HIGHLIGHTS

FISCAL YEAR 2012-2013

This report includes a series of graphs illustrating significant trends in major operational areas, financial analysis by fund, performance reporting on specific organizational objectives, and the financial condition of the city for the first two quarters of fiscal year 2013. The June 30, 2013 projection reflects revised revenue estimates for the city and changes in program costs that have occurred since the adoption of the budget.

Total General Fund Operating Revenues are projected to be \$3.7 million more than the current budget by the end of the year. The largest revenue increase is in Property Taxes, which are currently projected to be \$1.14 million more than originally budgeted. Sales Taxes are projected to be \$1.1 million more than budgeted. But, Roseville, like many other agencies, is still struggling with the economic slowdown. On the other side, operating expenses have increased by \$4.6 million, resulting in an overall increase to the General Fund structural deficit of about \$1 million.

The city has been proactive during the last several of years; reducing operating costs at the first signs of the slowdown. During the same period, increases in PERS costs along with the return of the temporary suspension in liability and worker's compensation self-insurance premiums and contracted raises erased those budget gains. Additional budget cuts were built into the FY13 budget, but assumed changes in existing labor contracts have not materialized.

The FY13 General Fund budget is dependent upon saving from previous years' budgets to maintain a positive ending fund balance. Overall, the General Fund budget needs to see continued increases in revenues along with reductions in costs in order to balance in the coming years.

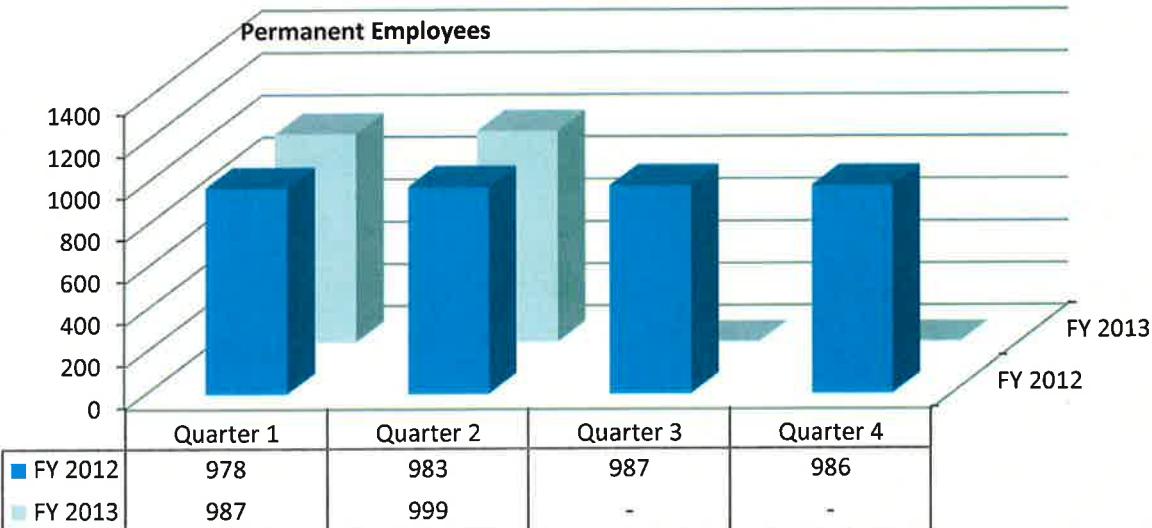

Utility funds are doing well, as rate increases, along with cost cutting measures mentioned above, enabled these funds to maintain positive fund balances.

Adventure Club and the City's golf courses are more subject to economic fluctuations, but are on track to meet budget this year.

The Child Care Fund faces increasing upward pressure on salary & benefit costs and downward pressure on revenues with reduced state grant funding and current economic situations affecting the families we serve. After fully recognizing the impacts of our Allowance for Doubtful Accounts from 10 years of aged accounts receivable, balancing the fund has been a challenge. Staff are continuing to evaluate the opportunities to reduce operational expenses, defund full time staff vacancies, and increase revenues.

The UIR pays for maintenance related to impacts from the utilities on City streets. These maintenance costs are funded in the General Fund. In the past, the UIR funding was transferred into the Gas Tax Fund and then transferred to the General Fund. In FY13 we are transferring directly from UIR to the General Fund; therefore, there is no effective change in the destination of the transfer out.

Per Ordinance 3388, Section 4.06.040, the City Council may annually appropriate up to ninety (90%) percent of the annual interest earnings. To smooth out the monies available for grants, a higher percentage can be awarded when not all available interest was awarded in previous years. This allows for a higher award amount in the current fiscal year, while meeting the requirements of ordinance 3388.

| COMMENTS | | | | | | |
| The percent of completed preventive maintenance work orders completed by staff in the first quarter reflects the division's priority and commitment to the importance of preventative maintenance. Unfortunately, the duration from work order creation to completion exceeds the division's goal of 30 days. The second quarter reflects vacation/leave during holidays. This identifies the lack of available man hours in relationship with the work order demand. Facility Maintenance is evaluating "Trade / Non-Trade" work to better assign work orders and utilize staffs' skills and abilities. With the information gathered the the majority of non-trade work orders will be assigned to lower skilled staff. | | | | | | |

| PROGRAM | | | | | | | |
| To implement a program to assess, plan and forecast the efficient maintenance, repair and replacement of Environmental Utility Assets and systems that will maximize their useful life. | | | | | | | |
| | | | | | | | |
| PROGRAM OBJECTIVE | | | | | | | |
| <ul style="list-style-type: none"> - Provide Program Management and other staff support to the Enterprise Asset Management Program for all identified City Asset Groups. - Complete the Enterprise Asset Management Program implementation in fiscal year 2012/13 within the planned budget. - Develop Asset Profiles - Planning level asset structure including classification, criticality, failure, hierarchy and content. - Complete Environmental Utilities deployment of SIRE Document Management Program. - Develop GIS solutions sufficient for pipeline asset groups. - Develop Materials and Parts Warehouse system for all EU asset groups. | | | | | | | |
| | | | | | | | |

| | | | | | | | |
| COMMENTS | | | | | | | |
| Development of pipeline assets is being completed as part of the Enterprise Asset Management CIP. The project is on track to develop these assets within the Fiscal year. | | | | | | | |
| Development of Asset Profiles requires detailed work in progress that is completed in phases. Upon completion all assets are updated at once. This task is on track to be completed and updated within the Fiscal Year. | | | | | | | |
