

STREET MAINTENANCE WORKER I
STREET MAINTENANCE WORKER II

DEFINITION

To perform semi-skilled and skilled labor in the construction, maintenance, repair and related service activities related to streets, sidewalk, storm drain, sign, and traffic marking; and to operate construction equipment as required.

DISTINGUISHING CHARACTERISTICS

Street Maintenance Worker I - This is the entry level class in the Street Maintenance series. Positions in this class typically have little or no directly related work experience and work under immediate supervision while learning job tasks. The Street Maintenance Worker I class is distinguished from the II level by the performance of less than the full range of duties assigned to the II level. Incumbents work under immediate supervision while learning job tasks, progressing to general supervision as procedures and processes of assigned area of responsibility are learned.

Street Maintenance Worker II - This is the journey level class in the Street Maintenance Worker series and is distinguished from the I level by the ability to perform the full range of duties assigned with only occasional instruction or assistance as unusual or unique situations arise. Positions in this class are flexibly staffed and are normally filled by advancement from the I level.

SUPERVISION RECEIVED AND EXERCISED

Street Maintenance Worker I

Receives immediate supervision from the Street Maintenance Supervisor; and receives technical and functional supervision from a Senior Street Maintenance Worker.

Street Maintenance Worker II

Receives general supervision from the Street Maintenance Supervisor; and receives technical and functional supervision from the Senior Street Maintenance Worker.
