of accessibility ramps and roadway resurfacing projects
- Completed the construction of the \$6 million phase 1 Washington Blvd/Andora Undercrossing Widening Project with over \$4 million in air quality and bicycle/pedestrian improvement grant funds
- Completed the design of approximately \$27.5 million of new bridge and roundabout capital improvement program projects
- Completed the design of approximately \$14.9 million of maintenance capital improvement program projects including creek stabilization, accessibility ramps, and roadway and bridge resurfacing projects
- Advanced and made significant progress on the design of approximately \$31 million worth of new roadway widening and Class 1 trail capital improvement program projects
- Completed Round 3 of the upgrade project for the City to upgrade several flood alert warning system stations to the new communications protocol – “Alert 2”
- Deployed Kinetic traffic monitoring system and Intelight controllers, which provide real-time data collection and rich analytics to enable the proactive management of traffic flow and mobility
- Installed LPR (license plate reading) cameras at 10 locations for Roseville Police Department
- Deployed Ruggedcom Ethernet switches with ring topology, new traffic servers, and firewalls for the traffic network enhancing network speed, management, reliability, and security
- Deployed Siemens road side antennas and a truck mounted on board unit initiating a pilot program for connected vehicle technology
- Deployed over 22 flashing LED signs to improve safety
- Developed a Local Road Safety Plan to improve safety and provide a framework for future traffic/roadway safety grants

Council Strategic Plan

Goal: Remain fiscally responsible in a changing world

Strategy: Seek new and diverse revenue streams

Alternative Transportation coordinates multi-use trail construction with Specific Plan developers and successfully competes for regional, state, and federal grant funding to implement the City’s Bicycle Master Plan and Short Range Transit Plan.

Alternative Transportation obtained over \$12 million in competitive grant funding through the Solutions for Congested Corridors Program, evenly split between the Dry Creek Greenway Phase 1 (Riverside to Rocky Ridge Trail) and the South Placer Express Transit Project.

Department Operating Budgets

Strategy: Identify operational efficiencies

Fleet Services continuously looks for operational efficiencies that result in cost savings for fleet vehicles citywide. These cost savings help offset increases in future budget years.

Street Maintenance has a proactive street resurfacing program to preserve the streets with less expensive treatments before they need to be reconstructed with a far more expensive process, use best maintenance programs to keep the storm drain system in good working order, and provide cost-saving patching and paving services to the City's water and wastewater utilities.

Alternative Transportation periodically updates transit services to increase efficiencies per the Short Range Transit Plan.

Goal: Support community engagement and advocacy

Strategy: Provide context about policy decisions to enhance understanding

Street Maintenance and Engineering communicate the process of resurfacing and how streets are selected for maintenance.

Alternative Transportation effectively engages the public during the development of transportation planning documents and bikeway development studies.

Strategy: Engage adjacent residents, businesses, and public agencies on pending projects

Street Maintenance and Engineering communicate resurfacing and capital improvement project plans and schedules throughout the lifecycle of a project.

Goal: Deliver exceptional City services

Strategy: Optimize the use of technology and data to improve operations

Engineering continues to implement Wi-Fi and connected vehicle technologies within the city to increase pedestrian safety, improve circulation and operations, and provide real-time data via online and on-road (digital signage) messaging.

Alternative Transportation is expanding public transit to include a Microtransit pilot program to enhance rider convenience and efficiently use transit resources while increasing ridership through an app-based delivery system. South Placer Express will use zero emission battery electric buses to provide enhanced transit opportunities for Roseville and South Placer County for residents traveling to key regional destinations such as the Galleria, local medical locations, and Light Rail.

Fleet is implementing a fleet electrification plan to identify infrastructure and resources needed to transition the City's fleet to zero emission. Zero-emission vehicles, sedans, and commuter buses will help the city improve air quality and reduce our impact on the environment while remaining fiscally responsible.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in aging infrastructure

Facility Services takes a proactive approach to preventative maintenance in an effort to protect the City's investment in its buildings and structures. The robust program reduces downtime and unplanned high-cost repairs. The 10-year Asset Rehabilitation Plan is a practical approach to keeping the City's facilities in exceptional condition.

Fleet Services manages the replacement cycle of city vehicles and uses a variety of factors to determine the optimum time to invest in replacement equipment.

Department Operating Budgets

Street Maintenance is an industry leader with its state-of-the-art proactive resurfacing program. They maintain the pavement on over 500 centerline miles of roadway and 36 miles of off-road multi-use trails with City crews placing more than 268,000 square feet of pavement and 195,000 linear feet of crack seal to prolong the life of city streets.

Engineering works with Street Maintenance to design and manage the construction of roadway and multi-use trail resurfacing projects. Resurfacing of roadways and multi-use trails is a preventative maintenance technique to protect the City's investment keeping roadways and trails in good condition.

Engineering and Street Maintenance are constructing roadway projects to improve intersection safety and accessibility for bicyclists and pedestrians while reducing vehicle emissions and mitigating traffic concerns.

Alternative Transportation, in coordination with Fleet Services and Purchasing Divisions, manages the replacement of transit vehicles per the Short Range Transit Plan.

Roseville Transit purchased the City's first five Zero Emission Buses and obtained almost \$700,000 in competitive grants to help pay for the purchase.

Strategy: Improve traffic circulation, capacity, operations, and enforcement

Engineering manages the City's Intelligent Transportation System (ITS) monitoring conditions in real-time to respond to traffic circulation concerns as they develop. Staff proactively reviews and updates traffic control devices to improve vehicle, bicycle, and pedestrian circulation.

Engineering also manages the design and construction of roadway Capital Improvement Program (CIP) projects that improve the capacity, operations, and safety for all modes of travel. Current examples include Roseville Parkway Extension, Roseville Parkway widening near the mall, Pleasant Grove widening between Foothills and Woodcreek Oaks, All America City Roundabout, and the Vernon Street Roundabout.

Department Operating Budgets

Key Performance Measures

Roseville Transit

Goal	Invest in well-planned infrastructure and growth			
Strategy	Improve traffic circulation, capacity, operations, and enforcement			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Passenger Trips	125,058	200,000	140,000	200,000
Passenger Trips per Vehicle Revenue Hour (VRH)	2.8	3.2	3.0	3.2
Farebox Recovery Ratio	8.9%	8%	9.5%	12%
Purpose	Roseville Transit provides an essential transportation service to work, shopping, and appointments for seniors, persons with disabilities, and lower-income residents. Roseville Transit also reduces air emissions and traffic by providing an alternate choice for commuters traveling to Downtown Sacramento.			
Status	<p>In FY2021-22, transit ridership continued to be below normal historic levels due to the COVID-19 pandemic. We anticipate that ridership will adjust upward in FY2022-23 as we make progress against the pandemic, but we anticipate that it will take several years for ridership to return to pre-pandemic levels.</p> <p>The past two years Roseville Transit has received pandemic-related stimulus funds from the federal government that support transit as an essential service, maintain pre-pandemic service levels to allow for on-board social distancing, and retain bus operator jobs. For FY2022-23, Roseville Transit anticipates receiving stimulus funds in the amount of \$1,174,792 from the American Rescue Plan Act (2021) (ARPA) and the Coronavirus Response and Relief Supplemental Appropriations Act (2021) (CRRSAA). Without these funds, Roseville Transit would likely have experienced additional service reductions.</p>			

Department Operating Budgets

Facility Preventative Maintenance Work

Goal	Invest in well-planned infrastructure and growth			
Strategy	Reinvest in aging infrastructure			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percent of preventive maintenance work orders completed in 30 days of assignment	96%	99%	98%	95%
Percent of health and safety work orders completed in 30 days of assignment	99%	100%	100%	100%
Purpose	Preventive maintenance is a proactive approach to protecting the City's investment in its facilities. Preventative maintenance will reduce downtime, unplanned high-cost repairs, and extend the life of City facilities. Health and safety work orders ensure that fire extinguishers, GFCI's (ground-fault circuit interrupter), and emergency lighting are working properly and ready for service when called on.			
Status	Preventive maintenance and health and safety work orders continue to be the baseline of operations. The Department's robust work order plan is an indicator of its success.			

Availability of City Vehicles

Goal	Invest in well-planned infrastructure and growth			
Strategy	Reinvest in aging infrastructure			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percent of preventative maintenance work orders completed on schedule	99%	98%	98%	99%
Percent of vehicles in service daily	92%	93%	95%	95%
Purpose	Preventive maintenance is a proactive approach to protecting the City's investment in its assets. Preventive maintenance reduces downtime, unplanned high-cost repairs, and extends the life of vehicles and equipment.			
Status	Preventive and scheduled maintenance continues to be the baseline of operations. The Department's success is measured daily by the number of vehicles in service.			

Department Operating Budgets

Pavement Street Maintenance

Goal	Invest in well-planned infrastructure and growth			
Strategy	Reinvest in aging infrastructure			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Pavement Quality Index (PQI) rating for City streets (Arterial/ Residential)	69/66	68/65	67/64	66/63
Purpose	Preventative maintenance on roads is the proactive approach to preserving and protecting one of the City's largest assets. Waiting until the road deteriorates is very costly and disruptive to the public.			
Status	The target PQI for arterial roadways is 72 and 65 for residential streets. Although the City does not have sufficient funds each year to apply preventative treatments to all of the roads that need it, the City keeps the roads in an overall GOOD condition with the funding available. Placing the proper treatment on the right road at the right time becomes even more critical when the budget is tight.			

Traffic Engineering

Goal	Invest in well-planned infrastructure and growth			
Strategy	Reinvest in aging infrastructure and improve traffic circulation, capacity, operations, and enforcement			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percent of traffic studies completed within three months	56%	80%	65%	70%
Percent of signalized intersections at Level of Service C or better	98%	90%	95%	95%
Purpose	Timely completion of traffic studies ensures the Department is responding to current conditions and making improvements where necessary. Maintenance of service levels for traffic signals provides improved traffic circulation and a higher quality of life for the community.			
Status	Continued engineering, traffic circulation monitoring and adjustments, and regular preventative and scheduled maintenance of transportation infrastructure continue to be the baseline of traffic engineering operations. The Department's success is measured by the high level of service at City intersections and responsiveness to traffic study requests.			

Department Operating Budgets

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Provide education and information at community meetings and regional transportation partnership meetings	50	60	50	60
Number of facility preventive maintenance work orders	2,865	3,100	3,075	3,100
Number of fleet work orders	7,849	8,000	8,100	8,000
Linear feet of crack fill on streets	392,000	338,000	400,000	400,000
Percent of "Free Mode" intersections re-timed	31%	33%	30%	33%

Budget Highlights

The Public Works Department's FY2022-23 budget totals \$55.4 million and provides funding to support 123 position allocations, including 5.50 new positions. The Public Works budget increased by approximately 11 percent over the prior fiscal year, from \$49.8 million to \$55.4 million. The majority of the increase is associated with additional staffing as well as an increase in fuel costs for City vehicles. The 21 percent increase in General Funds includes \$400,000 in additional funding for street maintenance.

The budget includes the resources necessary to support the following:

Optimizing Transit Operations

This coming year, Public Works staff will continue to re-examine the City's transit system, exploring new routes and services, and researching new ways to increase transit ridership. Four of the tools the Department plans to use to help with this process are updating the City's Short Range Transit Plan, testing a pilot project involving microtransit, starting a new express bus service pilot project called the South Placer Express, and beginning a Comprehensive Operational Analysis (COA) of the City's transit system.

Microtransit is a form of demand-responsive transportation similar to Uber Pool. Riders use an app or make a telephone call to request a ride. A City-owned vehicle will then be assigned to pick up the rider. The rider will be notified of the estimated pickup time, delivery time, and cost. The cost of the shared ride will be split between the few riders picked up on route to similar destinations and subsidized by Roseville Transit to make it affordable. The Department is in the early phases of developing the pilot project. More information will be made available through public meetings and outreach as the pilot project evolves.

The South Placer Express pilot project will be a new zero emission battery electric bus service running every 30 minutes in each direction between the City of Lincoln, the Galleria Mall, Sutter Hospital, Kaiser Hospital, and the I-80 at Watt Avenue light rail station.

The Comprehensive Operational Analysis will look at Roseville Transit in its entirety from routes to vehicles and re-design a system that will optimize ridership and costs to meet the needs of our community.

Prioritizing Graffiti Removal

As a part of the FY2022-23 budget, an additional \$100,000 in General Fund resources is proposed for Street Maintenance, which will allow staff to more quickly identify and remove graffiti throughout the City's roadways. In order to

Department Operating Budgets

meet the community's desire for graffiti removal, staff will hire multiple on-call contractors to respond to and remove graffiti on any City assets along the City's roadways with a target time period of 24 hours. This will not only reduce the impact of graffiti on our existing staff and their workload, but it will allow the City to send one crew to a graffiti location and remove all markings on assets operated by various departments rather than having each asset owner send out their own crews.

Staffing for Traffic Signal Maintenance

Over the past decade, the number of City street miles has increased by nearly 25 percent, and the City population has grown by 30 percent. These increases directly correlate to an increased number of traffic signals and other Intelligent Transportation System infrastructure that requires maintenance. An additional full-time Traffic Signal Maintenance Worker is included in the Public Works FY2022-23 budget to meet these demands.

Office Assistant Support Staff to Address Increasing Engineering Workload

Increases in street maintenance work, combined with aging infrastructure, have led to a significant increase in maintenance projects, traffic study requests, and the urgent need to construct many of our planned CIP's. In addition, there has been a proportionate increase in the number of invoices to process and paperwork to manage. The existing Engineering support staff resources are unable to keep up with the growing backlog. The budget includes converting a current temporary part-time Office Assistant to a regular part-time position in FY2022-23 to address these ongoing and increasing workload requirements.

Staffing for Additional Office Space

The Facility Services Division currently maintains, repairs, cleans, and rehabilitates 1.35 million square feet of City facilities. The first and second floors of 116 South Grant Street will add 20,000 SF in beginning May 2022. Additional maintenance workers and custodians are needed in order to maintain the City's investment in its facilities. The FY2022-23 budget includes the addition of one full-time custodian and a conversion of a temporary part-time Building Maintenance Worker to a regular full-time position to meet needs of our additional facilities.

Staffing for Additional Fleet Inventory Volume

The Fleet Services Division will add six additional Waste Services trucks within FY2022-23. The past two budget cycles have included an additional 53 vehicles and equipment, increasing the fleet by 5 percent. These fleet increases have led to additional preventative maintenance and repairs for the shop. Recent staffing analysis indicated that an additional mechanic is necessary to keep up with the increasing workloads. In addition, the Fleet Services Division is ramping up to meet the state's proposed Advanced Clean Fleet regulation, converting the City's fleet to zero emission for vehicles over 8,500 lbs. gross vehicle weight. This mandate is proposed to take place over the next five years. To meet these challenges, the FY2022-23 budget includes one additional Mechanic position.

Growing Fleet Requires Additional Management Support

As the City's fleet grows, additional mechanics and service workers are added to the budget to keep up with the vehicle and equipment maintenance demands. The addition of support staff has increased the existing Fleet Services Manager's span of control in excess of what is prudent. Therefore, the FY2022-23 budget includes the reclassification of an existing Parts Buyer position to a Management Supervisor in order to balance the workload for the existing two managers. The Parts Buyer position is recommended because they are already exercising an independent level of responsibility closely aligned with a management position. They review, order, approve payment, and stock a \$2 million inventory of materials needed to keep the City's fleet working.

Staffing Force Multiplier with Proposed New Project Coordinator for Street Maintenance

As the City continues to expand and age, the Street Maintenance backlog continues to grow. The current number of Street Maintenance Workers are no longer sufficient to meet the maintenance needs of the City. Rather than hire several additional staff, for the FY2022-23 budget, Public Works is requesting a new Project Coordinator position to hire a contract based

Department Operating Budgets

workforce to complete the numerous smaller maintenance projects that are currently not getting completed in a timely manner like replacing guardrail, replacing or updating signs and striping, small paving projects, fixing rod iron fences, and removing graffiti.

Budget Summary

Development Services Department

Development Services Department

Department Operating Budgets

Development Services Department

Overview of Services

The Development Services Department (DSD) evaluates and maintains development impact fee programs, provides long-range planning, reviews entitlements, and building permit applications, provides plan and map review, issues permits for buildings and infrastructure improvements, provides inspection services, and recommends acceptance of final maps and civil improvements to the City Council for all private land development projects. The Department also ensures public safety by enforcing local and state building and nuisance laws via code enforcement actions. Divisions of the Department and services offered include:

Building, Permit Center, and Code Enforcement

This division provides residents and members of the public with efficient and professional permit and development review services in a single location. It assists residents, businesses, and the development community with meeting minimum building code standards to safeguard life, health, property, and public welfare. This assistance accomplished by ensuring that design, construction, materials, use and occupancy, and location conform to the required building code provision and the City's health and safety standards.

Engineering - Land Development

This division ensures that the development of public and private infrastructure meets required City engineering standards, codes and policies through plan review and construction inspection, including compliance with the construction and post-construction site runoff elements of the City's Municipal Separate Storm Water System (MS4) permit. This division also provides City oversight of engineering-related items associated with long-range planning and development projects, traffic analysis, fee program development and administration, and supports engineering-related process improvements and fee analyses.

Planning

The Planning Division provides professional guidance and technical assistance related to planning law, environmental review, the City's General Plan, Specific Plans, and Zoning Ordinance to the City Council, Planning Commission, Design Committee, City Manager, and the public. The Planning Division implements and monitors City growth and development policies and accepts, processes, analyzes, and recommends action to the City's hearing bodies on development applications. It also acts on items such as Administrative Permits, Sign Permits, home-based businesses, and code enforcement complaints involving the Zoning Ordinance. This division provides environmental review and permitting for City projects and program, coordination and processing of Capital Improvement Projects (CIPs) and citywide specific plans.

Business and Administrative Services

This division provides organizational, technological, and business process support, and budget, administrative, and office support to all divisions of the Development Services Department. The division manages and supports the citywide permitting system (Accela Automation) and related development records and data, citywide base map and parcel data maintenance, and addressing and street naming administration. This division is also responsible for creating and maintaining GIS data and mapping products and distributing information regarding citywide development activities.

Accomplishments

- Filled multiple vacancies while also maintaining customer service levels and expectations amid record-level permit activity
- Recovered more than 75% of department operating costs through permit fees, development project billing, and other service fees
- Completed and obtained certification of the sixth cycle Housing Element from the state Department of Housing and Community Development

Department Operating Budgets

- Achieved state’s “Prohousing Designation” for housing-friendly policies, allowing the City and affordable housing developers to better compete for funding in state housing, community development, and infrastructure programs
- Initiated new specific plans for three aging commercial corridors on Atlantic Street, Douglas and Harding Boulevards, and Douglas and Sunrise Boulevards with the intent to streamline and incentivize redevelopment and increase opportunities for high-density residential development
- Completed the wind up and dissolution process for the Roseville Community Development Corporation, including distribution of remaining assets to the Successor Agency
- Hired and embedded a new code enforcement inspector with the Police Department’s Social Services Unit to assist with blight and nuisance issues stemming from unsheltered residents

Council Strategic Plan

Goal: Enhance economic vitality

Strategy: Prioritize completion of crucial commercial corridors

The Planning Division will complete the efforts launched last year to prepare separate but related specific plans for three aging commercial corridors: Atlantic Street, Douglas and Harding, and Douglas and Sunrise. The purpose is to streamline and incentivize redevelopment and increase opportunities for high-density residential development to pursue the City’s Regional Housing Needs Allocation (RHNA) target. The project includes a focus on the commercial properties along the roadway frontages, but is also evaluating a component of the surrounding residential areas to ensure compatibility among land uses and the creation of a cohesive and connected environment. The effort is projected to provide capacity for an additional 600 residential units and incentivize commercial reinvestment and redevelopment.

Staff is also partnering with Caltrans and Placer County Transportation Planning Agency (PCTPA) to provide enhanced landscaping and hardscape at several key interchanges and off-ramps on Highway 65 and Interstate 80.

Strategy: Support conditions that promote and retain retail, commercial, and industrial opportunities to include Baseline Marketplace

The Department will continue to efficiently, accurately, and rapidly approve applications for new non-residential development, and will prioritize plan review and approval of Baseline Marketplace construction documents once submitted.

Goal: Support community engagement and advocacy

Strategy: Increase outreach to and engagement with younger populations

The Department will continue its participation in the “Careers in Public Service Day” organized by the Institute for Local Government meant to showcase the spectrum of government careers to college, high school, and middle school students. Development Services will focus on aspects of building inspection, engineering, and utility inspection, as qualified candidates for those positions are becoming increasingly difficult to find.

Goal: Invest in well-planned infrastructure and growth

Strategy: Reinvest in core neighborhoods

The corridor planning project is focusing on opportunities for re-investment in the Douglas Boulevard/Harding Boulevard, Atlantic Street, and Douglas Boulevard/Sunrise Boulevard corridors.

Goal: Deliver exceptional City services

Strategy: Explore ways to strengthen code enforcement efforts, including graffiti and blight abatement

Development Services will explore alternative models for graffiti response and abatement, including consolidating the number of departments responsible for responding to complaints and use of contract services for cleanup efforts.

Department Operating Budgets

Key Performance Measures

Building Plan Review & Inspection

Goal	Deliver exceptional city services Enhance economic vitality Invest in well-planned infrastructure and growth			
	FY2020-21 Actuals	FY2021-22 Target	FY2021-22 Projected Actuals	FY2022-23 Target
Overall permit process (average number of business days in City possession versus the total number of business days to process)	39%	50%	40%	50%
On-time inspection performance (completion of daily scheduled inspections)	99%	97%	98%	97%
Permits issued within five business days	48%	50%	54%	50%
Over-the-Counter (OTC) permits issued same day	46%	50%	54%	50%
Overall plan review performance (meeting published turnaround times)	81%	90%	95%	90%
Purpose	Prompt turnaround times on plan review and response to inspection requests furthers economic development objectives by facilitating investment in the community. Plan review and inspections ensure safe and sound structures for human occupancy.			
Status	The Department continues to see sustained increases in plan submittals during the current development boom, while plan review staff resources remained static. Despite the increase, internal efficiencies and process improvements have allowed the Building division to achieve its turnaround targets 95 percent of the time. The percentage of inspections performed within 24 hours has also remained consistent with a five-year average exceeding 97 percent. Operational changes stemming from the COVID-19 stay-at-home orders, such as paperless processes, video conferences with customers, and vehicle take home, increased inspection efficiency by more than 30 percent. All of these changes have been made permanent.			

Department Operating Budgets

Code Enforcement Activity

Goal	Maintain a safe and healthy community Enhance economic vitality Invest in well-planned infrastructure and growth			
Strategy	Explore ways to strengthen code enforcement efforts, including graffiti and blight abatement			
	FY2020-21 Actuals	FY2021-22 Target	FY2021-22 Projected Actuals	FY2022-23 Target
Initial response to code complaint within two business days	96%	95%	96%	95%
Initial inspection within five business days	79%	80%	90%	80%
Code Enforcement cases resolved within 30/60/90 days	68%/83%/88%	60%/70%/75%	80%/93%/97%	70%/80%/85%
Purpose	Efficient code enforcement activities help maintain quality of life by preserving and enhancing the appearance of the community and abating dangerous conditions or other nuisances in violation of the Municipal Code.			
Status	As the City grows, inspector caseload continues to increase, and additional staffing will be necessary to maintain service levels as the City continues to grow or if directed to take a more proactive posture. The Code Enforcement division added one FTE position and one 1,500-hour inspector in FY2021-22. The full time position has been embedded with the Police Department to respond to homeless camp cleanups and related blight issues. This program has already proven highly successful.			

Department Operating Budgets

Engineering Plan Review, Inspection, and Transportation Planning

Goal	Deliver exceptional city services Enhance economic vitality Invest in well-planned infrastructure and growth			
	FY2020-21 Actuals	FY2021-22 Target	FY2021-22 Projected Actuals	FY2022-23 Target
Overall permit process (average number of business days in City possession versus total number of business days to process)	59%	50%	55%	50%
Over-the-Counter (OTC) Encroachment permits issued same day	91%	90%	87%	90%
Overall plan review performance (meeting published turnaround times)	68%	80%	77%	85%
Purpose	Thorough plan review and inspection of public improvements help prevent significant future maintenance costs to taxpayers and utility ratepayers by ensuring infrastructure is installed to City specifications. These services are also important to ensure the safety of the motoring public through proper roadway funding, design, and construction. The division coordinates over \$1 billion in local and regional fee programs that help facilitate local development and ensure long-term infrastructure, health and safety issues are addressed.			
Status	The year-over-year percentage of plans/maps reviewed within four weeks improved from last year's 68 percent to 77 percent but was below the Department's FY2021-22 target of 80 percent as a result of heavy sustained workload with no additional staff resources. Plan review volume is expected to be the same or higher in FY2022-23 as the three primary new growth areas in West Roseville continue to build out. The Department will study and implement new efficiency measures as necessary in FY2022-23 to improve performance in this goal area.			

Department Operating Budgets

Current and Long-Range Planning Activities

Goal	Enhance economic vitality Support community engagement and advocacy Invest in well-planned infrastructure and growth			
Strategy	Support conditions that promote and retain retail, commercial, and industrial opportunities to include Baseline Marketplace. Prioritize completion of the long-field sports park complex and crucial corridors			
	FY2020-21 Actuals	FY2021-22 Target	FY2021-22 Projected Actuals	FY2022-23 Target
Overall permit process (average number of business days in City possession versus total number of business days to process)	67%	60%	68%	60%
Over-the-Counter (OTC) Home Occupation permits issued same day	96%	95%	97%	95%
Overall plan review performance (meeting published turnaround times)	54%	50%	77%	75%
Purpose	Well-planned development is necessary to ensure attractive, orderly growth and long-term financial viability. The number of planning applications is a leading indicator of the City's growth. Participation in regional planning and policy efforts serves to ensure the Roseville community's interests are represented.			
Status	Development applications processed by the Department continue to exceed estimates, signaling sustained growth within the City. Department staff attends an increasing number of state/regional and county coordination meetings to advocate for the City on behalf of the Roseville community. Staff launched the corridor planning project in FY2020-21 with the goal of completing this work in the FY2022-23 budget year.			

Department Operating Budgets

Citywide Permitting, GIS Basemap, Addressing, and Street Naming Support

Goal	Maintain a safe and healthy community Deliver exceptional city services Remain fiscally responsible in a changing world			
	FY2020-21 Actuals	FY2021-22 Target	FY2021-22 Projected Actuals	FY2022-23 Target
Percent of address change requests processed within seven days	89%	90%	84%	90%
Percent of requests for service completed by established due date	85%	90%	87%	90%
Purpose	The Development Services Department maintains the citywide basemap and manages addressing and street naming on behalf of the City. Complete accuracy is critical to providing effective, life-saving emergency response, utility billing, and various other City services. The Department also supports and maintains the City's enterprise permitting and electronic plan review systems and performs required annual reviews of all active development agreements.			
Status	The complexity and volume of service requests received and processed by the Business and Administrative Services Division remain high, exceeding its capacity to meet the growing demand for services. After several attempts, the Division hopes to fill its remaining allocated business analyst to help meet demand.

Department Operating Budgets

Budget Highlights

The Development Services FY2022-23 budget totals \$18.2 million and provides funding to support 74 position allocations, including one new position. The Development Service budget increased by approximately 4 percent over the prior fiscal year, from \$17.6 million to \$18.2 million. The majority of the increase is associated with increases in internal service funds, fuel and fleet costs, as well as an addition of a new position in Code Enforcement. The budget includes the following highlight:

Code Enforcement

The budget includes funding to add one full-time Code Enforcement Inspector I/II position. Development Services will assume responsibility for graffiti abatement from the Police Department in FY2022-23. This Code Enforcement position will be charged with proactively monitoring the City for graffiti, fielding public graffiti complaints, and managing the contract of a third-party vendor tasked with cleanup on public property. This position will also proactively enforce signage and other general blight issues.

Department Operating Budgets

Electric Department

Overview of Services

Roseville Electric Utility is a community-owned utility that provides safe, reliable, and affordable electricity to Roseville residents and businesses. Our employees are regularly recognized by state and national organizations for our high service levels, customer satisfaction, and innovative programs. The utility provides electric service to the approximate 43-square mile service territory with dedicated employees, who provide a variety of services. There are three major strategic operating business units:

Resources & Generation:

- Provide power portfolio management services.
- Operate and maintain the utility's two natural gas power plants and California Department of Water Resources (CDWR) two generation peaking units.
- Maintain and enhance the proprietary control systems for the power plants and the electric distribution system.

Electric Engineering & Operations:

- Construct, operate, and maintain the electric distribution system and streetlights.
- Plan, design, and assist with the construction and rehabilitation of the electric distribution system and streetlights.
- Ensure the utility complies with risk management policies and federal, state, regional, and local regulatory requirements.

Customer & Government Relations:

- Responsible for the utility's customer service function, including providing energy efficiency and education programs for residential and business customers.
- Monitor and engage in legislative and regulatory matters impacting the electric utility, provide advocacy and collaboration with coalition partners.
- Oversee the marketing and communication activities for the electric utility, including outage communication and community engagement.
- Develop and maintain business relationships with the utility's key accounts and support economic development and business retention.
- Responsible for billing and collecting utility services for electric, water, wastewater, and waste service. Services include processing of new services, transfers, payments, delinquency disconnects, and meter reading.
- Provide direction in the configuration, design, and deployment of upgraded meter systems.
- Responsible for budgeting, financial planning, load forecasting, pricing, and customer data management.

Accomplishments

- California Arrearage Payment Program (CAPP) Implementation – Provided \$0.5 million in assistance under the California Department of Community Services and Development CAPP to help pay customer's past due electric utility bills that accrued during the COVID-19 pandemic
- Build-out of the Legacy Building – Built-out first and second floors and moved customer and government relations staff into the building. This new location will allow the Electric Department to create a "one stop" shop for customers

Department Operating Budgets

engagement, bringing together our customer service teams to enhance customer service, access, as well as program demonstration and education

- Sited two generation peaking units at Roseville Energy Park – Partnered with the CDWR to permit and site two temporary generation peaking units at Roseville Energy Park. The installation of additional generating capacity will be used to support the state’s electricity grid and enhance reliability in the months and years ahead
- Electric Dispatch Center Modernization - Completed major upgrades to improve dispatch center operations. Improvements included: replacing paper wall maps with video walls to integrate the new outage communication system; major structural improvements to increase efficiency, including new dispatcher consoles, upgraded lighting, fire protection and heating, ventilation and air conditioning systems, and other improvements to distribution system operations
- Electric Rate Case – Successfully advocated and implemented the first proposed base electric rate increase in seven years. The approved increases will go into effect in January 2022 and January 2023

Council Strategic Plan

Council Goal: Remain fiscally responsible in a changing world

Strategy: Balance utility services, unfunded legislative mandates, costs and customer rates

The 2023 Integrated Resource Plan (IRP) - Roseville Electric Utility will commence development of the 2023 IRP, which is an assessment of the future electric needs and a plan to meet those future needs. The plan is “integrated” in that it looks at both demand side (energy efficiency, demand response, conservation, etc.) resources as well as the supply side (distributed generation, self-generation, and purchase power) resources in making its recommendations on how best to meet future electric needs.

Generation Upgrades - The utility will be upgrading its generation facilities (Roseville Energy Park and Roseville Power Plant II) to complete necessary rehabilitation and modernization efforts to improve site reliability and extend the asset life.

Meter Upgrade Project - Along with Environmental Utilities, Roseville Electric Utility is currently in the midst of a multi-year project to upgrade all the meters in the City. This upgrade will allow the utility to access more granular information about customers’ usage and enable us to offer new products and services such as time-of-day rates and new customer programs. The project plans to install test meters in August 2022, complete system testing by December 2022, followed by full deployment of meter installations citywide.

The 2024 Electric Rate Case - Consistent with our typically biennial financial review, the department will consider 2024 rate adjustments in light of emerging economic risks and power supply costs. If necessary, this will include the preparation and delivery of a formal electric rate review to recommend any rate adjustment(s), ensuring sufficient revenues to meet financial obligations and maintain compliance with the City Council adopted financial policies.

Council Goal: Maintain a safe and healthy community

Electric Vehicle Program and Campaign - Continued expansion of the utility’s electric vehicle program and campaign to prepare for growing numbers of electric vehicles in the community. The program includes incentives and education for the community regarding buying and owning an electric vehicle. Additional electric vehicles help reduce local emissions and improve air quality. This effort will also include accessing and preparing for electric system impacts from increased electric vehicle adoption to understand capacity needs and customer usage patterns.

Building Electrification - California’s 2045 carbon neutrality goal requires Roseville Electric Utility to be forward-thinking and prepare for a carbon-free economy. The transition towards building electrification is a high priority for the state legislature and regulatory agencies and involves substituting gas end-uses for high-efficiency electric end-uses. Roseville Electric Utility is working to understand and prepare for the system impacts of building electrification through new residential and commercial customer programs.

Department Operating Budgets

Council Goal: Deliver Exceptional City Services

Safety Program - Roseville Electric Utility is committed to a Department Safety Plan that serves as the foundation for a safe and healthy work environment. To advance our commitment to safety, our Department Safety Program will continue to be subjected to a “continuous improvement process” that focuses on obtaining the full commitment of management, staff, and resources.

Final build-out of the Legacy Building – The Department will build-out floors 3 and 4, finalize space planning needs, and facilitate move-in for the remaining departments and/or functions to be located in the new building.

Key Performance Measures

Distribution System Reliability

Goal	Deliver exceptional city services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Average Outage Length (minutes per customer, per year)	6.11	< 15	< 20	< 20
Average Number of Outages (per customer, per year)	0.07	< 0.20	< 0.25	< 0.20
Average Response Time (minutes)	25	< 30	< 30	< 45
Purpose	Providing safe and reliable power to customers and responding quickly in the event of an unplanned outage are operational priorities. The three metrics measure how many minutes the average customer is without power in a year, how many times the average customer is without power in a year (numbers less than one mean less than one outage per customer per year), and how quickly crews respond to an outage.			
Status	Distribution system reliability metrics are on target.			

Department Operating Budgets

Safety

Goal	Maintain a safe and healthy community			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
OSHA Lost Time Cases	1	-	1	-
OSHA Modified Duty Cases	2	-	1	-
OSHA Other Recordable Cases	1	-	1	-
Vehicle Accidents	7	-	-	-
Purpose	Providing safe and reliable power to customers and responding quickly in the event of an unplanned outage are operational priorities. The four safety performance metrics include OSHA (Occupational Safety and Health Administration) recordable incidents for lost time, modified duty, other recordable cases, and preventable vehicle accidents.			
Status	Safety metrics are on target.			

Generation Fleet Availability

Goal	Deliver exceptional city services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Availability*	73.3%	> 90%	> 98%	> 84%
Forced Outage Rate	2.24%	< 4%	< 2.25%	< 2.25%
Start Reliability	91.11%	> 95%	> 93%	> 93%
Purpose	The generation performance metrics evaluate the Roseville Energy Park against industry averages. The metrics measure its availability, how often it goes out of service, and how reliably it starts up when called.			
Status	Generation fleet availability metrics are on target.			

*Planned Major Outage in FY2020-21.

Department Operating Budgets

Customer Solutions & Programs

Goal	Maintain a safe and healthy community			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Low income, load control, energy efficiency, electric vehicle and solar rebates and program expense	\$2,758,002	\$4,449,000	\$3,500,000	\$4,730,438
Estimated energy savings (kWh)	10,936,000	11,070,000	11,070,000	11,024,000
Purpose	Public benefit programs help customers reduce their electric energy consumption, lower peak demand, invest in local renewable energy, and support low-income electric rate assistance. By California law, 2.85% of electric sales revenue is set aside for Public Benefits programs. The metrics track fiscal year spending and how much energy customers will save due to these programs when installations are completed.			
Status	Customer Solutions & Program metrics are on target.			

Financial Strength

Goal	Remain fiscally responsible in a changing world			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Debt Service Coverage Ratio	2.97	2.00	2.79	2.18
Days Cash on Hand	469	> 250	460	415
Bond Rating	AA	AA-	AA	AA
Purpose	Council adopted financial targets for debt service coverage ratio, days cash on hand, and bond rating to maintain the lowest cost liquidity and flexibility to enable the organization to achieve its operating goals.			
Status	Financial Strength metrics are on target.			

Department Operating Budgets

Customer Relationships

Goal	Deliver exceptional city services			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Average Speed of Answer (seconds)	1:04	1:30	1:15	1:30
Average Handle Time (seconds)	5:00	3:50	4:30	4:20
Billing Accuracy	99.62%	99.8%	99.8%	99.8%
Purpose	Building and maintaining strong customer relationships is an organizational priority. The three metrics measure how quickly a customer's call is answered, how quickly a customer's call is handled from start to finish, and the percentage of customers billed accurately.			
Status	Customer Relationship metrics are on target.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Debt per Retail Customer	\$2,582	\$2,433	\$2,392	\$2,253
Cost of Goods Sold (COGS) per kWh	\$0.052	\$0.057	\$0.057	\$0.066
Total O&M less F&PP per Retail Customer	\$1,029	\$989	\$949	\$1,077
Distribution O&M per Retail Customer	\$261	\$256	\$270	\$326
Distribution O&M per Circuit Mile	\$17,491	\$17,498	\$18,454	\$22,598

Budget Highlights

The Electric Department's FY2022-23 budget totals \$144 million and provides funding to support 197.25 position allocations, including 3.5 new positions. The Electric Department's budget increased by 15 percent over the prior fiscal year, from \$125.3 million to \$144 million. The majority of this change is attributable to \$12.8 million of increasing fuel and purchase power costs, while the remainder is associated with labor, materials, supplies, and services costs. The budget includes the following highlights:

Electric Assistant/Associate Analysts

The budget includes authority for an additional Electric Assistant/Associate Analyst to maintain an accurate accounting of electric assets in service, construction in progress, and inventory, while applying GASB and FERC accounting principles. Also an additional Electric Assistant/Associate Analyst position is included in the budget to support the Utility Billing team. The position will complete data analysis, troubleshoot systems using SQL, and write and maintain Cognos reports. There is a significant need for reports in the Utilities that cannot be fulfilled with current staffing. This position will assist

Department Operating Budgets

with our CSS and web based applications and the integrations with said applications. The position will also maintain and troubleshoot a variety of utility databases related to department operations, such as Oracle, SQL server, and web host software.

Customer Service Specialist

An additional Customer Service Specialist is included in the budget to assist with Cayenta updates/upgrades and AMI/Maximo integration testing. The amount of system testing required between Cayenta/AMI/Maximo has increased significantly. Individual development/updates/upgrades in any of these applications frequently requires testing of all three systems.

In addition to systems support, this position will process delinquent and bad debt accounts, notifications, transactions to third party collection agencies, processes within the system, and general ledger transactions.

Administrative Technician

The budget increased an existing 0.5 Full Time Equivalent (FTE) Administrative Technician position to 1.0 FTE position in Utility Billing. This position will assist with administering contracts, the citywide financial system, requests for proposals, and budget development and monitoring.

Balanced Budget:

- Prioritizes funding of essential services
- Rate Stabilization Fund Transfer
- Compliance with financial policies and metrics

Prudent investment in infrastructure and technology:

- Legacy Building build-out and move-in
- Meter upgrade project

Focus on new revenue opportunities:

- Electric vehicles and charging
- Building electrification

Assumes base rate increases:

- Approved January 2023 base rate increase
- Estimated hydroelectric surcharge

Budget Summary

Positions by Division/Program

Full Time Equivalent (FTE) Positions	FY2020-21 Actual	FY2021-22 Adopted	FY2021-22 Amended	FY2022-23 Budget	FY2022-23 Change	FY2022-23 Change (%)

Department Operating Budgets

Environmental Utilities Department

Overview of Services

Roseville's Environmental Utilities (EU) Department is a progressive group of utilities that serves the public in environmentally-friendly and fiscally-responsible ways. EU provides four primary utility services (water, wastewater, recycled water, and waste services) to 47,000 accounts, manages the stormwater quality program, and co-manages the Utility Exploration Center with Roseville Electric Utility.

Administration and Technical Services

EU administration and technical services provides leadership and support services for the utilities and coordination within the department. These groups include engineering, safety, data management (GIS and enterprise asset management), business services (utility rate development, budget, accounting, and reporting), and public information and outreach.

Water

The water utility provides safe, reliable, and high-quality potable water service. To ensure reliable drinking water distribution, the water utility operates a 100-million gallon-per-day water treatment plant; maintains nearly 700 miles of pipes, more than 5,300 hydrants, and several potable water tanks that provide several millions of gallons of storage capacity; and manages a growing aquifer storage and recovery (ASR) groundwater program. Additionally, the water utility oversees the department's government relations program, implements water efficiency programs, and is focused on further increasing the City's long-term water supply reliability.

Wastewater/Recycled Water

The wastewater utility collects and treats wastewater for Roseville and its regional partners (South Placer Municipal Utility District and Placer County) and is a regional provider of recycled water for areas in the City and Placer County. In addition, this utility maintains wastewater and recycled water infrastructure within the Roseville city limits and operates two regional wastewater treatment plants.

Waste Services

The waste services utility collects, recycles, and disposes of more than 140,000 tons of refuse annually, including solid waste, green waste, organics, and household hazardous waste for residential and commercial customers. The waste services utility also oversees the maintenance of the closed Roseville Sanitary Landfill and manages the City's stormwater quality program, a state-mandated program supported by the General Fund.

Utility Exploration Center

The Utility Exploration Center (UEC) is an interactive museum managed jointly by EU and Roseville Electric Utility that educates the public on City efforts to use water and energy efficiently, reduce waste, and protect watersheds. UEC staff also conduct special events and outreach programs to connect Roseville residents and business owners with their City utilities.

Accomplishments

- Completed a comprehensive water infrastructure rehabilitation in the Hillcrest neighborhood, one of Roseville's core neighborhoods
- Banked 215 acre-feet of non-storable surface water from Folsom Reservoir in Roseville's groundwater basin using our ASR groundwater well system in early 2022 following a series of late 2021 storms; this water would have otherwise flowed into the Pacific Ocean
- Continued development of significant water infrastructure projects, including the West Side Tank and Pump Station project, two additional ASR groundwater wells, and improvements to water interties and pump stations

Department Operating Budgets

- Initial development of a joint conveyance project between the City and Placer County Water Agency (PCWA) to develop additional access to water supplies upstream of Folsom Reservoir for greater future water supply reliability
- Successfully implemented drought mitigation efforts to prepare for a multi-year drought: identification and ongoing implementation of emergency drought infrastructure projects (intertie upgrades and two additional ASR groundwater wells) as well as the implementation of demand-management strategies (water efficiency programs and enforcement of water conservation measures) and other measures to prepare for a possible third year of drought
- Delivered 3,798 acre-feet of recycled water to customers inside and outside of the City, saving 3,798 acre-feet of potable water
- Removed nearly 20 million pounds of contaminants from six billion gallons of wastewater
- Beneficially used 11,500 tons of Class B biosolids generated by the Dry Creek Wastewater Treatment Plant, avoiding landfill disposal
- Partnered with the Roseville Coalition of Neighborhood Associations (RCONA) to plan five neighborhood clean-up events in Spring 2022
- Converted 20 percent of the Waste Services frontline fleet to compressed natural gas (CNG)
- Conducted two pilot studies to determine the best implementation approach for a citywide organics program
- Developed a campaign tied to SB 1383 and food waste recycling including a communication campaign and the development of FoodForSoil.org to highlight the upcoming changes to state law regarding organics disposal and the potential effects on the City's residents and businesses
- Created a new procurement policy (approved by Council) to meet SB 1383 requirements for recovered organic waste: the City must annually procure a minimum amount of recovered organic waste products (achieved through a combination of compost, mulch, biomass derived electricity, and/or renewable gas) and must procure recycled paper products when there is comparable or more favorable pricing and quality
- Supported the region's annual medication take-back day in October 2021, collecting more than two short tons of unwanted or expired medication, which helps to keep our environment safe and healthy
- Maintained UEC online offerings in response to the ongoing pandemic, including virtual field trips and Big Trucks Summer activities, gardening and energy-efficiency webinars, and downloadable elementary school plans
- UEC staff developed and distributed free science materials for second and third grade Roseville classes and Traveling Trucks for fourth and fifth grades, as well as presented an in-person field trip for kindergarten and first grade

Council Strategic Plan

Goal: Maintain a safe and healthy community

EU operates more than \$2 billion worth of critical infrastructure, including water and wastewater pipelines, pumping stations, storage tanks, and wastewater and water treatment facilities. These assets exist primarily for public health and safety. EU proactively and consistently performs preventive maintenance on this infrastructure to deliver water and treat wastewater to serve and protect the community and the environment. The EU maintains community cleanliness through high-quality refuse collection and disposal services with this same philosophy.

The water utility is continuing significant efforts to improve the reliability of Roseville's water supply. Examples include:

- Rehabilitation of the water distribution infrastructure in the downtown area and surrounding core neighborhoods
- Ongoing repair and rehabilitation of critical ageing water infrastructure, including the Barton Road Water Treatment Plant, ASR groundwater wells, and other vital assets

Department Operating Budgets

- Continued investments in water infrastructure security and resilience to prepare for current and future challenges
- Expansion of the ASR groundwater program with the design and construction of up to six new ASR wells to further diversify our water supply and keep pace with upcoming demand
- Collaboration with PCWA to build additional potable water conveyance infrastructure to establish alternative access to PCWA water supplies that are not dependent on Folsom Reservoir

The wastewater utility continues to collect and treat wastewater from not only Roseville, but regionally. Continued efforts include:

- Investment in the rehabilitation of our neighborhood sewer systems as well as at the two wastewater treatment plants
- Collaboration with our regional partners to stay ahead of new development and plan infrastructure with a focus on long-term maintenance and reliability
- Proactively looking to the distant regulatory future to avoid costly reactive changes to operations

Goal: Deliver exceptional City services

EU strives to operate facilities and programs that are the most reliable in the state. Our water, wastewater, and waste services utilities operate 365 days a year in all conditions to serve the residents and businesses of Roseville.

Additionally, EU is always looking to provide new “value-added” services for its customers, such as conducting water-wise house calls, engaging commercial customers one-on-one with recommendations on conserving water and saving money, and the recent expansion of the Household Hazardous Waste (HHW) collection program to include additional items. In 2020, Waste Services implemented a curbside HHW collection program for approximately 9,000 residential customers with the intent to roll the program out citywide incrementally. Due to COVID, the citywide implementation was put on hold. Waste Services now plans on completing the expansion in FY2022-23.

In partnership with Roseville Electric Utility, EU is implementing the Advanced Metering Infrastructure (AMI) project to upgrade all the meters in the City. When operational, the utilities will automate the meter-reading process allowing staff to access more granular information on customers’ usage. This information will enable EU to discover and resolve issues more quickly and determine new products and services, such as better water efficiency programs. AMI can also empower customers to make better choices, including how to control costs and conserve water. The current plan is to install up to 500 AMI water meters for beta testing and to complete parallel system testing by mid-2023.

Goal: Invest in well-planned infrastructure and growth

Strategy: Increase funding for CIP rehabilitation to prevent erosion of infrastructure

To keep pace with a growing Placer County, EU is leading the effort to expand the Pleasant Grove Wastewater Treatment Plant. This regional facility cleans wastewater for the City of Roseville, South Placer Municipal Utilities District, and portions of unincorporated Placer County. This effort will increase treatment capacity to help meet future demands and build a waste-to-energy plant to produce electricity for onsite use and compressed natural gas to fuel our garbage truck fleet. Project completion is expected around June 2023.

The wastewater utility is continuing its efforts to rehabilitate existing collection system pipe infrastructure that has been identified through EU’s inspections. The pipelines will be rehabilitated using a fiberglass liner that is cured using ultraviolet light, allowing inspection cameras to fit within the smaller diameter rehabilitated pipe. Pipelines with bends or other issues not allowing for the fiberglass lining will be rehabilitated using steam-cured felt liners.

In partnership with Public Works, EU will continue replacing water main segments and related infrastructure that has surpassed its predicted life in Roseville’s core neighborhoods, including Roseville Heights in 2024. Additionally, the water utility will improve several elements of the water distribution system in downtown Roseville and rehabilitate the reclaim basin at the Water Treatment Plant and several of the City’s water mains.

Department Operating Budgets

Goal: Remain fiscally responsible in a changing world

Strategy: Balance utility services, unfunded legislative mandates, costs, and customer rates

EU consistently works to optimize its services, ensuring that Roseville customers enjoy some of the lowest utility rates in the region. Every two years, EU performs a rate case analysis on its water, wastewater, and waste services utility rates to ensure its operations, reserves, and rehabilitation costs are adequately funded. Since EU must adhere to Proposition 218, its rates reflect the cost of service. EU maintains an operating reserve and a rate stabilization reserve for each utility to help manage fluctuations in revenue or economic shocks. Rehabilitation funding based on modeling the timing of maintenance and repairs is funded by contributions from the operating fund resulting in steadier rate increases. This proactive approach to asset rehabilitation, coupled with a continuous review of service costs, ensures EU's consistent and reliable utility services.

Goal: Support community engagement and advocacy

Strategy: Remain focused on community engagement and education about City services and the budget

The UEC exhibits are getting an overhaul as they've exceeded their operational lifespan and several components are no longer functional. The aging exhibits diminish visitor experience and learning opportunities. The design consultant is coordinating with the utilities to develop exhibits that will help UEC staff share Roseville's many new educational mandates and initiatives with the community. Expected date of completion is December 2023.

EU's public information and outreach program actively educates and engages customers on programs, projects, and services and communicates ways to reduce impacts on the utility systems and the environment using a multi-faceted communication approach. Staff conducts public opinion research every other year for all utility services to understand customer sentiment. This data is used to create communication strategies to build awareness, communicate projects and programs, and conduct targeted outreach. Additionally, EU works with the UEC to develop educational opportunities for all ages that pair environmental messages with hands-on learning and educational curriculum tied to education standards to build awareness, understanding, and appreciation of Roseville utilities and the broader environment.

Legislative and regulatory actions at the state and national levels affect how local governments deliver services and at what cost. To ensure EU can continue to provide high-quality, cost-effective services, EU's government relations staff identify and track legislative and regulatory issues that impact EU operations, recommend positions on state and federal proposals, and advocate for laws and policies that would protect and enhance the Roseville community. With significant funding opportunities available in FY2022-23, EU staff will work to identify and secure outside funding to provide greater value and increase infrastructure reliability.

Key Performance Measures

Fiscal Strength

Goal	Remain fiscally responsible in a changing world			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Water bond rating*	AA	AA-	AA	AA
Water utility debt ratio	9.66%	30.0%	30.0%	30.0%
Wastewater utility debt ratio	6.97%	33.0%	33.0%	33.0%
Purpose	Maintaining water bond rating and debt ratios is critical for future bond offerings. As the City continues to grow, issuing bonds is a viable strategy to build infrastructure and pay off debt with continued connection fees. Maintaining EU's overall fiscal health ensures cost-effective operations, fully funded rehabilitation programs, healthy reserves, and regionally competitive utility rates.			
Status	EU has been steadily maintaining its fiscal health and adjusting rates annually to keep pace with inflation per City Council direction. EU continues contributing to reserves to meet our fiscal policies.			

*S&P Global Ratings raised this from AA- to AA on April 2, 2021.

Waste Diversion

Goal	Maintain a safe and healthy community			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Disposal per capita per day (pounds)	4.8	4.9	4.9	4.9
Purpose	The City's recycling, green waste, and organics programs divert significant waste from landfills. The state-mandated per capita metric (8.9 pounds per person per day) is to ensure jurisdictions comply with diversion requirements.			
Status	The City is meeting the state mandate by staying significantly below the disposal per capita target—this shows the City is fulfilling the mandate.			

Department Operating Budgets

Effectiveness of UEC programs

Goal	Support community engagement and advocacy			
	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Percentage of teachers rating programs as “good” to “excellent”	n/a (COVID closures)	85% (COVID recovery)	94% (COVID recovery)	90% (COVID recovery)
Purpose	Providing effective school programs will help to build strong resource conservation awareness for the citizens of tomorrow.			
Status	In FY2020-21, the UEC embarked on rewriting its entire school program offering for Roseville schools. In FY2021-22, the UEC maintained its virtual field trips for second and fourth grades and added an in-person field trip for kindergarten and first grade. The UEC is currently working with teachers to plan its program format for next year and look forward to providing more in-person opportunities as COVID restrictions lessen.			

Key Workload Measures

	FY2020-21 Actuals	FY2021-22 Initial Estimate	FY2021-22 Revised Estimate	FY2022-23 Estimate
Water production (acre feet)	31,371	31,375	31,302	31,703
Wastewater treated (gallons)	6,300 million	6,200 million	6,498 million	6,450 million
Recycled water delivered (gallons)	1,140 million	895 million	1,237 million	1,259 million
Solid waste collected (tons)	139,700	141,000	145,000	149,000
Number of UEC visitors	3,747 (COVID closures)	5,000 (COVID closures)	15,000 (COVID restrictions)	20,000 (COVID recovery)

Budget Highlights

The EU FY2022-23 budget totals \$96.6 million and provides funding to support 276 position allocations, including a net of six new positions. The EU budget increased by 5 percent over the prior fiscal year, from \$92.4 million to \$96.6 million. The majority of the increase is associated with labor, benefits, materials, services, and supply cost increases. The budget includes the following highlights:

Hiring staff to address growth and regulations

EU will be adding a net total of six new regular positions in FY2022-23 to address growth and regulations. The position adjustments included in the budget will be funded by utility rate revenue as well as the elimination of existing regular positions, temporary positions, and limited term positions. The water utility will be hiring a Senior Water Distribution Worker to manage the state-mandated meter-testing program coming with the implementation of AMI and a Water Distribution Worker to help the City meet industry standards related to maintaining water infrastructure. The wastewater utility has two new positions: a Wastewater Utility Maintenance Worker to repair and maintain collection and conveyance facilities and a Preventative Maintenance Technician to handle additional requirements resulting from the expansion of the Pleasant Grove Wastewater Treatment Plant. Waste Services requires a Refuse Maintenance Worker to handle an increase in service requests including HHW curbside collection and dumpster rentals and a Senior Refuse Truck Driver in

Department Operating Budgets

the Organic Waste Program to complete one route daily and provide leadership for one full crew. EU Technical Services will be hiring an Associate Engineer to assist with the growing workload of planning, designing, and constructing new utility facilities and a Management Analyst to support the financial management of this division.

Preparing for major organics management legislation

Waste Services continues to prepare compliance pathways to implement SB 1383 regulations. This law requires a 75 percent statewide reduction of organics disposal to landfills by 2025. This landmark change to the trash and recycling industry drastically alters Waste Services' business model. In FY2022-23, this means determining the path forward to meet the state mandate and providing additional public outreach.

Community Facilities Districts, Lighting and Landscaping Districts, and Service Districts

Overview

Lighting and Landscaping Districts (LLD)

The City of Roseville annually levies and collects special assessments to maintain authorized improvements within its eight Landscaping and Lighting Districts. The Districts are levied annual assessments pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code ("1972 Act").

Service Districts (SD)

These districts provide funding for the maintenance of the different special tax districts and zones. The perpetual maintenance may include public landscaping, landscape setbacks, street medians and corridors, bike trails, park and open space, wetlands, signage, and lighting improvements. The budget for these districts may include costs related to additional police protection, fire suppression, recreation programs, and library services created in areas of new developments.

Community Facilities Districts (CFD)

Infrastructure CFDs provide financing for the acquisition and construction of infrastructure improvements in the districts. Additional information on the use of funds and bonds is available on the City of Roseville website.

Budget Summary

The CFD/LLD/SD budget totals \$12.6 million. The budget decreased by 74 percent over the primary fiscal year, from \$48.3 million to \$12.6 million. The \$35.8 million decrease is due to the realignment of bond debt service payments to the debt service cost center.

Department Operating Budgets

Other Expenditures/Expenses

Overview

Budgeted expenditures/expenses that do not align with any particular operating department and that benefit the entire organization are budgeted in this category. The expenditures/expenses that fall into this category total approximately \$211.6 million in FY2022-23. This budget increased by approximately 72 percent over the prior fiscal year, from \$123.3 million to \$211.6 million. The primary factor contributing to this change is budgeting for \$63.4 million in State Revolving Fund loan proceeds reimbursements for the Pleasant Grove Wastewater Treatment Plant (PGWWTP) Expansion and Energy Recovery Projects; reimbursements received are then passed through to the South Placer Wastewater Authority (SPWA), where the projects exist. Another contributing factor is a \$5.1 million increase in regional connection fees collected by the City and distributed to the SPWA, a non-city entity.

Significant items budgeted in this category include:

- State Revolving Fund loan proceeds reimbursements for PGWWTP Expansion and Energy Recovery Projects received by the City and passed through to the SPWA (\$63.4 million)
- Regional connection fees collected by the City and distributed to the SPWA (\$20 million)
- California Energy Commission (CEC) grant for PGWWTP Energy Recovery Project; grant monies will be passed through to SPWA (\$3 million)
- Unemployment, vision and detail insurance (\$2.3 million)
- Leave payoffs for General Fund employees that retire during FY2022-23 (\$750,000)
- Pay down of CalPERS obligations by an additional discretionary payment (\$6 million)
- Other post-employment benefit (OPEB) payments for retired employees (\$9 million). These payments are reported twice in the budget to comply with accounting requirements: as disbursements from the fund from which the employee retired, and as disbursements from the OPEB Trust Fund
- Replacement pension benefit for retired employees (\$340,000)
- Annexation tax-sharing agreement payments to Placer County (\$9.9 million)
- Contingency budgets for the General Fund (\$2.6 million of which \$1.1 million is estimated for the January 1, 2023 labor market adjustments in the negotiated labor agreements), Waste Services Fund (\$500,000), Wastewater Fund (\$500,000), and Water Fund (\$500,000)
- Fees charged by the County for the collection and disbursement of property taxes (\$869,000)
- Indirect cost expenditure/expense reimbursements for general government departments (\$12.1 million)
- Debt service includes interest expense for inter-fund loans (\$278,000)
- Transfers between funds (\$70 million): operating transfers (\$66.3 million) and transfers for loan payments (\$3.7 million), including transfers from the General Fund:
 - \$1.2 million to General Fund Emergency Reserve Fund
 - \$1.4 million to General Fund Stabilization Reserve Fund
 - \$10 million to General Fund Capital Reserve Fund
 - \$8 million to General Fund Pension Reserve Trust Fund

Capital Improvement Program Overview

Capital Improvement Program Overview

The City of Roseville's Capital Improvement Program (CIP) includes projects related to the acquisition, design, construction, or expansion of an element of the City's infrastructure, including physical improvements such as streets, public buildings, public services infrastructure, and parks, among others, as well as equipment and technology infrastructure. The five-year CIP budget estimate is \$393 million, of which \$105 million is the funding request for FY2022-23. The current year's budget request represents a \$52 million increase in funding from the prior year. The areas of growth in the CIP in FY2022-23 include Parks Recreation and Libraries with \$23 million, followed by Waste Services at \$16 million, Public Works at \$6 million, Wastewater at \$5 million, and Roseville Electric at \$2 million. This year's CIP includes projects for which funding is yet to be identified for forecasting purposes. On the project page, these projects are presented with a "TBD - To Be Determined" funding source. The total funding to be determined for the five-year plan is \$36 million.

The projects presented in detail in this section are only those projects that include additional funding in the current or future budget years. Projects planned to start in the coming years have been identified as forecasted projects on the summary page of each CIP classification as applicable.

Since project budgets are approved on a total project basis, any unspent funds at the end of the fiscal year are carried forward automatically into the following year's budget. Existing projects with unspent budgets are listed in the existing projects section on the summary page of each CIP classification.

CIP budget sheets display general project information and include department, location, description, operating budget impact, the City Council Goal associated with the project and a summary timeline. The funding overview section of each project budget sheet summarizes the project's financial information, and the FY2022-23 and five-year plan sections provide project cost estimates by funding source for the City of Roseville's projects for FY2022-23 through FY2026-27.

Projects are classified as follows: Citywide Technology; Electric; General Government; Parks, Recreation & Libraries; Public Safety; Public Works; Waste Services; Wastewater; and Water.

The table titled "Capital Improvement Program Summary: FY2022-23 through FY2026-27" is a high-level view of the total project expenditures in each category of capital expenses over the next five years.

Capital Improvement Program

Audiolog Upgrade

PROJECT NUMBER 500233
CLASSIFICATION Citywide Technology
DEPARTMENT Information Technology Department
LOCATION Citywide

DESCRIPTION

This project provides funding to upgrade the current Audiolog system that supports Public Safety phone and radio dispatch recordings used by Police and Fire. The current version of the Audiolog system has reached end-of-life, and Microsoft will no longer support the Windows 2012 server platform after October 2023. This project includes software, implementation services, and hardware replacement.

Capital Improvement Program

Citywide Content Management System Replacement

PROJECT NUMBER 500234
CLASSIFICATION Citywide Technology
DEPARTMENT Information Technology Department
LOCATION Citywide

DESCRIPTION

This project provides funding to replace the City's current content management system (CMS) used for the City's website and intranet (Hub). The system has reached its replacement cycle end date and needs replacement to keep updated with the latest technology and information security protocols. The current city website and intranet design has been in place since 2016 and is due for a refresh that will be included in this replacement project.

Capital Improvement Program

Citywide Plotter Replacement

PROJECT NUMBER 500235
CLASSIFICATION Citywide Technology
DEPARTMENT Information Technology Department
LOCATION Citywide

DESCRIPTION

This project provides funding to replace several citywide plotters reaching the end of life. The project will also ensure consistency for future replacements having them on a schedule and helping to provide consistent support for troubleshooting. There are currently six departments that use plotters that are due for replacement.

Database Management - FTP

PROJECT NUMBER 500236
CLASSIFICATION Citywide Technology
DEPARTMENT Information Technology Department
LOCATION Citywide

DESCRIPTION

This project provides funding to replace the existing File Transfer Protocol (FTP) solution for secured file transfer to ensure it is up to date with the current security standards. The City uses FTP for the secure transmission of files that are confidential in nature. FTP protects the username and password and encrypts the content to share files securely.

Security Incident Event Management (SIEM) & Phish Email Filtering Replacement

PROJECT NUMBER 500238
CLASSIFICATION Citywide Technology
DEPARTMENT Information Technology Department
LOCATION Citywide

DESCRIPTION

This project provides funding to replace the Security Information & Event Management (SIEM) & Email Phish Filtering system. This system replacement provides enhanced ability to meet new and changed regulations and compliance requirements, mitigate and reduce threats in the ever-changing cyber threat landscape, and secure the services that employees, residents, and visitors depend on to perform daily business operations.

Capital Improvement Program

Electric - 60kV Bus Protection Upgrade

PROJECT NUMBER 500228
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This project provides funding for the installation of bus differential relays at various substations that currently do not have dedicated bus protection. These relays will improve system reliability, relay coordination, and fault clearing times.

Electric - Cirby 12kV Switchgear Replacement

PROJECT NUMBER 500229
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION 1201 Gabrielli Drive

DESCRIPTION

This project provides funding for replacing and upgrading the 12kV switchgear at Cirby Substation that has reached end-of-life. The switchgear distributes electricity from the substation transformer to the 12kV distribution system.

Electric Generation - Continuous Emissions Monitoring Rehab

PROJECT NUMBER 500230
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The Continuous Emissions Monitoring (CEMS) Programmable Logic Controller (PLC) and associated computer equipment are thirteen years old and reaching end-of-life. This rehabilitation project will replace the CEMS PLC and associated equipment. This project will require out-of-state travel for the factory acceptance testing at a location to be determined.

Electric Generation - Duct Burners and Programmable Logic Controllers

PROJECT NUMBER 500231
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The Heat Recovery Steam Generators (HRSG) at the Roseville Energy Park (REP) have the capability of duct firing. This system increases steam output, producing additional electricity in the steam turbine generator. The existing mechanical components are reaching the end of life and are no longer supported as standard equipment designs and technology have changed. The electrical components of this system are also at the end of life, requiring an upgrade. By completing a full system upgrade, it is anticipated that there will be improved combustion characteristics, potential to lower emissions, possible increased power output, and extended asset life expectancy. This project will require out-of-state travel for factory acceptance testing at a location to be determined.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project.

Utility Billing - Customer Self-Service Web Portal and Mobile App

PROJECT NUMBER 500232
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This project replaces the current Utility Billing Customer Portal for a Utility Customer Self-Service Web Portal and Mobile App that integrates the new AMI data and adds service request functions to optimize the online customer self-service experience. Due to the rapid technological change, these applications need to be replaced within five years. The project is divided into three phases to procure and implement the solution. The first phase includes the selection of an experienced consulting company to assist with the assessment and procurement of the Utility Customer Self-Service Web Portal and Mobile App. The project's second phase encompasses the selection and procurement of the Web Portal and Mobile App, followed by the third phase, which is the solution implementation.

OPERATING BUDGET IMPACT

Electric New Services

PROJECT NUMBER 290001
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This multi-year project provides funding to design and construct new electric services to support residential and commercial development. The construction includes installing new 12kV underground cable, padmount switchgear, and transformers in order to provide electrical service to new construction. The budget assumptions for this project are based on direct conversations with developers on their plans for future construction as well as engineering expertise. A detailed list of anticipated projects and associated budgets have been developed to project the five-year budget needs. Since this work is for new construction/development, developers are billed directly for the work related to this project.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project.

Electric Relay Replacement

PROJECT NUMBER 400041
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This project provides funding to replace and upgrade 12 Kilovolt (kV) and 60 kV protective relays that have reached the end of their useful lives. Protective relays are used in the power delivery system to detect faults (short circuits) and operate appropriate circuit breakers to isolate faults. Replacement of these devices is critical to maintaining system reliability and protecting against equipment damage.

Electric - Advanced Metering Infrastructure

PROJECT NUMBER 400113
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

Roseville Electric faces increasing demands to provide meter data to customers to comply with new regulations and to meet increased customer expectations. Many Roseville Electric Utility customers, and especially customers with electric vehicles and solar panels, are requesting pricing options such as Time of Use (TOU) rates. A modern Advanced Metering Infrastructure (AMI) system is required to offer TOU rates to these customers. AMI would introduce two-way communication for meters, allowing remote reads and expanded interaction between the utility and its customers. An AMI system also provides customers a detailed view of their electricity usage and allows them to make changes to increase the efficient use of electricity. This project progresses from a business case, through a third-party implementation, and finishes with the AMI system being installed and operating.

OPERATING BUDGET IMPACT

Once the project is complete, there will be various ongoing system/software maintenance and licensing fees funded by Electric, Environmental Utilities, and Utility Billing operating budgets.

Supervisory Control and Data Acquisition (SCADA) Cybersecurity

PROJECT NUMBER 400115
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This project funds hardware and software upgrades to Electric's Supervisory Control and Data Acquisition (SCADA) system and cybersecurity enhancements. The SCADA system is critical to support the reliable operation of the Roseville Electric Utility's distribution system. The system has reached the end of its useful life and requires replacement. Application upgrades, in addition to Windows upgrades, are necessary to ensure software compatibility. Furthermore, upgrading Windows operating system and applying security patches are mandated security measures from the North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC).

Electric 12kV Recloser Dispatch Control

PROJECT NUMBER 500047
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This project replaces existing recloser control switches with remotely operable switches. The reclosing function of system 12kV circuit breakers is enabled to allow the automatic restoration of customers in the event of a transitory fault. When field crews perform switching operations on the 12kV system or work with energized equipment, the reclosing function must be disabled for safety purposes. By replacing the existing recloser control switches with remotely operable switches, dispatchers will be able to disable the reclosers remotely. This change will save time and resources by eliminating the need to send personnel to the substation prior to performing work.

Electric - Substation Security Upgrades

PROJECT NUMBER 500097
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

The Electric Department currently maintains 18 substations and two switchyards that are an integral part of providing power to the City's electric customers. Collectively, these substations distribute and transfer 100% of the power delivered to the City's internal electric grid. This project is requested to upgrade security measures at various substation locations with technology and infrastructure that will enhance the safety and security of the facilities. Upgrades include increasing the integrity of fencing and gates as well as the installation of digitally recorded camera systems.

Roseville Energy Park Site Security

PROJECT NUMBER 500179
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

This project provides funding for site security improvements to enhance physical security at the Roseville Energy Park (REP), as identified in the site security audit. This project will also add landscape screening in accordance with the California Energy Commission's Decision dated April 2005. These improvements include the addition of a masonry wall, landscaping, and improved signage as specified by the West Roseville Specific Plan and Design Guidelines. At the completion of the project, the front of Roseville Energy Park will visually match the surrounding neighborhood and the Pleasant Grove Wastewater Treatment Plant.

Industrial Switchgear No. 1

PROJECT NUMBER 500218
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION 8201 Industrial Boulevard

DESCRIPTION

This project provides funding for the replacement of switchgear, which will provide increased system reliability and equipment protection. The project also includes upgrades to the protection and controls for the breakers, as they require more repairs during routine maintenance than should be necessary due to failing components. The upgrades are critical as circuit breakers are no longer manufactured, and spare parts are not available.

Electric - Battery Storage Pilot Project

PROJECT NUMBER F10001
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Hilltop Circle

DESCRIPTION

This project provides funding for the installation of a padmount 500kW, 4-hour battery bank that will be connected directly to the 12kV distribution system. This battery bank will help mitigate distribution system upgrades necessary to provide Fleet Electric Vehicle charging at the Corporation Yard. This battery bank will also have the ability to be dispatched as a generation resource, providing experience with the use of battery banks, which will be a large part of the electrical grid in the future. This project is forecasted to begin in FY2023-24.

OPERATING BUDGET IMPACT

There would be an increase in labor costs associated with substation and line personnel performing regular maintenance on the new battery bank.

Electric - Hardrock Battery Bank Addition

PROJECT NUMBER F10005
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION 1498 Rocky Ridge Drive

DESCRIPTION

This project provides funding for adding a second battery bank to the control building at Hardrock substation. Batteries are critical pieces of equipment in the substation that allow the substation and protection equipment to operate as usual in the event of a power outage. Having a redundant battery bank is necessary to maintain system reliability. This project is forecasted to begin in FY2023-24.

OPERATING BUDGET IMPACT

There is minimal operating budget impact expected from the regular maintenance required on the additional battery bank.

Electric - Remote Terminal Unit Replacement

PROJECT NUMBER F10006
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Citywide

DESCRIPTION

This project provides funding for replacing Remote Terminal Units (RTUs) that have reached end-of-life in electric substations. The RTUs are used to communicate information from the substations to the Electric Dispatch Center to assist dispatchers in the operation of the system. The new RTUs will add additional capability that the existing units do not have, as they use outdated technology. This project is forecasted to begin in FY2023-24.

Electric Generation - Boiler Catalyst Replacement

PROJECT NUMBER F10009
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The heat recovery steam generators (HRSG) at the Roseville Energy Park (REP) collect waste heat from the gas turbines for additional power production and provide the ability to reduce engine emissions through the use of a catalyst. The catalysts utilized in HRSGs have a finite life and must be replaced during the plant life cycle. Advancements in technology and design methods have improved the operational performance of new catalysts. This project upgrades boiler catalysts to enhance system performance and reduce back pressure on the gas turbines. Reduction in back pressure will improve gas turbine operating performance, as an added benefit to replacing the catalysts. This project is forecasted to begin in FY2023-24.

Electric Generation - Boiler Vent Valve Upgrades

PROJECT NUMBER F10010
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

This project will replace the valves and silencers to correct the valve sizing and improve silencer operation to reduce ambient noise during start-up and shutdown operations. Valves and silencers are used to vent steam to the atmosphere during start-up and shut down operations at the Roseville Energy Park (REP). The vent valves are also used in emergency pressure control during a system upset. During an inspection and review of the valve sizing, it was determined that they are slightly undersized for the existing service conditions. This project is forecasted to begin in FY2025-26.

Electric Generation - Inlet Chiller

PROJECT NUMBER F10015
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The Roseville Energy Park (REP) utilizes evaporative cooling to reduce the inlet air temperature of the gas turbines during the summer months to help improve plant output. While effective, this system uses a substantial portion of the REP's pure water supply and does not provide a means for energy storage. This project will replace the evaporative cooling system with an inlet chiller that will further reduce inlet temperatures, allowing an estimated additional production of 3MW to 4MW of energy from the gas turbines while reducing the pure water demand on the facility. This technology also may be able to store energy from off-peak times, to be utilized during high-demand periods. This project is forecasted to begin in FY2026-27.

Electric Generation - T3000 Controls Upgrade

PROJECT NUMBER F10018
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The Roseville Energy Park utilizes Siemens' T3000 control system for gas and steam turbine and generator controls. This system requires periodic modernization to minimize security threats and upgrade components reaching the end of their service and support life. This project will ensure that the modernization is in accordance with the vendor's latest standards. This project is forecasted to begin in FY2026-27.

Electric Generation - Zero Liquid Discharge Demineralized Water Production

PROJECT NUMBER F10019
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The Zero Liquid Discharge (ZLD) demineralized water production project will improve the efficiency of the existing reverse osmosis systems, which is strained during summer operations. This project will help enhance pure water supply and peak processing capabilities to the cooling tower during the summer months, reducing the need for rental equipment. This project is forecasted to begin in FY2025-26.

PROJECT NUMBER F10020
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

The Zero Liquid Discharge (ZLD) at the Roseville Energy Park underwent a core controls upgrade in 2022. The control components located in the field were not upgraded due to their longer life expectancy. This project will upgrade the remaining field devices in the ZLD to modernize equipment and ensure continued product support. This project is forecasted to begin in FY2024-25.

Electric Generation - Zero Liquid Discharge Steam Air Ejectors

PROJECT NUMBER F10021
CLASSIFICATION Electric
DEPARTMENT Roseville Electric
LOCATION Roseville Energy Park

DESCRIPTION

This project provides funding for adding steam air ejectors to the Zero Liquid Discharge (ZLD), which will improve the processing and recycling of used process water at the Roseville Energy Park. The ejectors are part of a larger goal of improving process control, improved consistency of operation, and reduced energy consumption when replacing the existing lobe vapor compressor. This project is forecasted to begin in FY2025-26.

Capital Improvement Program

KT-52 School Park

PROJECT NUMBER 500241
CLASSIFICATION Parks, Recreation & Libraries
DEPARTMENT Parks, Recreation and Libraries
LOCATION Sierra Village Drive and Silver Spruce Drive

DESCRIPTION

This project provides funding for the design and construction of a 7.61-acre school park site. The project will begin in FY2022-23 with public outreach to determine appropriate park amenities. It is anticipated that the design may include formal game fields, restrooms, a children's play area, a shaded area for picnicking, and a looped path.

OPERATING BUDGET IMPACT

Upon project completion, ongoing maintenance costs will be paid by the Sierra Vista Communities Facilities District (Public Services).

Capital Improvement Program

Weber Park Renovations

PROJECT NUMBER 500246
CLASSIFICATION Parks, Recreation & Libraries
DEPARTMENT Parks, Recreation and Libraries
LOCATION 320 Circuit Drive

DESCRIPTION

Funding for this project in FY2022-23 is to analyze and develop a new design for this existing 1.9 acre park to improve site lines into the park off of Main Street, identify new park improvements and develop a master plan, cost estimates, and potentially construction documents. Construction is expected to begin in FY2023-24.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project. However, this project will help maintain existing service levels and increase overall efficiencies in operating costs.

Capital Improvement Program

Roseville Sports Complex

PROJECT NUMBER 400068
CLASSIFICATION Parks, Recreation & Libraries
DEPARTMENT Parks, Recreation and Libraries
LOCATION Westbrook Drive at Brookstone Drive in West Roseville

DESCRIPTION

This project provides funding for an eight to ten field complex for soccer and other rectangular sports. Other amenities include large picnic/pavilions, a universally accessible playground, a small corporation yard, restrooms, and parking. Placer Valley Tourism is reimbursing the City \$1.2M to fulfill its obligation under a finance agreement for funds used to plan the sports complex at another location that ultimately was not built.

OPERATING BUDGET IMPACT

Upon completion, the General Fund will pay ongoing maintenance costs. Facility rentals and use fees will offset the costs of maintenance.

Denio Family Park - Parcel F-54

PROJECT NUMBER 400118
CLASSIFICATION Parks, Recreation & Libraries
DEPARTMENT Parks, Recreation and Libraries
LOCATION Blue Oaks and Fiddymont

DESCRIPTION

Funding for this project is for phase one of the construction of a 95.5-acre park, of which about 47 acres is Open Space Preserve. Approximately ten additional acres will remain untouched as they are separated by the creek and preserve boundaries. The remainder will be used to develop a disc golf course, dog park, multi-use / paved bike trails with two bridges at creek crossings, restrooms, covered picnic area, and parking lot.

OPERATING BUDGET IMPACT

During phase one, the project will incur additional maintenance costs of approximately \$13,000 funded by the General Fund.

Capital Improvement Program

Dry Creek Greenway East Trail Phase 2

PROJECT NUMBER 500260
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Along Linda Creek from Rocky Ridge Drive to Old Auburn Road

DESCRIPTION

Dry Creek Greenway Bike Trail Phase 2 will construct approximately 1.5 miles of Class I bikeways that will facilitate regional trail connections to the American River Parkway, Sacramento Northern, and Miners Ravine Trails, with the ultimate goal being over 70-mile long looped system of interconnected paved trails in the Sacramento-Placer Region. This project will improve the quality of life in the City and the region by benefitting disadvantaged communities, improving safety and mobility, reducing emissions, improving air quality, providing recreation opportunities, and fostering economic development and regional tourism.

OPERATING BUDGET IMPACT

Upon project completion, ongoing maintenance costs will be paid by Local Transportation Funds.

Capital Improvement Program

Microtransit Vehicles and Charger Purchase

PROJECT NUMBER 500261
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide

DESCRIPTION

The County of Placer and the City of Roseville are soliciting proposals from qualified mobility service and technology providers to develop and launch a turnkey Software-as-a-Service solution for deploying flexible on-demand public transit services using Agency owned vehicles and Agency drivers. Funding for this project is for four electric transit vans and one charger to be installed at Roseville's charging depot that is under construction. Electric vans have been shown at other Microtransit programs within the State of California to appeal to riders and ultimately ensure a successful program.

OPERATING BUDGET IMPACT

Upon project completion, ongoing maintenance and fuel costs will be paid through LTF and/or FTA funds.

Capital Improvement Program

Baseline Traffic Signals

PROJECT NUMBER 500299
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Baseline Road at Locust Road and Pleasant Grove

DESCRIPTION

This project provides funding for the installation of traffic signals and related improvements along Baseline Road at Locust Road and Pleasant Grove. The existing stop signs along Baseline Road will not have sufficient capacity to manage the traffic expected with the incoming Baseline Marketplace project. The regional shopping destination is expected to draw shoppers from not only Roseville and Placer County, but Sacramento County to the South and Sutter County to the West. Therefore, it is in Roseville's best interest to invest in infrastructure improvements to accommodate the anticipated traffic demand and provide for the convenient access of our neighboring jurisdictions to Roseville's shopping destinations. This funding is a loan and will be reimbursed from the City/County fee program for Baseline Road improvements as funds become available. This project is an interim improvement to meet the needs of the region today while the City, Placer County, and Sutter County work through the funding plan, design, environmental approvals, and eventual construction of a future widened Baseline Road from Foothills Blvd to Highway 99.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project.

Washington and Andora Widening

PROJECT NUMBER 400015
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Washington Boulevard from Sawtell to Diamond Oaks

DESCRIPTION

This project provides funding for widening Washington Blvd from two lanes to four lanes from Sawtell to Diamond Oaks, including widening the Andora Underpass beneath the UPRR tracks. Phase one of the project is currently under construction. Phase two is currently under design, and it is expected to begin in FY2026-27, contingent on grant funding to construct the remaining improvements. Phase one improvements constructed in FY2021-22 included:

- Widening Washington Blvd from two to four lanes between Sawtell Rd and Kaseberg Dr, as well as between Diamond Oaks Rd and Pleasant Grove Blvd
- Constructing a new multi-use trail along the east side of Washington Blvd, from Pleasant Grove Blvd to All America City Blvd
- Enhancing the current bicycle and pedestrian railroad under-crossing
- Improving signalized intersections along Washington Blvd
- Installing a new traffic signal at the intersection of Washington Blvd and Kaseberg Dr

Dry Creek Greenway East Trail Phase 1

PROJECT NUMBER 400022
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Darling Way/Riverside to Rocky Ridge

DESCRIPTION

Phase 1 of the Dry Creek Greenway East multi-use trail is approximately two miles in length from Darling Way/Riverside to Rocky Ridge. It will connect to the existing Saugstad Park Trail at Darling Way. This project provides funding for final design, environmental permits, right-of-way acquisition, construction, and construction engineering and management. The trail offers a safe, comfortable, convenient, and highly connected bike route in an area of the City that is otherwise underserved by bicycle facilities. It will connect schools and businesses to residential neighborhoods and provide regional connections as part of a planned loop trail around the greater South Placer/Sacramento area. This project number was used for the Community Outreach efforts and now it is transitioning into Phase 1 of project construction.

OPERATING BUDGET IMPACT

Construction of the trail will result in increased trail maintenance needs. Local Transportation Funds (LTF) will pay for trail maintenance activities.

Taylor Road Commuter Bus Stop Upgrade

PROJECT NUMBER 400127
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Taylor Road at Sunsplash Golfland

DESCRIPTION

This project provides funding to upgrade the bus stop and bus shelter within the Taylor Road Park-n-Ride Lot to provide a larger bus stacking area for multiple buses, more covered passenger seating, a waiting area, and other stop amenities. The current shelter is in poor condition and does not provide sufficient passenger waiting and loading area.

Purchase of Seven New Zero Emission Commuter Buses

PROJECT NUMBER 500111
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide

DESCRIPTION

Funding for this project in FY2022-23 plans for the purchase of seven zero-emission, battery-electric commuter buses to replace existing buses in the fleet that have met or exceeded their minimum useful life. Procurement activities began in FY2020-21, with award anticipated in FY2022-23, and buses delivered/accepted in FY2024-25.

OPERATING BUDGET IMPACT

Replacing the seven commuter buses will reduce annual fleet maintenance and fleet fueling costs.

Traffic Signal Maintenance Shop Expansion

PROJECT NUMBER 500226
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION 2020 Hilltop Circle

DESCRIPTION

This project provides funding for the design and renovation at a vacant city-owned building space. This CIP will repurpose a vacant city-owned facility to accommodate the Public Works Department, Engineering Division, Traffic Signal Maintenance Section's current needs and future expected growth.

OPERATING BUDGET IMPACT

Upon project completion, the anticipated increase to the Traffic Signal Maintenance section operating budget is approx \$21,000 per year (0.01% of the total Operating Budget) due to increased building maintenance, custodial, and facility rehabilitation costs related to the newly conditioned space.

Capital Improvement Program

Wastewater Treatment Plants Secondary Clarifier Coating Project

PROJECT NUMBER 500266
CLASSIFICATION Wastewater
DEPARTMENT Environmental Utilities Department
LOCATION Dry Creek Wastewater Treatment Plant, 1800 Booth Road
 Pleasant Grove Wastewater Treatment Plant, 5051 Westpark Drive
DESCRIPTION
 This project provides funding to recoat the center column mechanism of clarifiers at both the Pleasant Grove and Dry Creek wastewater treatment plants.

Wastewater Treatment Plants Programmable Logic Controller Rehabilitation

PROJECT NUMBER 400064
CLASSIFICATION Wastewater
DEPARTMENT Environmental Utilities Department
LOCATION Dry Creek Wastewater Treatment Plant, 1800 Booth Road
 Pleasant Grove Wastewater Treatment Plant, 5051 Westpark Drive

DESCRIPTION
 This project provides funding to replace obsolete Programmable Logic Controllers (PLC) at the Dry Creek and Pleasant Grove Wastewater Treatment Plants, in accordance with the SCADA Systems Master Plan.

OPERATING BUDGET IMPACT
 This project reduces spares inventory due to standardization and elimination of obsolete equipment.

Capital Improvement Program

Sewer Collection System Cured-in-Place-Pipe Rehabilitation

PROJECT NUMBER 400078
CLASSIFICATION Wastewater
DEPARTMENT Environmental Utilities Department
LOCATION Downtown Roseville

DESCRIPTION

This project reconstructs and rehabilitates the existing collection system pipe infrastructure. The Environmental Utilities Department will target systems older than 75 years in service, and areas with known premature failures. The general areas of concern are subdivisions in the vicinity of Riverside Avenue, Douglas Boulevard, Main Street, Atlantic Street, and Sierra Boulevard.

OPERATING BUDGET IMPACT

The completion of this project will result in operational savings from lower maintenance costs to rehabilitated pipe segments.

Water Treatment Plant Fiber Optic Facilities Rehabilitation

PROJECT NUMBER 500271
CLASSIFICATION Water
DEPARTMENT Environmental Utilities Department
LOCATION Water Treatment Plant, 9595 Barton Road, Granite Bay

DESCRIPTION

This project provides funding to upgrade the Barton Road Water Treatment Plant's fiber optic cable to provide a robust and reliable communication infrastructure for maintaining plant functionality. The work includes the installation of appropriate fiber runs to prevent any single point of failure that could take down communication with multiple programmable logic controllers throughout the plant.

Capital Improvement Program

Advanced Metering Infrastructure Project

PROJECT NUMBER 400099
CLASSIFICATION Water
DEPARTMENT Environmental Utilities Department
LOCATION Citywide

DESCRIPTION

Environmental Utilities is facing increased demands to provide enhanced meter data to customers to comply with new water efficiency measures and to meet increased customer expectations. An Advanced Metering Infrastructure (AMI) system is required to offer better meter data to customers. AMI would introduce two-way communication for meters allowing remote reads and greater interaction between the utility and its customers. An AMI system also provides customers a detailed view of their water usage, enabling them to make changes to increase their water efficiency. Finally, an AMI system provides better system reliability by bringing enhanced demand management and capital efficiencies. This project progresses from a business case through a third-party implementation and finishes with the installed and operating AMI system.

OPERATING BUDGET IMPACT

Once the project is complete, there will be various ongoing system/software maintenance and licensing fees to be funded by Electric, Environmental Utilities, and Utility Billing operating budgets.

Water Treatment Plant Two Million Gallon Tank Rehabilitation

PROJECT NUMBER 400102
CLASSIFICATION Water
DEPARTMENT Environmental Utilities Department
LOCATION 9595 Barton Road, Granite Bay

DESCRIPTION

This project provides funds for the rehabilitation of the two million gallon steel tank located within the water treatment plant. The scope of the project includes refurbishing the interior and exterior, applying a protective coating, and constructing seismic stabilization components. Replacing the tank is the second option if it is found to be more cost-effective.

OPERATING BUDGET IMPACT

The completion of this project will result in operational savings from lower maintenance costs.

Water Security and Resiliency Improvements

PROJECT NUMBER 500150
CLASSIFICATION Water
DEPARTMENT Environmental Utilities Department
LOCATION Citywide

DESCRIPTION

This project provides funding to implement water utility security measures identified by the risk and resiliency assessment completed in March 2020. The security measures recommended by the report include improved emergency preparedness through training, improved security, enhanced priority list coordination through PG&E and other utility companies, improved miscellaneous security, and upgraded lighting and access control.

OPERATING BUDGET IMPACT

Ongoing operational budget impacts will be determined based on the results of the assessment.

Non-Capital Multi-Year Projects Overview

Non-Capital Multi-Year Projects Overview

The City of Roseville's Non-Capital Multi-Year Projects section includes projects crossing multiple fiscal years related to maintenance work performed on a routine basis for facilities, bike trails, open space and roadways, equipment maintenance and repairs, technology improvements not reaching the capitalization threshold, systems assessments and evaluations, and operating grants.

The total five-year budget estimate for Non-Capital Projects is \$55 million, of which \$14 million is the funding request for FY2022-23. The current year's budget request represents an \$11 million increase in funding from the prior year. The areas of growth for Non-Capital Multi-Year Projects in FY2022-23 include Public Works with a \$9 million growth, followed by Parks Recreation and Libraries at \$0.9 million, Wastewater at \$0.5 million, and Water at \$0.3 million. For forecasting purposes, this year's Non-Capital Multi-Year Projects include projects for which funding is yet to be identified. These projects are presented with a "TBD - To Be Determined" funding source on the project page. The total funding to be determined for the Five-Year plan is \$14 million.

The Non-Capital Projects presented in detail in this section are only those projects that are requesting new budget approval in the current or the coming budget years. Projects planned to start in future years have been identified as

forecasted projects on the summary page of each CIP classification as applicable. Since budgets are approved on a total project basis, any unspent funds at the end of the fiscal year are carried forward automatically into the following year's budget. Existing projects with unspent budgets are listed in the existing projects section on the summary page of each Non-Capital Multi-Year Projects classification.

Non-Capital Projects budget sheets display general project information and include department, location, description, operating budget impact, the City Council Goal associated with the project and a summary timeline. The funding overview section of each project budget sheet summarizes the project's financial information, and the FY2022-23 and five-year plan section provide project cost estimates by funding source for the City of Roseville's Non-Capital Projects for FY2023-23 through FY2026-27.

Projects are classified as follows: Citywide Technology; General Government; Parks, Recreation & Libraries; Public Safety; Public Works; Waste Services; Wastewater; and Water.

The table titled "Non-Capital Multi-Year Projects Summary: FY2022-23 through FY2026-27" is a high-level view of the total project expenditures in each category over the next five years.

Non-Capital Multi-Year Projects

Buljan Student Union Roof Repairs

PROJECT NUMBER 500247
CLASSIFICATION Parks, Recreation & Libraries
DEPARTMENT Parks, Recreation and Libraries
LOCATION 100 Hallisey Drive

DESCRIPTION
 This project provides funding to repair the roof at the Buljan Student Union. The roof is leaking, and the interior walls are at risk of damage due to the potential of mold developing. The repairs will prevent ongoing damage and will allow for the safe use of the building.

OPERATING BUDGET IMPACT
 Repairs will prevent further interior damage and additional repairs cost.

Park Restroom Auto Locks

PROJECT NUMBER 500104
CLASSIFICATION Parks, Recreation & Libraries
DEPARTMENT Parks, Recreation and Libraries
LOCATION Citywide

DESCRIPTION
 This project replaces manual park restroom locks with automated locks. This project will enable staff to lock the restrooms automatically rather than requiring a contractor to manually lock park restrooms nightly.

OPERATING BUDGET IMPACT
 Completion of the project will increase overall efficiencies in operating costs by generating savings in manual labor to open and lock restrooms.

Pleasant Grove Curry Creek Watershed Drainage Mitigation Fee Update

PROJECT NUMBER P500258
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Pleasant Grove Curry Creek

DESCRIPTION
 This project provides funding for a Watershed Drainage Mitigation Fee Update in FY2022-23. The last Pleasant Grove Curry Creek Watershed Drainage Mitigation Fee Update was completed on July 1, 2018, and these updates are expected to occur approximately every five years.

OPERATING BUDGET IMPACT
 There are no impacts anticipated to any operating budgets as a result of this project.

Storm Drain Repair Project

PROJECT NUMBER 500259
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Various

DESCRIPTION

This project provides funding to repair or replace aging storm drain pipeline infrastructure near Denio's Farmers Market, at Royer Park and Stoney Point Way. In each area, aging pipelines are contributing to some degree of system failure. A storm drain improvement is also planned within the Crestmont neighborhood; this work involves the installation of a new diversion storm drain pipeline on Piedmont Way to reduce down-system flows. Staff hope to capitalize on an economy of scale for design and construction by packaging all the repairs into one project.

OPERATING BUDGET IMPACT

There are no anticipated impacts to operating budgets as these are repairs to existing facilities.

2024 Bike Trail Resurfacing

PROJECT NUMBER 500263
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide Trails

DESCRIPTION

This project provides funding to crack seal, resurface and restripe multi-use trails per trail maintenance schedule. Trail surfacing extends the useful life of the asphalt, providing a smooth surface for safer public use of the trails. Funds requested in FY2022-23 will cover the planning phase and the resurfacing work will begin in FY2023-24.

OPERATING BUDGET IMPACT

Resurfacing the trails extends the useful life of the asphalt and avoids costly trail reconstruction.

FY2022-23 Data Center Environmental System and Passport Center HVAC Replacement

PROJECT NUMBER 500277
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION 316 Vernon Street - Annex Civic Center

DESCRIPTION

This project provides funds to replace the three cooling units of the environmental system for the City's main data center located at 316 Vernon Street. The units are at the end of their life cycle and need to be replaced to ensure reliability. The estimated cost to replace these units is \$402,500. Additionally, the HVAC split system for the lobby of the Passport Center has been unreliable, and parts have been difficult to acquire. This project will replace the existing unit with a more common and reliable one as per recommendations from a mechanical engineer. The cost of the new unit is \$57,500.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project.

FY2022-23 Data Centers UPS and Environmental System Replacement

PROJECT NUMBER 500278
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION 316 Vernon Street, Riley Library, Police Department, and Civic Center

DESCRIPTION

This project provides funding to replace the Uninterrupted Power Source (UPS) for the Data Centers located at 316 Vernon Street, Martha Riley Library, Police Department, and Civic Center. The units are approaching the end of their life cycle, and proper functioning is critical to ensure reliability and an uninterruptible power supply. The project also covers replacing the Martha Riley Library Data Center environmental system that is reaching end-of-life.

UPS for Data Centers \$337,500
 Martha Riley Library Data Center environmental system \$175,000

Pleasant Grove Retention Basin

PROJECT NUMBER 400006
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Philip Road, West Roseville

DESCRIPTION

Funding for this mandatory mitigation project will design and construct an approximately 2,500 acre-feet flood detention basin in the Al Johnson Wildlife Area/"Reason Farm Property" to mitigate various development projects. FY2022-23 funding will be used to begin planning efforts for grant identification and development of an RFP for design. The project will be constructed when enough developer fees and grant funds have been collected to fund construction. Construction estimates are expected to come out of design, scheduled to begin in FY2023-24.

OPERATING BUDGET IMPACT

Preliminary estimates of long-term operation and maintenance costs associated with the construction of the basin are \$700K-\$900K per year, divided across various departments' operating budgets depending on the ultimate design. Some of these operating expenses may be mitigated by agreements with regional partners who opt into using the basin to mitigate their development projects.

Multi-Hazard Plan Update

PROJECT NUMBER 400029
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide

DESCRIPTION

This project funds the annual update of the City's Multi-Hazard Mitigation Plan. In order to be eligible to obtain grant funding from FEMA and maintain our CRS Class 1 rating, the City must perform an annual Multi-Hazard Plan review and a five-year "Major" update. The budget requested covers annual and "major" updates. Completing annual and major five-year updates to the Multi-Hazard Plan assists with identifying mitigation projects that are generally completed within existing operating budgets. In the case that an annual plan or major update identifies a project that an existing operating budget cannot absorb, there may be a need to increase a specific department's operating budget to continually mitigate for something specific, create a new capital improvement project, or request a one-time increase, depending on the project.

OPERATING BUDGET IMPACT

Identifying projects within the Multi-Hazard plan assists with identifying and procuring grant funding, limiting impacts to operating budgets.

Transit Plan Update

PROJECT NUMBER 400129
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide

DESCRIPTION

This project will update the Long and Short Range Transit Plans to reflect current conditions, including recent changes in land use and land use plans, newly constructed facilities, recently approved specific plan areas, and new practices in transit and mobility. The plan will evaluate scenarios for transit services using 5, 10, and 20-year time horizons. The Transit Master Plan for South Placer County was last updated in 2007, the South Placer County Bus Rapid Transit (BRT) Service Plan was last updated in 2008, and the City's Short Range Transit Plan was last updated in 2010. The documents guide long and short term policies, programs, and standards to make transit in Roseville safer, more convenient, efficient, and enjoyable for users.

OPERATING BUDGET IMPACT

The operating budget impact will be determined based on results of the study.

2021 Bike Trail Resurfacing

PROJECT NUMBER 500110
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide

DESCRIPTION

This project provides funding for crack sealing, resurfacing, and restriping of multi-use trails as per trail maintenance schedule. Trail resurfacing extends the useful life of the asphalt surface and provides a smooth surface for safer public use of the trails.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project. Resurfacing the trails extends the useful life of the asphalt and avoids costly trail reconstruction.

Hillcrest Neighborhood Roadway Resurfacing Project

PROJECT NUMBER 500288
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Hillcrest Neighborhood, Roseville

DESCRIPTION

This project provides funding for continuing improvements in the Hillcrest neighborhood. The City's Public Works Department completed underground storm drain improvements within the Hillcrest neighborhood in 2020. At that time, Public Works also completed necessary Americans with Disabilities Act (ADA) curb ramp replacements and reconstructions and curb, gutter, and sidewalk repairs in preparation for future roadway resurfacing. The City's Environmental Utilities Department completed underground water and wastewater improvements in the Hillcrest neighborhood in 2021. This project will now repair, replace and/or resurface the roadway pavement within Roseville's Hillcrest Neighborhood.

OPERATING BUDGET IMPACT

Resurfacing older roadways eliminates the need for City Streets Maintenance crews to make patch repairs and perform crack sealing operations allowing them to focus their efforts on other areas of the City and having a positive net impact on the operating budget.

South Placer County Express Bus Service - Operating

PROJECT NUMBER 700030
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Lincoln through Roseville to Watt I-80

DESCRIPTION

This project provides funding for planning, implementation, and operation of the South Placer County Express Bus Service that will provide fixed-route bus service on a pilot basis. The service will begin in the City of Lincoln and continue along the Highway 65 corridor with stops at the Galleria Mall, Sutter Hospital, and Kaiser Hospital, terminating at the Watt/I-80 light rail station where passengers can travel to and from downtown Sacramento, the Railyards and other key destinations within the Sacramento region.

OPERATING BUDGET IMPACT

Grants and other funds will support operating expenses during the three-year pilot period. After satisfactory completion of the pilot period and grant close-out, the project will be closed. If the project is successful, additional funding will be identified to continue operations. General Fund resources will not be used for the operating budget during the pilot years or future years.

Highway Bike-Ped Overcrossings Study

PROJECT NUMBER F10054
CLASSIFICATION Public Works
DEPARTMENT Public Works
LOCATION Citywide

DESCRIPTION

This project funds a study focusing on the feasibility of constructing bike-pedestrian crossings over Highways 65 and 80 in the City. Highway overpasses typically are not friendly to those using alternative modes of transportation. The purpose of constructing these types of bike-ped overcrossings is to reduce transportation fatalities and severe injuries on public roads, making it safer for all to travel.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the study.

Non-Capital Multi-Year Projects

Dry Creek Wastewater Treatment Plant Digester and Gas Piping Replacement

PROJECT NUMBER 500267
CLASSIFICATION Wastewater
DEPARTMENT Environmental Utilities Department
LOCATION Dry Creek Wastewater Treatment Plant, 1800 Booth Road

DESCRIPTION
 This project provides funding for replacement of various digester gas piping at the Dry Creek Wastewater Treatment Plant.

SMUD Water Recharge

PROJECT NUMBER 500015
CLASSIFICATION Water
DEPARTMENT Environmental Utilities Department
LOCATION Citywide

DESCRIPTION

This project covers the cost for implementation of the approved water transfers (original and extensions) from the Sacramento Municipal Utilities District (SMUD) to the City of Roseville for up to 6,000 acre-feet of water per year. It includes initial funding for 1,000 acre-feet of water purchased from SMUD each year to further test and develop Roseville's Aquifer Storage and Recovery (ASR) groundwater system injection capacity. As more ASR wells are constructed, the annual amount of water scheduled to transfer from SMUD may increase, leading to future adjustments to this budget.

OPERATING BUDGET IMPACT

There is no operating budget impact expected upon the completion of the project.

Debt Management Details

Loans:

Youth Development Fund obligation to Fleet Replacement Fund

Funding for Adventure Club school site(s)/portable(s).

Maturity date of 7/01/2036

Diamond Oaks Golf Course obligation to Fleet Replacement Fund

Funding for renovations of the Diamond Oaks Golf Course.

Maturity date of 7/01/2035

Woodcreek Golf Course obligation to Fleet Replacement Fund

Funding for the construction of the Woodcreek Golf Course club house.

Maturity date of 7/01/2036

Successor Agency to the RDA Fund obligation to General Fund

Funding for Vernon Street streetscape improvements.

Funding for county school district pass-through payment.

Funding for flood control mitigation construction throughout the City's creek system.

Successor Agency to the RDA Fund obligation to Strategic Improvement Fund

Funding for the façade and landscape renovations for the Automall wall.

Funding for the startup of the RCDC.

Funding for Riverside Avenue infrastructure and streetscape enhancement project. Provided funding for significant improvements.

Funding for the acquisition of property located at 238 Vernon Street (JCPenney Building) to create a viable development site in Downtown.

Successor Agency to the RDA Fund obligation to Gas Tax Fund

Funding for flood control mitigation construction throughout the City's creek system.

Successor Agency to the RDA Fund obligation to Low & Moderate Income Fund

Loan for 20% of all Successor Loans obligations to the Low & Moderate Income Fund per AB1484 Section 34191.4(C).

Water Rehabilitation Fund obligation to Water Construction Fund

Funding for water tank rehabilitation.

Maturity date of 7/01/2022

Water Operations Fund obligation to Water Construction Fund

Funding for Advanced Metering Project.

Maturity date of 7/01/2029

General Fund obligation to General Fund Contribution by Developers

Funding of the Citywide Qualified Climate Action Plan, General Plan Update.

Maturity date of 7/01/2029

Debt Management Details

Public Facilities Fund obligation to Fleet Replacement Fund

Funding of design and construction for second Downtown parking garage (Vernon Street and Oak Street).

Maturity date of 7/01/2034

Public Facilities Fund obligation to Strategic Improvement Fund

Funding of the 316 Vernon Building Project.

Maturity date of 7/01/2026

Downtown Parking Fund obligation to Strategic Improvement Fund

Funding of the Oak Street parking garage.

Maturity date of 7/01/2027

Citywide Park Fund obligation to Fleet Replacement Fund

Funding for the Harry Crabb Park project.

Maturity date of 7/01/2025

Revenue Bonds:

Roseville Natural Gas Financing Authority Gas Revenue Bonds, Series 2007

Funding the prepayment of about 46 billion cubic feet of natural gas that Merrill Lynch Commodities will supply over 20 years. The gas delivered is used in the Roseville Energy Park. The bonds are fixed rate.

Maturity date of 2/15/2028

South Placer Wastewater Authority (SPWA) Wastewater Revenue Refunding Bonds, Series 2020 (64.57% City Share)

Refunding the 2013 SPWA Series bonds. The original issue was to fund the construction of the Pleasant Grove Wastewater Treatment plant and smaller related projects.

Maturity date of 11/01/2035

Electric System Revenue Refunding Bonds, Series 2013

Refunding of the 2004 and 2005 Electric Certificates of Participation bonds. These bonds are a fixed rate.

Maturity date of 2/01/2023

Electric System Revenue Refunding Bonds, Series 2017A

Partial refunding of the 2009 Certificates of Participation and the 2010 Electric Refunding Bonds. The original issues were to finance certain improvements to the City's electric system and the Roseville Energy Park. The bonds are fixed rate.

Maturity date of 2/01/2037

Electric System Revenue Refunding Bonds, Series 2020

Refunding of the 2014 Electric Refunding Bonds and partial refunding of the 2014 Certificates of Participation. The original issues were to finance and refinance improvements to the City's electric system.

Maturity date of 2/01/2034

Debt Management Details

SPWA Wastewater Revenue Refunding Bonds, Series 2017 (64.57% City Share)

Refunding of the SPWA Series 2014 Revenue Bonds, partial refunding of the SPWA Series 2011C Revenue Bonds, and new funding for the Wastewater Treatment Plant Expansion project.

Maturity date of 11/01/2037

Certificates of Participation:

Electric System Revenue Refunding Certificates of Participation, Series 2004

Financing certain improvements to the City's electric system. The capital improvements include: construction of two new substations, 60KV line extensions, overhead to underground system conversions, and substation expansion and upgrades. The bonds are fixed rate. The 2004 bonds were partially refunded in 2014, leaving a principal amount of \$5,000.

Maturity date of 2/01/2034

Electric System Revenue Refunding Certificates of Participation, Series 2012

Refunding the 2008 Electric Series A bonds. The original issue was to finance the construction and acquisition of the Roseville Energy Park, a power generation plant that is designed to employ current technology for clean, fuel-efficient power. The bonds are variable rate (VRDBs) with weekly resets.

Maturity date of 2/01/2035

Public Facilities Refunding Certificates of Participation, Series 2013

Refunding the 2003 Public Facility and Golf Course bonds. The original issue was to finance the construction of the City's Corporation Yard and construction of the Woodcreek Oaks Golf Course Club House. The bonds are fixed rate.

Maturity date of 8/01/2025

Water Utility Revenue Certificates of Participation, Series 2015

Refunding the 2007 water bonds and use a portion of the net proceeds to finance the acquisition and/or construction of certain capital improvements and additions to the City's water utility system. The 2015 water bonds included a new money component to assist in the construction of certain capital improvements and additions to the City's water utility system. The bonds are fixed rate.

Maturity date of 12/01/2029

Certificates of Participation, Series 2015 (316 Vernon Street Project)

Completing the infrastructure component of the 316 Vernon Street mixed-use City building. Annual debt service payments will be covered from the lease revenues as well as contributions from the Public Facilities and Strategic Improvement Fund. The bonds are fixed rate.

Maturity date of 8/01/2045

Tax Allocation Bonds:

Successor Agency to the Redevelopment Agency of the City of Roseville Tax Allocation Refunding Bonds, Series 2014

Refunding the 2002 RDA bonds. The original issue was to finance various capital improvement projects, including the renovation of the Tower Theater, the Civic Plaza Parking Garage and the streetscape projects for Riverside Avenue and Historic Old Town.

Maturity date of 9/01/2033

Debt Management Details

Successor Agency to the Redevelopment Agency of the City of Roseville Tax Allocation Refunding Bonds, Series 2016-T Refunding the 2006A, 2006A-T and the 2006H-T RDA bonds. The original 2006A issue was to complete the Downtown Roseville infrastructure designing and the engineering of public improvements identified in the Downtown Vision. The original 2006A-T issue was to establish a low interest rate revolving loan fund for private property improvements; incentivizing for private projects such as fee subsidies or waivers. The original 2006H-T issue was to develop and sell a mixed use development project and provide down payment assistance to first time homebuyers.

Maturity date of 9/01/2040

Difference **2,377,664**

The difference of \$2,377,664 is due to a transfer out to the Roseville Finance Authority, a separate legal entity.

Glossary of Budget Terms

Appropriation:	Legal authorization to make expenditures and incur obligations for specific purposes.
Budgetary Basis of Accounting:	Budgetary basis of accounting refers to the timing of when revenues and expenditures are recognized in the accounts and reported. In accordance with GAAP (Generally Accepted Accounting Principles), the City budgets for all governmental funds using the modified accrual basis of accounting, with the exception of interfund loan disbursements and repayments, which are budgeted as expenditures and revenue. Governmental fund revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within 120 days after year-end, with the exception of sales taxes and property taxes, which are considered available if collected within 60 days after year-end. Proprietary and fiduciary funds are budgeted using the modified accrual basis of accounting for expenses, with the exception of interfund loan transactions, which are budgeted as expenditures and revenue, and the full accrual basis of accounting for revenues. Proprietary and fiduciary fund revenues are recorded when earned regardless of when the cash flows occur.
Capital Improvement Projects (CIP):	Expenditures related to the acquisition, design, construction or expansion of an element of the City's infrastructure (physical capital assets such as streets, public buildings, public services infrastructure, and parks, as well as equipment and technology infrastructure).
Non-Capital Multi-Year Projects:	Expenditures related to maintenance work performed on a routine basis for facilities, bike trails, open space and roadways; equipment maintenance and repairs; technology improvements not reaching the capitalization threshold; plans, models and fee updates; systems assessments and evaluations; and operating grants.
Capital Project Fund:	A fund used to account for financial resources for the acquisition or construction of major capital facilities, which are separate from ongoing operating activities.
Capital Outlays:	Expenditures which result in acquisitions of, or additions to, capital assets; includes expenditures for furniture, vehicles, and all types of machinery and equipment, including all costs necessary to place the capital outlay item into service. In order to qualify as a capital outlay expenditure, it must: <ol style="list-style-type: none">1. have an estimated useful life of more than one year;2. have a unit cost of more than \$5,000; and represent a betterment or improvement.
Department:	Major unit of organization in City government comprised of sub-units named divisions.
Division:	Major sub-unit of a department represented in the financial system by a Cost Center.
Enterprise Fund:	A fund that provides goods or services to the public for a fee or charge that makes the entity self-supporting.
Fiscal Year:	Twelve-month period to which the operating budget applies. The twelve-month period begins on July 1st and ends on June 30th.

Glossary of Budget Terms

Fund:	Fiscal entity with revenue and expenses which are segregated for the purpose of carrying out a specific purpose or activity. The major funds for financial reporting are the General, Electric, Water, Wastewater, and Waste Services funds.
General Fund:	The primary operating fund of the City used to account for all financial resources except those required to be accounted for in another fund.
Indirect Allocations:	<p>The City uses the indirect cost allocation process to allocate departmental costs from the General Fund to all funds that receive benefit from the services that the General Fund departments provide. The City uses a consulting firm, which specializes in indirect cost studies to prepare the indirect cost allocation plan. The plan is based on the most current budget information available at the time the study is completed - typically six months prior to the adoption of a new budget. The consulting firm makes several onsite visits to interview staff from the General Fund departments that provide services to other departments. Cost allocation drivers are confirmed during the interview process and budget data is provided to the consultant. The budget data used in the study excludes reimbursed expenses. Examples of reimbursed expenditures are Capital Improvement Projects and secondary labor that is direct charged from one fund to another. The consultant provides a comprehensive study that is provided to all departments for review and comment. Staff has an opportunity to comment on the plan and to correct any errors.</p> <p>Internal service funds used by the City directly charge costs of service to funds and departments receiving the service; therefore, the only fund that uses the indirect method of allocating costs is the General Fund.</p> <p>Indirect cost charges are budgeted in the fund that is paying for the service and reduces the expenditures of the departments providing the services. The purpose is to ensure that the General Fund is reimbursed for the services that it is providing throughout the City.</p>
Internal Service Fund:	A fund established to finance and account for services and supplies furnished by a designated department to other departments within the City. Examples of the City's Internal Service Funds include the Fleet Services Fund, the Fleet Replacement Fund, the Information Technology Operations Fund, the Facility Services Fund, and Workers Compensation Fund. Costs from these funds are directly charged to those funds and departments receiving the benefits of the services provided.
Materials, Supplies, and Services:	Materials and supplies are expendable items having a unit cost of less than \$5,000 or, which by their nature, can be consumed during the course of the fiscal year. Examples are paper, writing instruments, ink cartridges, safety and protective gear, and small tools that are not capital in nature. Services may be performed by outside firms, individuals, or City departments and may include consulting services, subscriptions and memberships, advertising, training and development, office equipment maintenance, insurance, and utilities (including those utilities provided by City departments).
Cost Center:	A sub-unit of a division.
Performance Measures/ Workload Measures:	Indicators which are used to assess a department's progress toward achieving stated goals and strategies and level of work performed.

Glossary of Budget Terms

Permanent Fund:	A fund used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support or benefit the government or its citizens.
Reimbursed Expenditures:	Accounting adjustments that credit a budget expenditure, thus serving to reduce the total expenditures of a program. Reimbursements generally result from expenditures chargeable to other programs, such as work performed by one department or division for another. The allocation of indirect costs is budgeted as reimbursed expenditures.
Revenue:	Income, including transfers and excluding proceeds from the sale of bonds and notes, for the fiscal year. The major categories of revenue include local taxes, state shared revenues, charges for current services, public utility sales, federal revenue sharing, and licenses and permits.
Salaries, Wages, and Benefits:	Compensation paid to employees of the City, and the employee benefits costs, such as the City's contributions for retirement, deferred compensation, group insurance, uniform allowance, and workers' compensation insurance. Also included is compensation paid to elected officials as provided by the City Charter. It does not include fees for professional and other services obtained on a contractual basis.
Special Revenue Fund:	A fund that is used to account for the proceeds of a specific revenue source that is restricted or committed to expenditure for specified purposes other than debt service or capital projects.
Trust Fund:	A fund that is restricted for specific programs and purposes in accordance with a statute that designates the fund as a trust.
Private Purpose Trust Fund:	A fund that accounts for other trust arrangements under which the principal and income benefit individuals, private organizations, or other governments.
