Use this space to describe a positive aspect of living in Roseville:

Submitted By	Date	Type	Responses
Anonymous Participant	09/22/04	Survey	Convenience and quality of services, shopping, and utilities.
Anonymous Participant	09/22/04	Survey	Convenience, safety, and a plethora of high quality restaurants and shops make it easy to spend my discretionary money within Roseville's tax base. Live in Roseville? Shop in Roseville!
Anonymous Participant	09/22/04	Survey	Outstanding community programs (i.e. parks, recreation, educator shade tree program)
Anonymous Participant	09/22/04	Survey	Living in a dynamic community. We love living near Maidu Park. We also love having easy access to shopping/dining/mountains/S.F./Napa...etc
Anonymous Participant	09/22/04	Survey	1) Even though the city is growing at a rediculas pace, it still has a somewhat 'small town' atmosphere. 2) Everything (Dr., hospital,stores, etc) are very convinient as far as location.
Anonymous Participant	09/22/04	Survey	Low crime rate/good shopping& restaurants
Anonymous Participant	09/22/04	Survey	I love living in Roseville because of the stong sense of community. I'm afraid of the rapid growth in west roseville we may loose some of that.
Anonymous Participant	09/22/04	Survey	low crime rate
Anonymous Participant	09/23/04	Survey	open nature areas such as maidu park and creek beds
Anonymous Participant	09/23/04	Survey	The crime rate is low. The community is family oriented. There is adequate shopping. There are many recreational activities available
Anonymous Participant	09/23/04	Survey	Clean, safe and well-planned development.
Anonymous Participant	09/23/04	Survey	emergency services are good convenient access to shopping, schools, medical facilities
Anonymous Participant	09/24/04	Survey	A willingness to work with residents to improve the community.
Anonymous Participant	09/25/04	Survey	Great location, excellent shopping, excellent restuarants, lots of parks, minimal crime.
Anonymous Participant	09/27/04	Survey	Well thought out community with adequate recreation areas. Roseville is community oriented with quality facilities for youth activities.
Anonymous Participant	09/28/04	Survey	The landscaping and maintenence of public properties and roadways.
Anonymous Participant	09/29/04	Survey	Good safe schools.
Anonymous Participant	09/30/04	Survey	Low crime rate.
Anonymous Participant	09/30/04	Survey	Good schools.
Anonymous Participant	10/04/04	Survey	The quality of life in Roseville is superior to other areas because of their pro-active planning and approach to things. I feel the tax dollars that the City of Roseville collects is being used wisely.
Participants responding: 20			

Your previous feedback instructed City management to focus on traffic enforcement, congestion, and signal timing. These are currently high priorities for improvement.

What other existing aspect about Roseville needs to change or improve?

Submitted By	Date	Type	Responses
Anonymous Participant	09/22/04	Survey	More improvement in downtown like the new City Hall
Anonymous Participant	09/22/04	Survey	The large number of homeless on Douglas Blvd. has made me reluctant to eat or shop there. (All the way to Sierra College Blvd.)
Anonymous Participant	09/22/04	Survey	Too much open space being gobbled up by ugly housing tracts with huge homes on tiny lots. This has taken the visual appeal away from Roseville and made it feel crowded.
Anonymous Participant	09/22/04	Survey	Youth activities.
Anonymous Participant	09/22/04	Survey	1) Parking lots (spaces) are too small. 2) Neighborhood parks 3) Stop, or at least slow down the growth of Roseville 4) Definitely continue traffic enforcement; too many people are running red lights...
Anonymous Participant	09/22/04	Survey	Dog leash law enforcement
Anonymous Participant	09/22/04	Survey	Arts and cultural programs and facilities.
Anonymous Participant	09/22/04	Survey	I would like to see Roseville partner more with Sacramento on the arts, sports (help with a new Kings arena), smog, traffic, etc.
Anonymous Participant	09/22/04	Survey	More cultural events, real music, theater.
Anonymous Participant	09/23/04	Survey	some other way for people to get from west areas of roseville to ge to freeway 80 other than cirby way
Anonymous Participant	09/23/04	Survey	Recycling efforts needs to be increased. I wish we had a curbside recycling program.
Anonymous Participant	09/23/04	Survey	Continue to work traffic congestion bottlenecks and enforcement. I feels as though the city streets are turned over to the teens at about 10pm - esp. on weekends. Many cars racing around and driving recklessly. The police should really crack down on this. It bothers my wife and I to even go out at this time and we're barely in our 40's!
Anonymous Participant	09/23/04	Survey	City needs to better police and maintain its existing open space and nature areas
Anonymous Participant	09/25/04	Survey	Groth needs to be controlled to ensure that overcrowding does not deminish our way of life
Anonymous Participant	09/27/04	Survey	While 'Old Roseville' has a downtown feel to it, 'New Roseville' has no way to really tie it's families together other than youth athletics.....that I know of.
Anonymous Participant	09/28/04	Survey	The city council should really pay more attention to residents who show up for meetings to express their concerns and not just brush them off.
Anonymous Participant	09/29/04	Survey	Seems like no one is watching for noise pollution.
Anonymous Participant	09/30/04	Survey	We need to have a low cost grocery provider other than the bulk stores like Sam's or Costco. All of the grocery stores are extremely high priced, we are losing sales tax \$\$ because people are going out of the city to buy groceries.
Anonymous Participant	10/04/04	Survey	crowd control, how to keep Roseville 'a smal town' rather than a bi gigantic suburb.
Anonymous Participant	10/04/04	Survey	I have noticed a significant improvement in signal timing on Douglr Blvd. and many other roads on the East side of Roseville where I travel the most.

Use this space to describe a facility, resource, or program you have experienced in any other City that would be desirable to have in Roseville:

Submitted By	Date	Type	Responses
Anonymous Participant	09/22/04	Survey	None comes to mind
Anonymous Participant	09/22/04	Survey	The downtown library in Sacramento (on a smaller scale, of course

Anonymous Participant	09/22/04	Survey	Community Theater.
Anonymous Participant	09/22/04	Survey	Youth music like a symphony or choir. Sacramento Youth Symphon is an example.
Anonymous Participant	09/23/04	Survey	I can think of two: a curbside recycling program and better libraries. In the bay area we had a curbside recycling program. We would separate out the recyclables into bins. A truck would come by and pick them up. It was very convenient. The other facility that I would like to see here is a larger library. I grew up using the Gail Borden Library in Elgin, IL. that library was terrific. They had a wide variety of services and a very extensive collection of books. I have never found a library, except for the university libraries, that is as good. I think the roseville library is much too small.
Anonymous Participant	09/25/04	Survey	None
Anonymous Participant	09/27/04	Survey	I came to enjoy the down town areas in Redwood City and Palo Alto. Great restaurants, shops and places to stroll. Roseville really does not have this.
Anonymous Participant	09/29/04	Survey	Time of use meters at homes for better usage of electricity.
Anonymous Participant	09/30/04	Survey	PAL or Police Athletic League. Have Police or Fire Dept. provide activities where they are seen as positive role model for children through after school programs such as athletic leagues or equivalent.
Anonymous Participant	09/30/04	Survey	A nice venue for concerts.
Anonymous Participant	10/04/04	Survey	Recently I was looked into using Mass transit to travel to Folsom for employment. To do this I could possibly be going through four different city/county areas of Roseville, Placer County, Sacramento County and Folsom. I found it impossible to access or get around to any of these areas. Could it be possible to coordinate efforts with these other area transits to have routes that would connect these areas? If every area had it's turn to run the route it shouldn't be a burden of costs of would be shared. I could see that each area served its own area well but trying to connect or even get close to connection was not possible. Are there other areas along our borders that might need this same solution?

Use this space for any advice you might have for city planners about how to manage Roseville's growth properly:

Submitted By	Date	Type	Responses
Anonymous Participant	09/22/04	Survey	Be cautious of the Two Roseville syndrome: East and West Roseville's bifurcated by Old Town. With growth and activity not occurring in the Southeast corner of Roseville, there may be a tendency to ignore that area or take it for granted.
Anonymous Participant	09/22/04	Survey	Don't neglect existing parts of the city to always push the new growth & development.
Anonymous Participant	09/22/04	Survey	Preserve open spaces. We chose this area over 15 years ago because it was NOT the Bay Area. It is rapidly becoming a duplication of the same.
Anonymous Participant	09/22/04	Survey	Slow down!!!
Anonymous Participant	09/22/04	Survey	Make sure there is adequate power and water available, even in drought years to support any significant growth. Also make sure there are adequate schools. We don't need another Antelope high school problem. Make sure there is adequate highways and road infrastructure to support the increased population.
Anonymous Participant	09/23/04	Survey	don't allow the 'bait' of a college to allow rezoning--make sure adequate traffic connections are in place before new development allowed
Anonymous Participant	09/23/04	Survey	It is very important to consider how a project will impact the environment of the neighborhood; traffic, air and water quality. The city will need to make improvements to Baseline rd. in order to adequately handle the increased traffic that annexing the surrounding area will generate.

Anonymous Participant	09/23/04	Survey	Better account for traffic congestion and bottlenecks. Ensure police enforcement keeps pace with growth and the 'draw' of criminals from Sac. and Bay Area targetting the affluent in Rosevill.
Anonymous Participant	09/23/04	Survey	With a increasing U.S. population assuring the continuing environmental degradation and decline of our standard of living cities are forced to zone land for development in order to attempt t meet housing and commercial needs. The cities are moraly obligated to allow as much land for development as possible in ord to permit construction of affordable housing.
Anonymous Participant	09/24/04	Survey	Balance is a key factor to growth. Isolationism, as promoted by some, is a major step backwards. However, unbridled growth leads to urban sprawl (like the Bay area has become) and will ruin the charm of this wonderful community.
Anonymous Participant	09/25/04	Survey	This is a wonderful city to live in, please do not let uncontrolled growth negatively impact what we have.
Anonymous Participant	09/27/04	Survey	This is a hard thing. Infastructure is critical to successful sustained growth. I feel with Roseville running its own utilities and water, this gives us a distinct advantage over our own destiny. I am however, concerned about traffic and roads as we expand. Although Rosevill seems to have planned our own growth relatively well, the surrounding cities, counties and other areas may not be able to sustain our/there growth patterns. This needs to be addressed.
Anonymous Participant	09/29/04	Survey	Please consider long term educational and financila gains versus short term, financila only, potentials while making decisions. Please also consider that the cost of being completely independent is extremely high. Consider partnerships with well organised, finances communités or institutions to further goals that would bring a healthy community of Rosevillians.
Anonymous Participant	09/30/04	Survey	Place caps on growth.
Anonymous Participant	10/04/04	Survey	Start managing it. It seems like everything is allowed without concern for the environment and the massive growth. Start planning, start mandating environmental protection. Stop going for crowded developments, require space planning. We need more ope space and green belts to retain the air quality, charm, lifestyle of Roseville.
