Create your own video games,
animations, apps and websites.

Roseville Public Library Online
Code Club is open to all youth
ages 8 to 18.

What is this program?

Meet Fiero, one of our newest virtual resources. Fiero is an all-in-one learn-to-code platform that teaches you to code with games and missions.

How to participate:

Create your own Fiero account for free using your Roseville Public Library card! Go to app.fierocode.com, choose the Roseville Public Library location closest to you and enter your/your guardian's library card #.

For more chances to win, click the **Challenge** tab and join Fiero's online Coding Challenge. You'll compete against young coders around the world to win coding prizes like drones or robots.

Coding Log

Track your minutes spent coding with Fiero using the log below. When you complete this log, bring it to the front desk at any Roseville Public Library location to receive a ticket to enter our seasonal prize drawing. The more logs you complete, the more chances you have to win each season. We will draw a winner during Spring, Summer and Fall. Check out this season's prize by clicking **Fiero Code** on the Programs page of the Roseville Public Library website: roseville.ca.us/library.

Color in a  below for every 30 minutes of Fiero Code you complete.
